Logistics of Waging War ,1996 **Air Power For Patton's Army: The XIX Tactical Air Command In The Second World War [Illustrated Edition]** David N. Spires,2014-08-15 Illustrated with 3 charts 28 maps and 88 photos This insightful work by David N Spires holds many lessons in tactical air ground operations Despite peacetime rivalries in the drafting of service doctrine in World War II the immense pressures of wartime drove army and air commanders to cooperate in the effective prosecution of battlefield operations In northwest Europe during the war the combination of the U S Third

Army commanded by Lt Gen George S Patton and the XIX Tactical Air Command led by Brig Gen Otto P Weyland proved to be the most effective allied air ground team of World War II The great success of Patton s drive across France ultimately crossing the Rhine and then racing across southern Germany owed a great deal to Weyland s airmen of the XIX Tactical Air Command This deft cooperation paved the way for allied victory in Western Europe and today remains a classic example of air ground effectiveness It forever highlighted the importance of air ground commanders working closely together on the battlefield

The German Way of War Robert M. Citino, 2005-11-17 For Frederick the Great the prescription for warfare was simple *kurz und vives* short and lively wars that relied upon swift powerful and decisive military operations Robert Citino takes us on a dramatic march through Prussian and German military history to show how that primal theme played out time and time again Citino focuses on operational warfare to demonstrate continuity in German military campaigns from the time of Elector Frederick Wilhelm and his great sleigh drive against the Swedes to the age of Adolf Hitler and the blitzkrieg to the gates of Moscow Along the way he underscores the role played by the Prussian army in elevating a small vulnerable state to the ranks of the European powers describes how nineteenth century victories over Austria and France made the German army the most respected in Europe and reviews the lessons learned from the trenches of World War I Through this long view Citino reveals an essential recurrent pattern characterized by rapid troop movements and surprise attacks maneuvers to outflank the enemy and a determination to annihilate the opposition that made it possible for the Germans to fight armies often larger than their own He highlights the aggressiveness of Prussian and German commanders trained simply to find the enemy and keep attacking and destroys the myth of *Auftragstaktik* flexible command replacing it with the independence of subordinate commanders He also brings new interpretations to well known operations such as Moltke's 1866 campaign and the opening campaign in 1914 while introducing readers to less familiar but important battles like Langensalza and the Annaberg The German way of war as Citino shows was fostered by the development of a widely accepted and deeply embedded military culture that supported and rewarded aggression His book offers a fresh look at one of the most remarkable respected and reviled militaries of the past half millennium and marks another sterling contribution to the history of operational warfare

Officers, Entrepreneurs, Career Migrants, and Diplomats, 2024-08-19 Money money and more money In the eyes of early modern warlords these were the three essential prerequisites for waging war The transnational studies presented here describe and explain how belligerent powers did indeed rely on thriving markets where military entrepreneurs provided mercenaries weapons money credit food expertise and other services In a fresh and comprehensive examination of pre national military entrepreneurship its actors structures and economic logic this volume shows how readily business relationships for supplying armies in the 17th and 18th centuries crossed territorial and confessional boundaries By outlining and explicating early modern military entrepreneurial fields of action this new transnational perspective transcends the limits of national historical approaches to the business of war Contributors are Astrid Ackermann John Condren Jasmina Cornut Michael Depreter S bastien Dupuis Marian F ssel Julien Grand Andr Holenstein Katrin Keller Michael Paul Martoccio Tim Neu David Parrott Alexander Quereng sser Philippe Rogger Guy Rowlands Benjamin Ryser Regula Schmid and Peter H

The Battle for Moscow David Stahel,2015-01-22 In November 1941 Hitler ordered German forces to complete the final

drive on the Soviet capital now less than 100 kilometres away Army Group Centre was pressed into the attack for one last attempt to break Soviet resistance before the onset of winter From the German perspective the final drive on Moscow had all the ingredients of a dramatic final battle in the east which according to previous accounts only failed at the gates of Moscow David Stahel challenges this well established narrative by demonstrating that the last German offensive of 1941 was a forlorn effort undermined by operational weakness and poor logistics and driven forward by what he identifies as National Socialist military thinking With unparalleled research from previously undocumented army files and soldiers letters Stahel takes a fresh look at the battle for Moscow which even before the Soviet winter offensive threatened disaster for Germany's war in the east
