

The background of the book cover is a painting of an Arctic landscape. In the center, a person stands on a small, snow-covered mound, holding a long pole or staff. The foreground is a vast, flat, icy expanse. In the distance, there are low, dark mountains under a sky with soft, pinkish-purple hues, suggesting a sunset or sunrise. The overall tone is cold and desolate.

Spring On An Artic Island:

Through Feminist Eyes Joan Sangster, 2011 Through Feminist Eyes gathers in one volume the most incisive and insightful essays written to date by the distinguished Canadian historian Joan Sangster. To the original essays Sangster has added extensive introductory discussions that situate her earlier work in the context of developing theory and debate. Sangster has also supplied an introduction to the collection in which she reflects on the themes and theoretical orientations that have shaped the writing of women's history over the past thirty years. Approaching her subject matter from an array of interpretive frameworks that engage questions of gender, class, colonialism, politics, and labour, Sangster explores the lived experience of women in a variety of specific historical settings. In so doing, she sheds new light on issues that have sparked much debate among feminist historians and offers a thoughtful overview of the evolution of women's history in Canada.

Ducks, Geese, and Swans of North America Guy Baldassarre, 2014-11-15 The best selling and authoritative reference book on waterfowl has been fully revised and updated by one of the world's most respected waterfowl biologists. Honorable Mention for the PROSE Award for Excellence, Multivolume Science of the Association of American Publishers. Ducks, Geese, and Swans of North America has been hailed as a classic since the first edition was published in 1942. A must have for professional biologists, birders, waterfowl hunters, decoy collectors, and wildlife managers, this fully revised and updated edition provides definitive information on the continent's forty-six species. Maps of both winter and breeding ranges are presented with stunning images by top waterfowl photographers and the acclaimed original artwork of Robert W. Bob Hines. Originally authored by F. H. Kortright and later revised by Frank Bellrose, this latest edition, which has been meticulously updated by renowned waterfowl biologist Guy Baldassarre, continues the legacy of esteemed authors. Each species account contains in-depth sections on identification, distribution, migration, behavior, habitat, population status, breeding biology, rearing of young, recruitment, and survival, food habits, and feeding ecology, molts, and plumages, conservation, and management. To facilitate identification, the species accounts also include detailed illustrations of wings. An appendix contains comparative illustrations of ducklings, goslings, and cygnets. This edition of Ducks, Geese, and Swans consists of two volumes printed in full color and packaged in a slipcase along with a CD containing references and additional maps.
