World Government, Utopian Dream Or Current Reality, Vol. 2 Raymond W. Converse,2011 This book assumes that the world is moving inexorably if in fits and starts toward union The author explores the implications such a unification will have for all global citizens great and small and considers some of the ways such a union might be managed for the greatest good As globalization gains speed and as its benefits and also its costs become more apparent the author sketches out some of the conditions that could eventually make for a better life for all He draws on the tenets of Representative Democracy using the US Constitution as a guide Second he posits that for such a union to succeed all nations will either be representative democracies or will convert to the use of representative democracy within a reasonable time after joining the world union As a natural consequence of these developments the author suggests any nation choosing not to join the world union will find its isolation unsustainable and will seek to join the union after all Lastly the author concludes that a meaningful liberal education is necessary to prepare individuals for their role as politically economically and socially informed citizens

Common Law and Modern Society Mary Arden, 2015-12-17 Law is a lasting social institution but it must also be open to change How is law made and what prompts change How can society influence the law and how does the law respond to societal change The first volume of *Shaping Tomorrow's Law* examined human rights and European law In this second volume Mary Arden turns her attention to domestic law providing a judge's viewpoint on the roles of society government and the judiciary in the transformation and reform of the law The first section of *Common Law and Modern Society* explains what we mean by judge made law and shows how the law responds to the needs of a changing society Adaptation may be in response to shifting values or in response to constitutional change This is demonstrated in chapters on assisted reproduction and assisted dying both modern concerns and a far older example that of the law on water which has been evolving over the centuries in response to society's changing demands The law also needs to reflect constitutional change as in the case of Welsh devolution The second section of the book looks at the necessary simplification of the law and systematic legal reform These tasks lie at the heart of the work of the Law Commission which celebrated its 50th anniversary in 2015 Drawing on her own experience as former Chairman of the Law Commission Mary Arden argues that statute law can be made simpler by codification and that the success of codification may vary depending on the field of law The final section looks ahead to tomorrow's judiciary The accountability of judges is a continuing area of discussion and this includes ensuring that the reasoning behind their decisions is understood by the relevant people Mary Arden goes on to argue that the vision for the judiciary today and tomorrow should be one of greater diversity in the widest sense This will help to ensure not only greater fairness and wider opportunity but also better decision making The book concludes with advice and encouragement for future legal professionals
