Spiritual Journey Sacred Art From Musae Guimet:

Spiritual Journey Ahmet Ertuğ, Jacques Giès, 2004 Highly recommended and a must have for any collector or academic library this volume is filled with stunning full page photographs of 240 objects in the collection of the Musee Guimet A booklike this has not been done for decades and it is very fresh to see the collection being presented in such an elegant format Accompanying texts provide the most up to date scholarship on the subjects and were prepared by curators of the individual sections *Spirituality across Disciplines: Research and Practice*: Marian de Souza, Jane Bone, Jacqueline Watson, 2016-06-29 This book collects multiple disciplinary voices which explore current research and perspectives to discuss how spirituality is understood interpreted and applied in a range of contexts It addresses spirituality in combination with such topics as Christian mysticism childhood and adolescent education midwifery and sustainability It links spirituality to a variety of disciplines including cognitive neuroscience sociology and psychology Finally it discusses the application of spirituality within the context of social work teaching health care and occupational therapy A final chapter provides an analytical discussion of the different voices that appear in the book and offers a holistic description of spirituality which has the potential to bring some unity to the meaning expression and practice of spirituality across a variety of disciplines as well as across cultural religious and secular worldviews A strength of the book is that each chapter is characterized by a fearless confronting of oppositional perspectives and use of the latest research in addressing them The book takes the difficult topic of spirituality into almost every nook and cranny of personal and professional life There is a persistent grasping of the contentiousness of the topic together with addressing counter positions and utilizing updated research across a range of fields in doing this The opening and closing chapters serve as book ends that keep the whole volume together Terence Lovat The University of Newcastle Australia The interdisciplinary nature of the work is by far the strongest aspect of this volume It has the potential to contribute to a dialogue between different professions and disciplines This prospective publication promises to promote a more holistic approach to the study of spirituality This volume takes into consideration a wide variety of issues The way the editors have structured the sequence of chapters contributes to facilitate any possible dialogue between the different areas Adrian Mario Gellel University of Malta Malta **Lost Kingdoms: Hindu-Buddhist Sculpture of Early Southeast Asia** Guy, John, 2014-04-07 A fresh and exciting exploration of Southeast Asian history from the 5th to 9th century seen through the lens of the region s sculpture **Maṇḍalas in the Making** Michelle C. Wang, 2017-12-18 The first scholarly monograph on Buddhist maṇḍalas in China this book examines the Maṇḍala of Eight Great Bodhisattvas This iconographic template in which a central Buddha is flanked by eight attendants flourished during the Tibetan 786 848 and post Tibetan Guiyijun 848 1036 periods at Dunhuang A rare motif that appears in only four cave shrines at the Mogao and Yulin sites the maṇḍala bore associations with political authority and received patronage from local rulers Attending to the historical and cultural contexts surrounding this iconography this book demonstrates that transcultural communication over

the Silk Routes during this period and the religious dialogue between the Chinese and Tibetan communities were defining characteristics of the visual language of Buddhist ma alas at Dunhuang
