Russell, 1999-07-08 The introduction of Christianity into traditional societies has been the subject of numerous studies Few of these studies however have adequately examined the way that this introduction affects power relationships in a community In this the third volume in the American Society of Missiology's dissertation series A Sue Russell attempts to advance the discourse on Christianity and social change by showing how a new social institution the local church both influences and is influenced by existing sociocultural power relationships Building on her extensive research into the Tagal Murut Dr Russell clearly demonstrates that the introduction of Christianity created a dynamic that produced new social relations and power structures in Tagal society With its unique insights into this crucial dynamic *Conversion Identity and Power* stands as an important contribution to the sociological and missiological literature exploring the impact of Christianity on traditional societies Book jacket **Latina Realities** Oliva Espin, 2018-02-20 This book emphasizes psychology's role as a means of human welfare focusing on the complexities of the psychological development of immigrant women Latinas and other women of color and issues relevant to providing psychological services to them **Declarations for Breakthrough** Jane Hamon, 2021-03-30 When God speaks darkness trembles and death shudders his voice is the most powerful force in the universe And he has given his children the mandate to declare what he speaks to say what he says It's time for believers to counter the attacks of the enemy always the liar with

God's word of truth and bring freedom to the captives In this biblically rich exploration of God's prophetic word apostolic leader and prophet Jane Hamon inspires and instructs readers to partner with God for the breakthroughs they need Each chapter is a study of prophetic words Jane has received promises every believer can claim She explains what Scripture says about these messages and how she has witnessed miracles and breakthrough from them She also provides a series of prayers and decrees to help you activate breakthrough in your own life God wants to set in motion the breakthrough you and your family need Take hold of the life changing action of speaking forth God's own declarations for his people **Apache**

Odyssey Chris, Morris Edward Opler, 2002-01-01 In 1933 famed anthropologist Morris Opler met a Mescalero Apache he called Chris and worked with him to record the man's life story from the bloody Apache Wars into the reservation years of the mid twentieth century Chris's vivid recollections are enriched at strategic moments with crucial background information on Apache history and culture supplied by Opler Chris was born around 1880 the son of a Chiricahua man and a Mescalero woman At the age of six he and his family and other Chiricahua Apaches became prisoners of war and were relocated by the U S government to Florida and Alabama Eventually settling on the Mescalero Apache reservation in New Mexico Chris grew up expecting to become a shaman like his parents Although Chris apprenticed as a shaman his confidence in his healing ability waned after he was forced at the age of seventeen to attend federal government schools Nonetheless his interest in Mescalero religion healing and other traditional customs and beliefs remained and that intimate knowledge of his people's world underscores and deepens the story of his own life **The Sun Came Down** Percy Bullchild, 2005-01-01 At the age of sixty seven Percy Bullchild 1915-1986 a Blackfeet Indian from Browning Montana with little formal education in English set out to put the oral traditions and history of his people into a permanent written record He regarded this undertaking to write the Indian version of our own true ways in our history and legends as he puts it as both a corrective and an instructive tool Bullchild culled this remarkable collection of historical legends from his memory of the oral history as it was passed down to him by his elders and by seeking out the oral traditions of other tribes These stories like all legends Bullchild reminds us may sound a little foolish but they are very true And they have much influence over all of the people of this world even now as we all live Woody Kipp provides a preface for this Bison Books edition **Ethnology of the Kwakiutl** Franz Boas, 1921

Kinship and Culture Francis L.K. Hsu, 2017-07-12 At one time Francis L K Hsu put forth a hypothesis on kinship that proposed a functional relationship between particular kinship systems and behavior patterns in particular cultural contexts The controversy provoked among cultural anthropologists by this hypothesis is reflected in this book which points the way toward more fruitful investigations of kinship in cultural and psychological anthropology Hsu's hypothesis offers an alternative to the study of kinship as a mathematical game and to the treatment of fragmentary aspects of child rearing practices as major causal factors in culture Considering the kinship system as the psychological factory of culture Hsu's aim is to discover the crucial forces in each system that shape the interpersonal orientation of the individual which forms the

individual's basis for adequate functioning as a member of his society and which in turn provides his culture with a basis for continuity and change His central hypothesis is that the attributes of the dominant dyads in a given kinship system such as father son or mother daughter tend to determine the attitudes and action patterns that the individual in such a system develops toward other relationships in that system as well as toward his relationships outside of it The topics are varied ranging from the link between dyadic dominance and household maintenance to role dilemmas and father son dominance to sex role identity and dominant kinship relationships The editor has contributed an introduction an original essay on kinship and patterns of social cohesion and a summary chapter to bring coherence to the diversity of opinion stated This new presentation of Hsu's hypothesis together with its discussion by eminent anthropologists and its recommendations for future research in the area is an important addition to the literature on kinship

Book 10 Miracles PB Kurt Jurgensmeier,2012-08-22 How does God supernaturally reveal Himself

This book is a detailed introduction to the complex controversial but vital topic of miracles The topic would be difficult enough but the claims and teaching of charismaticism have made a biblical understanding of miracles even more critical but also more complicated In the course of this Bible study we endeavor to answer such questions as What is a miracle How do we avoid the extremes between anti supernaturalism which claims there are no miracles and super supernaturalism which claims an abundance of them What are the different types of miracles and why is it critical to distinguish them What are the myriad of ways that God has miraculously spoken and which of these can we expect today What is the biblical place and attributes of dreams and visions What is the embarrassing history and alarming dangers of the super supernaturalism at the heart of the charismatic movement
