

Why is Self-management Important?

Self-management is important because it helps a person take control of their physical and mental health, reducing health cost and preventing greater issues in the future.

- In order to organise your time, you must be able to manage your self. This means that you must know your strengths and weaknesses (in relation to time management), develop a positive attitude, plan to achieve, develop persistence, set goals and manage stress.

Principles of Management RN Gupta, 2005 *Principles of Management Hypertension and Heart Failure* Maria Dorobantu, Victor Voicu, Guido Grassi, Enrico Agabiti-Rosei, Giuseppe Mancina, 2024-03-04 The second edition of this well received book will offer both new insights into the intimate mechanisms of transition from hypertension to heart failure and clinical practice advice on the prevention and treatment of heart failure in hypertensive population Heart failure is the result of the hypertension's effects on the heart and it is a growing public health problem as it affects 20-50% of the adult population in developed countries In this context the international scientific community is continuously struggling to develop better strategies in screening diagnosing and treating hypertension and its deleterious effects Thus this field is continuously changing with new important information being added constantly A part of the book dedicated to diagnostics comprising a chapter on new perspectives on multimodality imaging and a special chapter on diastolic dysfunction The arrhythmic complications of hypertensive heart disease are discussed in two chapters on atrial fibrillation and ventricular arrhythmias respectively Readers will also find new chapters regarding hypertension and heart failure in special populations such as cancer patients young patients pregnancy and patients with a history of SARS CoV2 infection This book is a useful tool for clinicians but also to the research community interested in heart failure and consequences of hypertension on heart who want to be up to date with the new developments in the field

Self-Management Courses F. Roy Jones, 2010-02-11 The management of chronic disease and the contribution patients make to their own care is attracting widespread attention nationally and internationally A range of self management courses have been developed by Kate Lorig and her team at Stanford University's Medical School since the early 1980s some of which have now been implemented throughout England and across other parts of the UK Designed for people with long term health conditions they are delivered by hundreds of agencies worldwide and differentiate the concept of disease management to be done by a health care professional from the individual's management of life with a long term condition self management This book explores how this work became valued within the NHS and local communities and also airs the arguments about the importance of lay leadership It brings together those who have been instrumental in developing these courses and assesses the value they hold for the different groups involved directly in them participants course trainers staff and those it will affect indirectly GPs nurses policy makers commissioners The reader will find personal experience and accounts of the excitement in designing new work Reflection on what happens to people attending courses is set alongside consideration of radical questions about the need for resilient communities Next the research reports are followed by considerations for policy makers and local agencies voluntary and statutory Finally questions about the future direction and links to local communities are raised

Self-management and the Crisis of Socialism Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael

W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues
