An Art of Our Own Roger Lipsey, 1997 **The Spiritual Dynamic in Modern Art** C. Spretnak, 2014-10-22 This book demonstrates that numerous prominent artists in every period of the modern era were expressing spiritual interests when they created celebrated works of art This magisterial overview insightfully reveals the centrality of an often denied and misunderstood element in the cultural history of modern art The Culture and Art of Death in 19th Century America D. Tulla Lightfoot, 2019-02-21 Nineteenth century Victorian era mourning rituals long and elaborate public funerals the wearing of lavishly somber mourning clothes and families posing for portraits with deceased loved ones are often depicted as bizarre or scary But behind many such customs were rational or spiritual meanings This book offers an in depth explanation at how death affected American society and the creative ways in which people responded to it The author discusses such topics as mediums as performance artists and postmortem painters and photographers and draws a connection between death and the emergence of three dimensional media *Intersections of Financial Literacy, Citizenship, and Spirituality* Thomas A. Primitivism and Twentieth-Century Art Jack Flam, Miriam Deutch, 2003-03-27 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not

only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa* *Transcendence and History* Glenn Hughes, 2003-05-01 *Transcendence and History* is an analysis of what philosopher Eric Voegelin described as the decisive problem of philosophy the dilemma of the discovery of transcendent meaning and the impact of this discovery on human self understanding The world s major religious and wisdom traditions are built upon the recognition of transcendent meaning and our own cultural and linguistic heritage has long since absorbed the postcosmological division of reality into the two dimensions of transcendence and immanence But the last three centuries in the West have seen a growing resistance to the idea of transcendent meaning contemporary and postmodern interpretations of the human situation both popular and intellectual indicate a widespread eclipse of confidence in the truth of transcendence In *Transcendence and History* Glenn Hughes contributes to the understanding of transcendent meaning and the problems associated with it assisting in the philosophical recovery of the legitimacy of the notion of transcendence Depending primarily on the treatments of transcendence found in the writings of twentieth century philosophers Eric Voegelin and Bernard Lonergan Hughes explores the historical discovery of transcendent meaning and then examines what it indicates about the structure of history Hughes s main focus however is on clarifying the problem of transcendence in relation to historical existence Addressing both layreaders and scholars Hughes applies the insights and analyses of Voegelin and

Lonergan to considerable advantage Transcendence and History will be of particular value to those who have grappled with the notion of transcendence in the study of philosophy comparative religion political theory history philosophical anthropology and art or poetry By examining transcendent meaning as the key factor in the search for ultimate meaning from ancient societies to the present the book demonstrates how the decisive problem of philosophy both illuminates and presents a vital challenge to contemporary intellectual discourse Modernism and the Spiritual in Russian Art Louise

Hardiman,Nicola Kozicharow,2017-11-13 In 1911 Vasily Kandinsky published the first edition of On the Spiritual in Art a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist For many artists of late Imperial Russia a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context Modernism and the Spiritual in Russian Art New Perspectives enriches our understanding of the modernist period and breaks new ground in its re examination of the role of religion and spirituality in the visual arts in late Imperial Russia Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored revealing uncharted corners and challenging long held assumptions **Spiritual Philosophers: From**

Schopenhauer to Irigaray Richard White,2020-02-20 How does thinking illuminate the spiritual view of life How does a close examination of key spiritual thinkers help us to live in the modern world And in what way does philosophy enhance spirituality In this book Richard White answers these questions by analysing a range of important philosophers from Schopenhauer in the first half of the 19th century to Irigaray in the present day Each chapter examines the work of a single writer and one closely associated theme such as Nietzsche on generosity Benjamin on wisdom and Derrida on mourning The author looks at philosophy and spirituality in the tradition of continental philosophy and he views spirituality as something that can be separated from religion With the rise of reductive scientific materialism becoming ever more prevalent in modern society White seeks to recover the idea of a spiritual tradition which is not otherworldly but philosophical in nature The thinkers discussed in this book articulate some of the deepest possibilities of human existence Spiritual Philosophers offers

an approach to philosophy as a spiritual practice which the author sees as an integral part of our life As a pioneering work in an emerging field the philosophy of spirituality this book contributes to several key debates surrounding spirituality theology and the role of philosophy in the contemporary world *Reclaiming the Spiritual in Art* Dawn Perlmutter, Debra Koppman, 1999-01-01 Examines the role of the sacred in art and makes a compelling case for its continued contemporary relevance

Out of the New Spirituality of the Twentieth Century Svetoslava Toncheva, 2015-04-30 The book is focused on the phenomenon of the new spirituality and the impact which it appear to have on the religious sphere and the contemporary culture It referes to three particular European movements the anthroposophy of the Austrian philosopher Rudolf Steiner a movement which has influenced many social spheres like pedagogic the Waldorf education medicine art etc the movement created by the Bulgarian spiritual teacher Pet r D nov known as the White Brotherhood turned into transnational spiritual community and the Unified Teaching of the young Russian spiritual writer and healer Zor Aleph developing between Russia and Bulgaria The work based on the anthropological methods of fieldwork and analysis aims to examine the significance of the three movements and their national and transnational specifics in the framework of the European spiritual sphere
