*Dodge Daytona and Plymouth Superbird* Steve Lehto, 2016-01-15 In the fiercely competitive world of NASCAR every manufacturer was looking for a competitive edge Ford and Chrysler turned their attention to the aerodynamics of their race cars resulting in a brief era affectionately called the Aero Wars During the height of this competition Chrysler and Ford produced among other things cars with radically altered grilles and tail sections Mandated by series to produce production versions these exotic beasts became some of the most costly creative and collectible machines ever assembled in Detroit whether in race trim or in stock street trim Author Steve Lehto gives a thorough and detailed account of the history of this battle that culminated with the final wars between the Ford Talladega Mercury Cyclone and the Dodge Daytona Plymouth Superbird The story of Richard Petty's defection from Plymouth the mighty Hemi and the creation of the street version of these cars all come to light in this all encompassing tale of Chrysler climbing the ladder to NASCAR supremacy Dodge Daytona Plymouth Superbird Design Development Production Competition delivers a blow by blow account of the biggest races between FoMoCo and Chrysler along with telling the rich stories of the development of these cars If you are a fan of NASCAR or just love outrageous muscle cars this richly detailed and well illustrated account of a fascinating era of performance will be a valued addition to your library      **1970 Plymouth Superbird** Geoff Stunkard, 2018-04-16 Petty signs with Ford Those four words tore through the racing world like a hot knife through butter while loyalists threw their hands up in disbelief King Richard's defection was in part because Plymouth hadn't built a Dodge Daytona counterpart for the NASCAR circuit in addition to the fact that Petty Enterprises wanted to be the sole racing parts distributor for Plymouth at the time Plymouth weathered the backlash publically while privately scurrying to create a car to lure Richard back to

Plymouth That car The 1970 Plymouth Superbird Production models languished on salesroom floors due in part to NASCAR having increased the homologation requirement from 500 units to 2 000 These cars were highly specialized seen as being in excess in proportion to the hottest street cars of the period Fast forward to today Superbirds are highly collectible and are the star attractions at car shows and auctions pulling top dollar and generating real excitement What a difference a few decades makes Each volume in the In Detail Series provides an introduction and historical overview an explanation of the design and concepts involved in creating the car a look at marketing and promotion an in depth study of all hardware and available options and an examination of where the car is on the market today Also included are paint and option codes VIN and build tag decoders as well as production numbers **The Big Picture Level 1 Beginner/Elementary Sue**
