An Informal History of the Hugos Jo Walton, 2018-08-07 Engaged passionate and consistently entertaining *An Informal History of the Hugos* is a book about the renowned science fiction

award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com the Locus Award winning *What Makes This Book So Great* The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been presented since 1953 They are widely considered the most prestigious awards in science fiction Between 2010 and 2013 Jo Walton wrote a series of posts for Tor.com surveying the Hugo finalists and winners from the award's inception up to the year 2000 Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time Walton's cheerfully opinionated and vastly well informed posts provoked valuable conversation among the field's historians Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton Gardner Dozois and David G Hartwell A remarkable guided tour through the field a kind of nonfiction companion to *Among Others* It's very good It's great New York Times bestselling author Cory Doctorow *Boing Boing* on *What Makes This Book So Great* *Encyclopedia of Science Fiction* Don D'Ammassa, 2015-04-22 Presents articles on the science fiction genre of literature including authors themes significant works and awards *Now and Then We Time Travel* Fraser A. Sherman, 2017-01-11 More than 400 films and 150 television series have featured time travel stories of rewriting history lovers separated by centuries journeys to the past or the often dystopian future This book examines some of the roles time travel plays on screen in science fiction and fantasy Plot synopses and credits are listed for films and TV series from England Canada the UK and Japan as well as for TV and films from elsewhere in the world Tropes and plot elements are highlighted The author discusses philosophical questions about time travel such as the logic of timelines causality what's to keep time travelers from jumping back and correcting every mistake and morality if you correct a mistake are you still guilty of it *Worlds Apart* Carl Darryl Malmgren, 1991-07-22 Malmgren succeeds in formulating a typology of science fiction that will become a standard reference for some years to come Choice the most intelligently organized and effectively argued general study of SF that I have ever read Rob Latham SFRA Review required reading for its evenhanded overview of so much of the previous critical theoretical material devoted to science fiction American Book Review *Worlds Apart* provides a comprehensive theoretical model for science fiction by examining the worlds of science fiction and the discourse which inscribes them Malmgren identifies the basic science fiction types including alien encounters alternate societies and worlds and fantasy and examines the role of the reader in concretizing and interpreting these science fiction worlds **The Far Edges of the Fourth Genre** Sean Prentiss, Joe Wilkins, 2014-03-01 Though creative nonfiction has been around since Montaigne St Augustine and Seneca we've only just begun to ask how this genre works why it functions the way it does and where its borders reside But for each question we ask another five or ten questions roll to the surface And each of these questions it seems requires a more convoluted series of answers What's more the questions students of creative nonfiction are drawn to during class discussions the ones they argue the longest and loudest are the same ideas debated by their

professors in the hallways and at the corner bar In this collection sixteen essential contemporary creative nonfiction writers reflect on whatever far dark edge of the genre they find themselves most drawn to The result is this fascinating anthology that wonders at the historical and contemporary borderlands between fiction and nonfiction the illusion of time on the page the mythology of memory poetry process and the use of received forms the impact of technology on our writerly lives immersive research and the power of witness a chronology and collage and what we write and why we write Contributors Nancer Ballard H Lee Barnes Kim Barnes Mary Clearman Blew Joy Castro Robin Hemley Judith Kitchen Brenda Miller Ander Monson Dinty W Moore Sean Prentiss Lia Purpura Erik Reece Jonathan Rovner Bob Shacochis and Joe Wilkins
