*The Everyday Language of White Racism* Jane H. Hill, 2009-01-30 In *The Everyday Language of White Racism* Jane H. It provides a detailed background on the theory of race and racism, reveals how racializing discourse talk and text that produces and reproduces ideas about races and assigns people to them, facilitates a victim blaming logic, integrates a broad and interdisciplinary range of literature from sociology, social psychology, justice studies, critical legal studies, philosophy, literature, and other disciplines that have studied racism, as well as material from anthropology and sociolinguistics. On Zion's Mount Jared Farmer, 2010-04-10 Shrouded in the lore of legendary Indians, Mt. Timpanogos beckons the urban populace of Utah. And yet no Indian legend graced the mount until Mormon settlers conjured it once they had displaced the local Indians, the Utes, from their actual landmark. Utah Lake On Zion's Mount tells the story of this curious shift. It is a quintessentially American story about the fraught process of making oneself native in a strange land. But it is also a complex tale of how cultures confer meaning on the environment, how they create homelands. Only in Utah did Euro-American settlers conceive of having a homeland in the Native American sense, an endemic spiritual geography. They called it Zion. Mormonism, a religion indigenous to the United States, originally embraced Indians as Lamanites or spiritual kin. On Zion's Mount shows how paradoxically the Mormons created their homeland at the expense of the local Indians and how they expressed their sense of belonging by investing Timpanogos with Indian meaning. This same pattern was repeated across the United States. Jared Farmer reveals how settlers and their descendants, the new natives, bestowed Indian place names and recited pseudo-Indian legends about those places, cultural acts that still affect the way we think about American Indians and American landscapes.
