## **Spiritualism And Psychic Research:**

**The Other World** Janet Oppenheim, 1985 A study of the public fascination with spiritualism and psychical research in Victorian and Edwardian times      Spiritualism and Psychic Research C. W. Leadbeater, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work      **Parapsychology and Religion** Everton de Oliveira Maraldi, 2021-06-29 Parapsychology and Religion is perhaps the most controversial research area in the psychology of religion However in recent decades psychology of religion has witnessed a growing literature bearing on ontological issues including parapsychological topics such as distant healing and near death experiences This book argues that despite the methodological and theoretical controversies that still surround the field of parapsychology the findings of research on alleged anomalous processes can inform the study of religious spiritual experiences Psychological literature on the paranormal is critically reviewed and it is argued that it became less a scientific endeavor and more an ideological program devised to denigrate paranormal believers and experiencers This volume explores how an open minded dialogue between parapsychology and psychology of religion might help us move beyond the present ideological disputes and reviews the complex relations between parapsychology and religion over time as well as their implications for interdisciplinary research on religion and spirituality      **The Spiritualist Movement** Christopher M. Moreman, 2013-08-27 At once controversial and intriguing Spiritualism has spread from the United States to become a global movement Bringing together perspectives from within the movement and without this unique collection treats readers to insights about Spiritualism s history belief and practice Based on the belief that the dead can communicate with the living through mediums Spiritualism touches concepts as timelessly fascinating as human mortality and the continuing existence of the soul beyond bodily death This comprehensive work will help readers parse the mysteries of this uniquely American religion through three thematically organized volumes Spiritualism in the U S and Globally Evidence and Beliefs and Cultural and Social Issues Drawing on fields as diverse as psychology sociology religious studies anthropology history ethnic and gender studies literature and art this broad based collection frames Spiritualism through the views of a team of international scholars Among the many things that separate Spiritualism from mainstream religions is the involvement of women in central leadership roles Such cultural and political elements of the movement are one aspect of this study Of equal interest to believers and skeptics alike will be the work of scholars who have devoted themselves to examining the claim that communication through mediums proves the existence of life after death      Journal of the American Society for Psychical Research American Society for Psychical Research, 1920 List of members in v 1 6 12      Psychic Research and Gospel Miracles Edward Macomb Duff, Thomas Gilchrist Allen, 1902      **Fifty Years of Psychical**

**Spiritual Encounters with Unusual Light Phenomena** Mark Fox,2013-06-15 This book is a study of unusual light phenomena based on almost 400 unpublished accounts of modern day encounters with strange lights collected over a period of thirty years held at the University of Wales Lampeter It is an original and perennially topical book that goes beyond

existing studies of unusual light phenomena such as lights encountered during angelic experiences near death experiences after death communications in a number of ways It shows for example that experiences of unusual spiritual religious and paranormal lights are cross cultural trans historical and are reported widely in the present day but not necessarily experienced when near to death It also demonstrates that these experiences share to a remarkable degree a common core showing by drawing on a large number of vivid unpublished and dramatic testimonies that unusual lights typically manifest at times of crisis and are overwhelmingly benign and loving producing turning points in the lives of experiencers and typically setting them in new spiritual and creative directions
