Support Our Troops Quotations On Patriotism And Prayer:

Support Our Troops Eric Diner, 2012-12-11 We live in challenging times times that increasingly call upon the focus intensity and integrity of our armed forces These are the men and women who selflessly protect what the rest of us hold most dear A key to their success as anyone from the newest recruit to the most battled hardened veteran will attest are the support and prayers of those at home Support Our Troops represents both a timely and timeless collection of inspirational quotations that recognize the bravery fortitude and sacrifice of American troops the world over These strong and supportive words honor our troops commitment and thank them for their service on our behalf The selections include quotes such as It is the love of country that has lighted and that keeps glowing the holy fire of patriotism J Horace McFarland and Those who expect to reap the blessings of freedom must like men undergo the fatigues of supporting it Thomas Paine Support Our Troops delivers a special message of respect and support for service men and women and their families A portion of the author's proceeds from the book will support Fisher House www.fisherhouse.org

Tyranny and Music Joseph E. Morgan, Gregory N. Reish, 2017-12-26 Tyranny and Music is an edited collection of essays that explore how musical artists respond to cruel or oppressive governments and ruling regimes Its primary strength and unique quality lies in its diversity presenting a postmodern collage of scholarship that reaches across the divides of classical popular and traditional musics just as it connects musical resistance of the past with the present and the near Western with the far non Western Contemporary topics include Chosan's analysis of blood diamonds in the Sierra Leonean Civil War and collective memory in the Persian Gulf War songs Historical topics include the image of John Wilkes Booth in the popular imagination censorship in the Soviet Union Victor Ullman's song setting at Terezín artistic restrictions in Maoist China anti inquisition propaganda in the outbreak of the Dutch revolt Revolutionary Era Anthems in the United States and much more These essays while remarkable in their scholarly erudition also provide intimate glimpses of the resiliency of the individual artist From Cherine Amr's Heavy Metal resistance to the Muslim Brotherhood to Hanns Eisler's battle with the United States House on Un

American Activities Committee stories of human struggle and perseverance arise from each of these narratives **Reading and Writing for Civic Literacy** Donald Lazere, 2017-07-05 Lazere's book is heaven sent and will provide a crucial link in the chain of understanding how conflicts are structured and most importantly how they can be rationally addressed a healthy antidote to the scepticism that has become so pervasive in academic life Alan Hausman Hunter College This innovative book addresses the need for college students to develop critical reading writing and thinking skills for self defence in the contentious arena of American civic rhetoric In a groundbreaking reconception of composition theory it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies such as the growing inequality of wealth in America and its impact on the

finances of college students as expressed in paired sets of readings from the political left and right Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis

Mothers of the Military Wendy M.

Christensen, 2018-08-09 Mothers of the Military examines the distinctive kinds of support required during an increasingly privatized war specifically material moral and healthcare support Mothers are a particularly key part of the current support system for service members and Wendy Christensen follows the mothers of U S service members in the War on Terrorism through the stages of recruitment deployment and post deployment Bringing to light the experiences and stories of women who are largely invisible during war the mothers of service members Over 2 5 million members of the U S military have deployed to Iraq or Afghanistan during the now 16 year long war Each service member has loved ones spouses parents and children who provide necessary emotional and physical support during deployment This book has three goals The first is to make mothers experiences during wartime visible The second is to interrogate what support means during war Finally it examines the impact of war support on mothers political participation Ideally civilians provide moral approval of war patriotism and extend understanding and appreciation of the sacrifice enlistees and their families are making But in these long wars public and political approval has plummeted It is not surprising this narrow slice of Americans dealing with the daily realities of war feels increasingly separate from civilians Military families are isolated from those Americans who are able to ignore the war or offer superficial expressions of patriotic gratitude Mothers occupy a complex gendered location during wartime Even though women are now serving in combat positions women have historically held down the home front where family labor is still assigned disproportionately to women However the military does not treat mothers and fathers equally The military assumes fathers will be supportive of service and calls on them to be proud of the courageous decision their child has made They consider mothers on the other hand potential impediments to service not wanting their child in harm's way Through each stage of service mothers take on different kinds of support for their child for the military and for war policy At each stage of war mothers are prescribed a gendered support position In recruitment material the military assumes mothers will be emotional and worried about enlistment so they appeal to mother's love and need for their child to be safe During deployment mothers provide supplies and moral support Declining enlistment numbers and a long war have led to multiple deployments and unprecedented burdens on military families These mothers step in to help with childcare and finances Furthermore mothers are overwhelmingly according to military studies the ones providing mental and physical healthcare when veterans need it As providers of critical systems of war support mothers bear much of the burden of the current wars War provides mothers a way to participate in the national project but the uneven burden of being a constant supporter further marginalizes their citizenship The gendered support role the military designs for mothers is not designed to facilitate active democratic citizenship but rather to make it seem natural that they too fall in line with the chain of

command Mothers of the Military as a whole asks how the acts of supplying material moral and medical support end up so often marginalizing mothers as citizens from the political process and under what conditions do mothers resist *Change and Conflict in the U.S. Army Chaplain Corps Since 1945* Anne Loveland,2014-03-30 Army chaplains have long played an integral part in America's armed forces In addition to conducting chapel activities on military installations and providing moral and spiritual support on the battlefield they conduct memorial services for fallen soldiers minister to survivors offer counsel on everything from troubled marriages to military bureaucracy and serve as families points of contact for wounded or deceased soldiers all while risking the dangers of combat alongside their troops In this thoughtful study Anne C Loveland examines the role of the army chaplain since World War II revealing how the corps has evolved in the wake of cultural and religious upheaval in American society and momentous changes in U S strategic relations warfare and weaponry From 1945 to the present Loveland shows army chaplains faced several crises that reshaped their roles over time She chronicles the chaplains initiation of the Character Guidance program as a remedy for the soaring rate of venereal disease among soldiers in occupied Europe and Japan after World War II as well as chaplains response to the challenge of increasing secularism and religious pluralism during the culture wars of the Vietnam Era Religious accommodation evangelism and proselytizing public prayer and spiritual fitness provoked heated controversy among chaplains as well as civilians in the ensuing decades Then early in the twenty first century chaplains themselves experienced two crisis situations one the result of the Vietnam era antichaplain critique the other a consequence of increasing religious pluralism secularization and sectarianism within the Chaplain Corps as well as in the army and the civilian religious community By focusing on army chaplains evolving sometimes conflict ridden relations with military leaders and soldiers on the one hand and the civilian religious community on the other Loveland reveals how religious trends over the past six decades have impacted the corps and in turn helped shape American military culture *Patriotic Games* S. W.
