McCarroll, 2020-11-24 Christian Theology after Christendom Engaging the Thought of Douglas John Hall brings together contemporary thinkers to engage and build upon Douglas John Hall s work and to take up his challenge to reclaim a contextual and decolonizing theology of the cross as a means to speak to the realities of life and faith today With a focus on contemporary issues this edited collection critically analyzes and deconstructs the centuries old colonial triumphalism of Christian theology and the church in the West This book

seeks to frame present day crises in ways that honor a deeply rooted theologia crucis that does not colonize the other It explores constructive decolonizing possibilities for Christian theology at the end of Christendom Spotlight on the Relationship between Sepsis and Infection: from Mechanisms to Therapy Alessandro Russo,David Paterson,Matteo Bassetti,2021-09-29 **Handbook of Accounting, Accountability and Governance** Garry D. Robertson,2009-02-01 At once a travel guide and a vision for the future this series is good news for the Episcopal Church at a time of fast and furious demographic and social change It analyzes the present plight of the church and sketches a positive way forward sprouting from the seeds of change those transformative practices already at work renewing the church What church models can help point us toward transformation What are the essential tools What will give us strength direction and purpose to the journey Each volume of the series will Explain why a changed vision is essential Give robust theological and biblical foundations Offer a guide to best practices and positive trends in churches large and small Describe the necessary tools for change Imagine how transformation will look For most Episcopalians stewardship is synonymous with pledge drives budgets and capital campaigns but the Bible is clear that God wants more than our tithes and offerings Looking to its scriptural roots in 1 Chronicles Luke Acts and the letters of Paul as well as St Francis third way Robertson offers a vision of holistic stewardship for the whole church holistic because it can t be separated from evangelism outreach scripture study and ministry to the newcomer It does not involve strong arm tactics only a willingness to risk changing existing structures and ideas in order to enrich the faith community and strengthen connections to the neighboring world Transforming Stewardship delivers both good and bad news about Episcopalians and stewardship Robertson provides essential models and spiritual practices in order to transform the church s outmoded attitudes toward stewardship and wealth into a broader context of faith *Stewardship* Peter Block,2013-05-20 One of the most provocative and revolutionary books written on leadership business and organizational design Stewardship remains just as relevant even twenty years later to transforming our organizations for the common good of the wider community We still face the challenge of fostering ownership and accountability throughout our organizations Despite all the evidence calling for profound change most organizations still rely on patriarchy and control as their core form of governance The result is that they stifle initiative and spirit and alienate people from the work they do This in the face of an increasing need to find ways to be responsive to customers and the wider community Peter Block insists that

what is required is a dramatic shift in how we distribute power privilege and the control of money Stewardship he writes means giving people at the bottom and the boundaries of the organization choice over how to serve a customer a citizen a community It is the willingness to be accountable for the well being of the larger organization by operating in service rather than in control of those around us Block has revised and updated the book throughout including a new introduction addressing what has changed and what hasn't in the twenty years since the book was published and a new chapter on applying stewardship to the common good of the wider community He covers both the theory of stewardship in particular how it ameliorates the shortcomings of traditional leadership and the practice how it transforms every function and department for the better And he offers tactical advice as well on gearing up to implement these reforms Spotlight on Michigan, the Great Lake State Sheryl L.
