Meditating Death in Medieval and Early Modern Devotional Writing Mark Chinca, 2020-06-11 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Meditating about death and the afterlife was one of the most important techniques that Christian societies in medieval and early modern Europe had at their disposal for developing a sense of individual selfhood Believers who regularly and systematically reflected on the inevitability of death and the certainty of eternal punishment in hell or reward in heaven would acquire an understanding of themselves as unique persons defined by their moral actions they would also learn to discipline themselves by feeling remorse for their sins doing penance and cultivating a permanent vigilance over their future thoughts and deeds This book covers a crucial period in the formation and transformation of the technique of meditating on death from the thirteenth century when a practice that had mainly been the preserve of a monastic elite began to be more widely disseminated among all segments of Christian society to the sixteenth when the Protestant Reformation transformed the technique of spiritual

exercise into a bible based mindfulness that avoided the stigma of works piety It discusses the textual instructions for meditation as well as the theories and beliefs and doctrines that lay behind them the sources are Latin and vernacular and enjoyed widespread circulation in Roman Christian and Protestant Europe during the period under consideration

and contemporaries both friendly and critical These include philosophers theologians politicians and canon lawyers And third the book follows the footsteps of the man from Kues and examines various sites where he lived studied or visited Because the author has also visited many of these sites he can contribute personal observations to enliven the journey To add to the book's usefulness as a resource and reference tool each entry is followed by a bibliography containing both recent and older works The purpose of the volume is to gain a greater appreciation of Cusanus and his legacy by striving for a total view of his thought and experience instead of narrowly focusing on specific philosophical theological or intellectual ideas or certain periods of his activities in isolation from other facets of this compelling figure

An Alchemical Quest for Universal Knowledge Georgiana D. Hedesan, 2016-04-20 History of science credits the Flemish physician alchemist and philosopher Jan Baptist Van Helmont 1579-1644 for his contributions to the development of chemistry and medicine Yet as this book makes clear focussing on Van Helmont's impact on modern science does not do justice to the complexity of his thought or to his influence on successive generations of intellectuals like Robert Boyle or Gottfried Leibniz Revealing Van Helmont as an original thinker who sought to produce a post-Scholastic synthesis of religion and natural philosophy Georgiana Hedesan reconstructs his ambitious quest for universal knowledge as it emerges from the text of the *Ortus medicinae* 1648 Published after Van Helmont's death by his son the work can best be understood as a compilation of finished and unfinished treatises the historical product of a life unsettled by religious persecution and personal misfortune The present book provides a coherent account of Van Helmont's philosophy by analysing its main tenets Divided into two parts the study opens with a background to Van Helmont's concept of an alchemical Christian philosophy demonstrating that his outlook was deeply grounded in the tradition of medical alchemy as reformed by Theophrastus von Hohenheim called Paracelsus 1493-1541 It then reconstitutes Van Helmont's biography while giving a historical dimension to his intellectual output The second part reconstructs Van Helmont's Christian philosophy investigating his views on God nature and man as well as his applied philosophy Hedesan also provides an account of the development of Van Helmont's thought throughout his life The conclusion sums up Van Helmont's intellectual achievement and highlights avenues of future research

Death and dying were not in the main focus of the denominational conflicts of the 16th century. However, pious literature covered these topics again and again, not only before the Reformation but after it as well. Here, certain denominational differences are clearly visible. Partly, these differences consist in the use of genres. For example, funeral sermons are an often used genre among Lutherans, while they are much rarer in the Reformed tradition. Similar differences can be observed concerning epitaphs. In Roman Catholic areas, funeral sermons and epitaphs are common in the 16th century too, but their religious function is often different from the one in Lutheranism. Beyond such interdenominational differences, there are also interesting continuities and connections which the contributors of the volume analyze. For example, there is a certain continuity between 16th century Lutheran funeral sermons and the late medieval tradition of *ars moriendi*. The volume contains papers presented at the Second RefoRC Conference in Oslo in 2012 and is characterized by a multiconfessional and multidisciplinary approach with contributions from Church History, Art History, Archaeology, History of Literature and Cultural History. Within a field of research dominated by specialized contributions, e.g. on *ars moriendi* traditions or on specific traditions of funeral monuments and funeral sermons, the broad approach of this volume may further stimulate comparative and cross-confessional reflection.

Reformations Carlos M. N. Eire, 2016-06-28 This fast-paced survey of Western civilization's transition from the Middle Ages to modernity brings that tumultuous period vividly to life. Carlos Eire, popular professor and gifted writer, chronicles the two hundred year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day. Eire connects the Protestant and Catholic Reformations in new and profound ways and he demonstrates convincingly that this crucial turning point in history not only affected people long gone but continues to shape our world and define who we are today. The book focuses on the vast changes that took place in Western civilization between 1450 and 1650, from Gutenberg's printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years War. Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism, skepticism and secularism, and he takes into account the expansion of European culture and religion into other lands, particularly the Americas and Asia. He also underscores how changes in religion transformed the Western secular world. A book created with students and nonspecialists in mind, *Reformations* is an inspiring, provocative volume for any reader who is curious about the role of ideas and beliefs in history.

Martin Luther as Comforter: Writings on Death Neil Leroux, 2007-06-30 What was Martin Luther's teaching regarding death, and to what extent did his own fears of and experiences with death manifest themselves in his writings? What influence did the medieval preoccupation with a good death have upon him? How did Luther counsel those facing death to meet it with acceptance or resistance or both? Using meticulous rhetorical analysis of select sermons, pamphlets and letters of consolation, this book examines how Luther offered

comfort to those who were facing their own death or who were coming to terms with the death of loved ones Thus the book makes an important contribution to existing scholarship on Luther and the formation of an early modern Protestant ethos surrounding death bereavement and burial

Promissory Notes on the Treasury of Merits Robert Swanson, 2018-11-12 Promissory Notes on the Treasury of Merits is a volume of 12 essays by a distinguished team of international scholars dealing with the place of indulgences in the religious life of Europe between roughly 1250 and the outbreak of the Reformation Some of the articles offer regional analyses stretching from Spain to the Netherlands from England to Bohemia and Italy Others deal with the theology and theological and practical controversies provoked by indulgences or with thematic issues like the place of indulgences in fifteenth century crusades in pilgrimage and the early exploitation of print in their distribution The complementary nature of the articles builds into a fuller picture of the central but hitherto neglected role which indulgences had in late medieval European religious life

'Church' at the Time of the Reformation Anna Vind, Herman J. Selderhuis, Violet Soen, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2021-06-07 The present volume aims at a clarification and a discussion of the church in the 16th century What did the reformers think about the essence and origin of the holy apostolic and Catholic church What was seen as the aim of it its task and mission Can human beings see the true church or not Does it have one existence in this world and another in the world to come Furthermore the concept of church is indissolubly connected to the theological concepts of sin faith justification sanctification and salvation and the study of the church also involves reflection upon the nature and scope of the sacraments the role of the clergy the aim of church buildings the significance of church properties and upon the constituent parts of the mass church service Finally and not least it is important to investigate the role of the church in the societies of the 16th century such as the impact of the ruling powers upon them their significance for education and social cohesion and the cultural significance of migrating believers on the run within and beyond the borders of Europe Together with theological philosophical and art historical questions these issues are considered in order to create a much fuller picture of the church at the time of the Reformation

Medieval Sensibilities Damien Boquet, Piroska Nagy, 2018-07-26 What do we know of the emotional life of the Middle Ages Though a long neglected subject a multitude of sources spiritual and secular literature iconography chronicles as well as theological and medical works provide clues to the central role emotions played in medieval society In this work historians Damien Boquet and Piroska Nagy delve into a rich variety of texts and images to reveal the many and nuanced experiences of emotion during the Middle Ages from the demonstrative shame of a saint to a nobleman's fear of embarrassment from the enthusiasm of a crusading band to the fear of a town threatened by the approach of war or plague Boquet and Nagy show how these outbursts of joy and pain while universal expressions must be understood within the specific context of medieval society During the Middle Ages a Christian model of affectivity was formed in the laboratory of the monasteries one which gradually

seeped into wider society interacting with the sensibilities of courtly culture and other forms of expression Bouquet and Nagy bring a thousand years of history to life demonstrating how the study of emotions in medieval society can also allow us to understand better our own social outlooks and customs

The Early Luther Berndt Hamm, 2017-01-01 The development of Martin Luther's thought has commanded much scholarly attention because of the Reformation and its remarkable effects on the history of Christianity in the West But much of that scholarship has been so enthralled by certain later debates that it has practically ignored and even distorted the context in and against which Luther's thought developed In *The Early Luther* Berndt Hamm armed with expertise both in late medieval intellectual life and in Luther presents new perspectives that leave old debates behind A master Luther scholar Hamm provides fresh insights into the development of Luther's theology from his entry into the monastery through his early lectures on the Bible to his writing of the 95 Theses in 1517 and *The Freedom of a Christian* in 1520 Rather than looking for a single breakthrough Hamm carefully outlines a series of significant shifts in Luther's late medieval theological worldview over the course of his early career The result is a more accurate nuanced portrait of Reformation giant Martin Luther
