Spiritual Information 100 Perspectives On Science And Religion:

Spiritual Information Charles L. Harper, 2005-06 *Spiritual Information* is a collection of one hundred essays that explore a portion of the vast interdisciplinary approaches to the study of science and religion. Individually and together the essays show how the study of ourselves, our planet, and the universe helps us understand our place as spiritual beings within God's universe. The book is a tribute to Sir John Templeton and his pioneering commitment toward new research that results in one hundredfold more spiritual information than humankind has ever possessed before. It begins with essays that reflect on Sir John's principal domains of interest and expertise: free enterprise, based finance, and accelerating spiritual progress. Themes of the sections are: Science, Religion, Dialogue, Cosmology, Physics and Astronomy, Mathematics, Musicology, and Speculation, Biological Evolution, the Human Being, Social Evolution, the Human Mind and Heart, Religion and Health, The Nature of the Divine, Theology and Philosophy, Faith Traditions. Sir John's leadership has enabled us to edge ever closer to the frontier where knowledge meets wisdom at the threshold of ultimate reality, notes the editor in the preface to this volume. As *Spiritual Information* presents an overview of how far we have come in the science and religion dialogue, it also opens windows to the vast possibilities for additional research and further advances in spiritual information. **Spiritual**

Harper, 2005 **Why Science and Faith Belong Together** Malcolm A. Jeeves, 2021-02-25 As we try to understand ourselves and the world we live in, all too often we look first to science and then, if gaps remain in our understanding, we try to fill the gaps with reference to God and our faith. Such a "god of the gaps" approach has a long history and is sadly alive and well today. This book was written to provide an alternative approach posing this basic question: How can educated Christians maintain their intellectual honesty and at the same time be faithful both to Scripture and to science? This book provides

examples of some of the liveliest science vs faith issues today and suggests ways to think constructively about each of them

Information Resources in the Humanities and the Arts Anna H. Perrault Ph.D., Elizabeth S. Aversa, Sonia Ramírez Wohlmuth, Cynthia J. Miller, Cynthia F.
