Lessing Seda ARIKAN, 2024-09-06 The ethical approaches to literature have come into prominence in the twentieth century calling for a turn to ethics in the studies of humanities in general and literary studies in particular By leading the ethical turn in literature many theorists proposed a moral oriented approach to literature which is still a significant part of literary

criticism The ethical turn in literature has changed the spirit of literary criticism in the direction of virtue and value based approaches In this respect this study scrutinises Doris Lessing s novels in light of virtue ethics in general and virtue politics care ethics and Sufi virtue ethics in particular Lessing s connection to virtue ethics which is implicitly or explicitly reflected in her novels is examined by giving the panorama of ethical movements whose common point is virtues This study asserts that Lessing implements an ethical concern in her novels which is based on her own understanding of virtue ethics Doris Lessing and the Forming of History Kevin Brazil,2016-09-20 The death of Nobel Prize winning Doris Lessing sparked a range of commemorations that cemented her place as one of the major figures of twentieth and twenty first century world literature This volume views Lessing s writing as a whole and in retrospect focusing on her innovative attempts to rework literary form to engage with the challenges thrown up by the sweeping historical changes through which she lived The 12 original chapters provide new readings of Lessing s work via contexts ranging from post war youth politics and radical women s writing to European cinema analyse her experiments with genres from realism to autobiography and science fiction and draw on previously unstudied archive material The volume also explores how Lessing s writing can provide insight into some of the issues now shaping twenty first century scholarship including trauma ecocriticism the post human and world literature as they emerge as defining challenges to our own present moment in history *Doris Lessing* Susan Watkins,2013-07-19 This study examines the writing career of the respected and prolific novelist Doris Lessing who was awarded the Nobel Prize for Literature in 2007 and has recently published what she has announced will be her final novel Whereas earlier assessments have focused on Lessing s relationship with feminism and the impact of her 1962 novel *The Golden Notebook* this book argues that Lessing s writing was formed by her experiences of the colonial encounter it makes use of postcolonial theory and criticism to examine Lessing s continued interest in ideas of nation empire gender and race and the connections between them The book examines the entire range of her writing including her most recent fiction and non fiction which have been comparatively neglected The book is aimed at undergraduate and postgraduate students of Doris Lessing s work as well as the general reader who enjoys her writing This is the first significant book length critical evaluation in ten years The Fiction of Doris Lessing Ratna Raman,2021-10-15 Doris Lessing 1919 2013 a prolific contemporary author was awarded the Nobel Prize in Literature in 2007 for her life work Examining five decades of Lessing s unique life narrative strategies and the literary traditions that she drew upon and improvised this book highlights her extraordinary significance as a writer of our times and for our times Lessing s fiction and non fiction provide a seminal understanding of the key issues that shaped the twentieth century Autodidactic and keenly interested in the world around her Lessing flagged the problems of racism in Africa the inequity of class in modern England the limitations of white middle class women s movements that overlooked the rights of women across race and class the marginalisation of individuals the horror of nuclear war and the need for disarmament and the hazardous global expansion in the face of unrelenting technological progress Further she raised the

concern of the atomisation of modern families violence and the urgent need for alternate modes of viewing voicing anxieties decades ahead of other contemporary writers Making futuristic projections through innumerable genres of writing such as realistic narratives memoirs diaries and science fiction Lessing examines myth psychoanalysis and Marxist perspectives engaging with a gamut of experiences that have defined modernity and sets up feminist blueprints that challenge atrophying patriarchal hegemonies *Doris Lessing* Alice Ridout, Susan Watkins, 2011-10-20 Despite winning the Nobel Prize for Literature Doris Lessing has received relatively little critical attention One of the reasons for this is that Lessing has spent much of her lifetime and her long published writing career crossing both national and ideological borders This essay collection reflects and explores the incredible variety of Lessing's border crossings and positions her writing in its various social and cultural contexts Lessing crosses literal national borders in her life and work but more controversial have been her crossings of genre borders into sci fi and space fiction and her crossing of ideological borders such as moving into and out of the Communist Party and from a colonial into a post colonial world This timely collection also considers a number of the most interesting recent critical and theoretical approaches to Lessing's writing including work on maternity and abjection in relation to *The Fifth Child* and *The Grass is Singing* eco criticism in Lessing's *Ifrahan* novels and postcolonial re writings of landscape in her *African Stories* **A Companion to the British and Irish Novel, 1945 - 2000** Brian W.

Discourses of Ageing in Fiction and Feminism J. King, 2012-11-13 This book explores the way older women are represented in society Through close readings of novels by major 20th century novelists compared with the more dominant representations of female ageing to be found in popular culture it suggests that they offer a feminist understanding of the invisible woman sometimes lacking in feminism itself

Adventures of the Spirit Phyllis Sternberg Perrakis, 2007 In Adventures of the Spirit Phyllis Sternberg Perrakis brings together eleven American and Canadian literary gerontologists to examine a new kind of adventure for the older woman in literature This

volume of critical essays analyzes recent works by contemporary women writers whose characters midlife and later life changes are mapped in their narratives Rather than focusing on the painful losses undergone by women of a certain age recent narratives explore a new kind of adventure of aging one that is spiritual in nature enabling new ways of being and becoming but open ended and capable of great variation in practice In particular these journeys of the spirit focus on the retrospective movement undergone by a midlife or older woman as she is led by inner or outer forces to assess where she has come from and decipher a shape or pattern to her journey These journeys do not leave the body behind as they map new spiritual territory Rather they honor spirit's embrace of the natural world and relationships as well as its aspirations for evolving development and eternal existence The essays in *Adventures of the Spirit* employ a wide variety of critical lenses to chart these adventures including archetypal Sufi post colonial and feminist analysis archival research aboriginal life writing and trauma theory These studies bring a new understanding to women's adventure of age in both literary texts and in life

Theatre-Fiction in Britain from Henry James to Doris Lessing Graham Wolfe, 2019-06-10 This volume posits and explores an intermedial genre called theatre fiction understood in its broadest sense as referring to novels and stories that engage in concrete and sustained ways with theatre Though theatre has made star appearances in dozens of literary fictions including many by modern history's most influential authors no full length study has dedicated itself specifically to theatre fiction in fact there has not even been a recognized name for the phenomenon Focusing on Britain where most of the world's theatre novels have been produced and commencing in the late nineteenth century when theatre increasingly took on major roles in novels *Theatre Fiction in Britain* argues for the benefits of considering these works in relation to each other to a history of development and to the theatre of their time New modes of intermedial analysis are modelled through close studies of Henry James Somerset Maugham Virginia Woolf J B Priestley Ngaio Marsh Angela Carter and Doris Lessing all of whom were deeply involved in the theatre world as playwrights directors reviewers and theorists Drawing as much on theatre scholarship as on literary theory *Theatre Fiction in Britain* presents theatre fiction as one of the past century's most vital means of exploring reconsidering and bringing forth theatre's potentials *Madness in Context: Historical, Poetic and Artistic Narratives* Gonzalo Araoz, 2020-10-12

LITERATURE, GENDER, SPACE Beatriz Domínguez García, Sonia Villegas López, 2021-09-11 Perhaps the most serious challenge that the present volume offers to the latest literature on the topic is the reflection on gender space and literature from the perspective of masculinity a position which has been no doubt neglected by many years of feminist debate concentrating on women's positions and circumstances This is specifically one of the novelties that the International Conference on Gendered Spaces celebrated in May 2001 at the University of Huelva from which this work springs introduced The articles collected here constitute a selection of the most relevant contributions made at this Conference **Science Fiction, Canonization, Marginalization, and the Academy** Gary Westfahl, George Slusser, 2002-01-30 Science fiction occupies a peculiar place in the academic study of literature For decades scholars have

looked at science fiction with disdain and have criticized it for being inferior to other types of literature. But despite the sentiments of these traditionalists, many works of science fiction engage recognized canonical texts such as the *Odyssey* and many traditionally canonical works contain elements of science fiction. More recently, the canon has been subject to revision as scholars have deliberately sought to include works that reflect diversity and have participated in the serious study of popular culture. But these attempts to create a more inclusive canon have nonetheless continued to marginalize science fiction. This book examines the treatment of science fiction within the academy. The expert contributors to this volume explore a wide range of topics related to the place of science fiction in literary studies. These include academic attitudes toward science fiction, the role of journals and cultural gatekeepers in canon formation, and the marginalization of specific works and authors by literary critics. In addition, the volume gives special attention to multicultural and feminist concerns. In discussing these topics, the book sheds considerable light on much broader issues related to the politics of literary studies and academic inquiry.

Transrealist Fiction Damien Broderick, 2000-06-30 Transrealist writing treats immediate perceptions in a fantastic way according to science fiction writer and mathematician Rudy Rucker, who originated the term. In the expanded sense argued in this book, it also intensifies imaginative fiction by writing the fantastic from the standpoint of richly personalized experience. Transrealism is also related to slipstream writing, another category introduced into studies of speculative fiction to account for texts that seem to follow trajectories mapped by the huge body of science fiction accumulated in the last century while retaining a central interest in traditional literary strategies. This book examines a variety of work from the transrealist perspective, something that has not been done previously. It emphasizes the texts of Philip K. Dick and Rucker himself, while it additionally engages the texts of such slipstream writers as Kurt Vonnegut, J. G. Ballard, and John Barth. It places its argument against the antihumanist trend in science fiction and builds comparisons with more traditional varieties of science fiction works.

Margaret Atwood John Moss, Tobi Kozakewich, 2006 Margaret Atwood enjoys a unique prominence in Canadian letters. With over thirty books to her credit in genres ranging from children's writing to dystopic novels, she is as creatively diverse as she is internationally acclaimed. Her success, however, has been double-edged: the very popularity that makes her such a prominent figure in the literary world also renders her vulnerable to claims of being a sell-out, as she relates in her *Empson* lectures. *The Open Eye* negotiates the space between these positions, acknowledging Atwood's remarkable achievement while considering how it impacts on national politics and identity. The range of perspectives in this volume is stimulating and enlightening. *The Open Eye* begins with a focus on Atwood as she presents herself and is presented in Canada and abroad, and then proceeds to consider more broadly the intersection of life and literature that Atwood's works and persona effect. It offers fresh insight into Atwood's early writing, redresses the critical void regarding her poetry and shorter prose pieces, and provides a critical base from which readers can assess Atwood's most recent novels. A common thread throughout these essays is the recognition of Atwood's importance in the literary realm.
