Fundamental Statistics for Social Research Duncan Cramer,2003-09-02 This accessible introduction to statistics using the program SPSS for Windows explains when to apply and how to calculate and interpret a wide range of statistical procedures commonly used in the social sciences Keeping statistical symbols and formulae to a minimum and using simple examples this book assumes no prior knowledge of statistics or computing includes a concise introduction to the program SPSS for Windows describes a wider range of tests than other introductory texts contains a comprehensive range of exercises with answers Fundamental Statistics for Social Research covers SPSS Release 6 for Windows 3 1 and Release 7 for Windows 95 It will prove an invaluable introductory statistics text for students and a useful resource for graduates and professionals engaged in research in the social sciences *Territory, War, and Peace* John A. Vasquez,Marie T. Henehan,2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henehan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress An International Relations Perspective* and co editor of *The Scientific Study of Peace and War* **Introduction to the Practice of Statistics SPSS Manual** Linda Sorenson,2005-02-25 An introduction to

Optimización de la terapia con lopinavir/ritonavir en pacientes infectados por el vih LÓPEZ ASPIROZ,

Elena, 2015-06-01 El lopinavir ritonavir LPV r ha demostrado eficacia virológica e inmunológica en el tratamiento antirretroviral combinado de pacientes infectados por el VIH tanto en naïve como pretratados Además presenta una alta barrera genética al desarrollo de resistencias y su perfil de tolerancia es aceptable aunque son frecuentes alteraciones gastrointestinales y del perfil lipídico Sin embargo existe una elevada variabilidad interindividual en el comportamiento farmacocinético PK la respuesta inmunovirológica y la presencia de efectos adversos tras la administración de la dosis estándar de LPV r de 400/100 mg cada 12 horas Por ello para optimizar su utilización en terapéutica existen diferentes estrategias en la práctica clínica como la monitorización de niveles de fármacos TDM y la información farmacogenética PG El estudio de asociación genética sobre la influencia de 290 polimorfismos de un único nucleótido SNPs en genes candidatos sobre la PK la eficacia y la toxicidad de LPV r en 109 pacientes infectados por VIH mostró el mayor grado de significación estadística para los SNPs del gen DRD3 y la PK de LPV r El modelo PK PG poblacional desarrollado y validado para LPV r en pacientes infectados por el VIH utilizando la estrategia de efectos mixtos con el programa NONMEM identifica los SNPs CYP3A4_1461ins CYP3A

rs6945984 y CYP3A5 rs28371764 como covariables PG con probable influencia en la cinética de disposición de este fármaco. No obstante se requieren estudios complementarios que confirmen estos resultados debido a la baja representatividad en la población de estudio de algunas de las covariables genéticas analizadas. La implementación del modelo PK-PG poblacional de LPV propuesto en el programa de farmacocinética clínica PKS ha permitido estimar con fiabilidad los parámetros PK de los pacientes monitorizados utilizando métodos Bayesianos y de acuerdo con ellos y con el control clínico de la enfermedad ajustar la posología de forma individualizada.

Working with Women Offenders in the Community Rosemary Sheehan, Gill McIvor, Chris Trotter, 2010-12-21 Contributions to this book challenge policy makers and corrections systems to concentrate on community provision for women offenders and resist popular calls for more punitive responses to all offenders. Women included. Contributors come from a wide range of countries including Australia, Canada, UK and USA. They argue that the criminogenic lens applied to women's offending must be gender responsive if systems are to be successful at addressing the disadvantage and risk associated with offending behaviour.

Internet Censorship and Regulation Systems in Democracies: Emerging Research and Opportunities Koumartzis, Nikolaos, Veglis, Andreas, 2020-05-08 As the internet has been regulated from its conception many widespread beliefs regarding internet freedom are actually misconceptions. Additionally there are already two main categories of internet regulation systems in use: the open and the silent IRSs. Unexpectedly the former are quite popular among authoritarian regimes while the latter are implemented mainly in Western democracies. Many IT experts and media analysts criticize Western governments' choice to use a silent IRS expressing their fear that this could set a dangerous precedent for the rest of the democratic countries around the world. New regulation systems must be developed and implemented that are more acceptable to the general public. *Internet Censorship and Regulation Systems in Democracies: Emerging Research and Opportunities* is an essential reference source that discusses the phenomenon of internet regulation in general and the use of internet regulation systems (IRSs) by authoritarian regimes and Western democracies and proposes a blueprint for the development and implementation of a fair internet regulation system (FIRS) using original research conducted in seven countries from 2008 to 2017. The book also considers the function of a fair internet regulation system in terms of maximizing its effectiveness keeping the implementation cost low and increasing the probability of acceptance by each country's general public. Featuring research on topics such as governmental control, online filtering and public opinion, this book is ideally designed for researchers, policymakers, government officials, practitioners, academicians and students seeking coverage on modern internet censorship policies within various international democracies.

SPSS Reference Guide SPSS Inc, 1990 [Handbook of Multilevel](#)

Analysis Jan Deleeuw, Erik Meijer, 2007-12-26 Multilevel analysis is the statistical analysis of hierarchically and non hierarchically nested data The simplest example is clustered data such as a sample of students clustered within schools Multilevel data are especially prevalent in the social and behavioral sciences and in the bio medical sciences The models used for this type of data are linear and nonlinear regression models that account for observed and unobserved heterogeneity at the various levels in the data This book presents the state of the art in multilevel analysis with an emphasis on more advanced topics These topics are discussed conceptually analyzed mathematically and illustrated by empirical examples The authors of the chapters are the leading experts in the field Given the omnipresence of multilevel data in the social behavioral and biomedical sciences this book is useful for empirical researchers in these fields Prior knowledge of multilevel analysis is not required but a basic knowledge of regression analysis asymptotic statistics and matrix algebra is assumed *Presenting Your Data with SPSS Explained* Perry R. Hinton, Isabella McMurray, 2017-07-14 Data Presentation with SPSS Explained provides students with all the information they need to conduct small scale analysis of research projects using SPSS and present their results appropriately in their reports Quantitative data can be collected in the form of a questionnaire survey or experimental study This book focuses on presenting this data clearly in the form of tables and graphs along with creating basic summary statistics Data Presentation with SPSS Explained uses an example survey that is clearly explained step by step throughout the book This allows readers to follow the procedures and easily apply each step in the process to their own research and findings No prior knowledge of statistics or SPSS is assumed and everything in the book is carefully explained in a helpful and user friendly way using worked examples This book is the perfect companion for students from a range of disciplines including psychology business communication education health humanities marketing and nursing many of whom are unaware that this extremely helpful program is available at their institution for their use SPSS for Windows Marija J. Norušis, 1993 SPSS Categories performs conjoint analysis and optimal scaling procedures including correspondence analysis
