Luschiim's Plants Luschiim Arvid Charlie, 2021-08-13 Respected Cowichan Tribe Elder and botanical expert Luschiim Arvid Charlie began his education in early childhood learning from his great grandparents and others of their generation. *Luschiim's Plants* represents his dedication to the survival of the Hul'q'umi'num language and traditional knowledge of plants for future generations. From the healing properties of qaanlhp arbutus to the many practical applications of q'am bull kelp, the information presented in this remarkable guide shares knowledge of plants that Luschiim is familiar with through his own Elders' teachings and by way of direct experience over the course of his lifetime and compiled from field outings and interviews with notable ethnobiologist and botanist Nancy Turner. In this unprecedented collection of botanical information, over 140 plants are categorized within their broad botanical groupings: algae and seaweeds, lichens, fungi, and mushrooms; mosses and liverworts; ferns and fern allies; coniferous trees; deciduous trees; shrubs and vines; and herbaceous flowering plants. Each entry is illustrated with a colour photo and includes the plant's common scientific and Hul'q'umi'num names, a short description, where to find it, and cultural knowledge related to the plant. Additional notes encompass plant use, safety, and conservation. The linguistic writing system used for Hul'q'umi'num plant names, as well as miscellaneous notes from interviews with Luschiim, are included. This volume is an important addition to the bookshelves of botanists and will fascinate anyone with an interest in plants of the West Coast and their traditional uses by Coast Salish peoples. **Spring in a Shropshire Abbey**
