truth and justice      **Sport Coaching with Diverse Populations** James Wallis, John Lambert, 2020-10-25 Sports coaches apply their skills in a wider variety of contexts and with a more diverse range of athletes and participants than ever before. This book introduces the professional competencies and knowledge needed to build successful working relationships across the different communities and groups with which coaches operate. The book offers important insight for coaches who work with specific populations including different age groups, black Asian and minority ethnic BAME people, those of different gender or sexual orientation, individuals with disabilities or illness, the socio-economically disadvantaged and refugees. Drawing on real world case studies such as coaching girls in combat sports and coaching cardiac rehab patients and adopting a critical approach to values philosophy and pedagogic process, this book argues that understanding the recipient of coaching and their particular needs is as important as content knowledge. With contributions from leading coaching researchers and practitioners, this is important reading for developing coaches, students on sports courses and other individuals involved in the sport pedagogy domain who seek to gain a better understanding of the demands of meeting the specific needs of people in the coaching process.

**Handbook of Moral and Character Education** Larry Nucci, Tobias Krettenauer, 2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students. In fact, 80% of US states currently have mandates regarding character education. However, the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods. The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research-oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future. Now in its second edition, this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more.

Really Winning Jim Mastrich, 2002-09-21 Dr Jim Mastrich's years of experience as a licensed psychologist who consults athletes and counsels troubled adolescents and their families is the foundation of *Really Winning*, a comprehensive guide that provides mentors with the tools to foster integrity and character in boys. A must for any parent, this practical guide encourages parents and coaches to help athletes develop compassion and empathy instead of becoming arrogant and self-centered. Many of the modern-day heroes for boys are sports figures. But it seems today for every Tiger Woods whose talent is matched by good character, there's a Mike Tyson whose exploits and abuses give sports a bad name. *Really Winning* goes beyond many boy books published in recent years. By focusing specifically on the positive aspects of athletics and incorporating the psychological background of our boys, Dr Mastrich helps parents, coaches, and administrators create the ideal conditions for boys to become young men with sound character. Using many vignettes from his own practice, Dr Mastrich has shaped *Really Winning* into a readable, practical, anecdotal guidebook that no parent should be without.

*Sport, Development and Peace* Joel Rookwood,      *Values in Youth Sport and Physical Education* Jean Whitehead, Hamish

Telfer, John Lambert, 2013-12-04 As sport has become more intense professional and commercialized so have the debates grown about what constitutes acceptable behaviour and fair play and how to encourage and develop good sporting behaviour particularly in children and young people This book explores the nature and function of values in youth sport and establishes a framework through which coaches teachers and researchers can develop an understanding of the decision making processes of young athletes and how they choose between playing fairly or cheating to win The traditional view of sport participation is that it has a beneficial effect on the social and moral development of children and young people and that it intrinsically promotes cultural values This book argues that the research evidence is more subtle and nuanced It examines the concept of values as central organizing constructs of human behaviour that determine our priorities guide our choices and transfer across situations and considers the value priorities and conflicts that are so useful in helping us to understand behaviour in sport The book argues that teachers and professionals working with children in sport are centrally important agents for value transmission and change and therefore need to develop a deeper understanding of how sport can be used to encourage pro social values and offers suggestions for developing a curriculum for teaching values through sport in differing social contexts Spanning some of the fundamental areas of sport practice and research including sport psychology sport pedagogy practice ethics and positive youth development through sport and including useful values and attitudes questionnaires and guidance on their use and interpretation this book is important reading for any student researcher coach or teacher with an interest in youth sport or physical education *Becoming a Sports Coach* James Wallis, John Lambert, 2015-11-06 A coach is more than just somebody who leads in the organisation and delivery of structured sport The role of a coach goes beyond leadership requiring an understanding of theories of teaching and learning To become a coach you must know how people learn *Becoming a Sports Coach* aims to introduce the multi dimensional and inter locking knowledge bases that any aspiring coach will need to develop and that any established coach needs to master in order to improve their professional practice While traditional coach education pathways have focused on what to coach this book argues that understanding how knowledge can be communicated to learners is just as important Asking why we coach through critical reflection and self knowledge is also an essential part of the process of becoming a sports coach The book explores three types of knowledge content knowledge pedagogic knowledge and self knowledge challenging the reader to reflect on their own coaching experiences and to develop a personal philosophy of coaching It explores key pedagogic themes in contemporary coaching studies such as humanistic coaching inclusive practice coaching for understanding and the athlete coach relationship Real case studies are used to illuminate the ways transferrable across sports in which coaches can apply theory to practice and ultimately enhance their work With contributions from leading coaching researchers and practitioners combining practical guidance with important theoretical insights this book will help any coaching student or developing professional to better understand the journey to becoming an effective sports coach Harvard Magazine ,1997
