Human Aspects of IT for the Aged Population Qin Gao,Jia Zhou,2023-07-08 This two volume set of ITAP 2023 constitutes the refereed proceedings of the 9th International Conference on Human Aspects of IT for the Aged Population ITAP 2023 held as Part of the 24th International Conference HCI International 2023 which took place in July 2023 in Copenhagen Denmark The total of 1578 papers and 396 posters included in the HCII 2023 proceedings volumes was carefully reviewed and selected from 7472 submissions The papers of ITAP 2023 Part I are organized in topical sections named Designing and Assessing the Older Users Experience Aging and Social Media Voice Assistants and Chatbots Games and Exergames for Older People *Judicial Decision Making in Child Sexual Abuse Cases* Margaret M. Wright,2011-11-01 In the 1980s Canada witnessed a public outcry over child sexual abuse cases that were being reported in the media Elected

officials sought a remedy not through policy changes or other social mechanisms but rather through legal reforms. Amendments were made to the Criminal Code of Canada and sexual assault was redefined. The word rape was replaced with a continuum of sexual assault categories intended to reflect the full range of sexually intrusive behaviours. Most women's groups having fought for recognition of harm done to women and children supported this legislation though some questioned the approach. Margaret Wright examines how the courts have dealt with child sexual abuse cases since then and what effect the resort to law has had. Analyzing the sentencing phase of these cases she demonstrates that although the laws may have changed their interpretation still depends on the social construction of children at the court level and on judges' own understanding of what constitutes child sexual abuse. *Judicial Decision Making in Child Sexual Abuse Cases* is a rich and detailed study of the court process that will be welcomed by students and scholars of law and society, social work, criminal justice and social policy.

The Helping Relationship Augustine Meier, Martin W. Rovers, 2010. The increased use of and emphasis on managed care, manualized treatment protocols, evidence based treatments and quick treatments have marginalized the role of the helping relationship in the helping professions. The increased use of and emphasis on managed care, manualized treatment protocols, evidence based treatments and quick treatments have marginalized the role of the helping relationship in the helping professions. This shift has sparked a debate within the helping professions over whether the helping relationship or technique is primarily responsible for healing and change. *The Helping Relationship* weighs in on this debate arguing that healing and change always take place within the context of relationships and that the relationship is more important than the technique. While recognizing the value of techniques the authors valorize the helping relationship considering it in unconventional contexts such as formal education, supervision and faith communities to show its flexibility and efficacy. This alternative approach adds a new perspective on the helping relationship debate, shedding new light on the roles of relationship and technique in the healing process. Published in English.
