United States. Congress. House Education and Labor,1963 **Granularity: An Ontological Inquiry Into Justice and Holistic Education** Şevket Benhür Oral,2023-11-26 This book presents an original exploration of philosophical questions pertaining to the ways we grasp the Absolute by bringing together the Buddhist notion of interpermeation of all phenomena into contemporary strains of thought in continental philosophy This text introduces an ontological concept granularity deploying it to probe questions concerning the intersection of ontology ethics and education A wide range of issues in metaphysics are covered including being nothingness unity plurality truth change transformation subjectivity contradiction coherence potentiality from the perspective of thinkers such as Hegel Heidegger Badiou Meillassoux Malabou i ek and Harman The text deploys granularity in arguing for an ethics of unconditional hospitality within education This volume is intended for students and researchers working in the areas of philosophy of education philosophy of religion and continental philosophy **Christianity and the Doctrine of Non-Dualism** A Monk of the West,2005-03 The author of this slender but profound book a Cistercian monk discovered as a young man the work of his fellow countryman Ren Gunon whose writings introduced him to genuine metaphysical doctrine and to possibilities of spiritual realization This discovery marked him indelibly and he resolved to follow a monastic path in order to be free for the one thing needful The word Advaita which designates Vedantic non dualism is Sanskrit for non dual or not two but the doctrine itself is by no means exclusively Hindu being present in Buddhism Islam Taoism and Judaism In Christianity it has always been more implicit though explicit with writers such as Dionysius the Areopagite Eriugena Eckhart and even Dante The great merit of this work by a Monk of the West is that it shows that non dualism is neither pantheism nor monism and that there is no incompatibility between orthodox Christian doctrine and the strictest understanding of non dualism in the Advaita Vedanta The implication is that non dualism can again find expression within a Christian ambiance The cover design helps clarify this In the background is the Omkara the sacred monosyllable of Hinduism considered the most fundamental of affirmations In the foreground is the Christian symbol of the Chi Rho chrismon or labarum consisting of the first two letters chi X and rho P of the Greek Christos XRISTOS This figure is intrinsically three dimensional but is usually projected onto a plane surface The cruciform Greek letter chi X is placed horizontally within a circle it measures the parameters of a given world The rho intersects the chi at its

center and is placed vertically to represent the axis mundi or world tree. The loop at the top of the rho represents the Supernal Sun at the summit of the world tree from which all possibilities of creation proceed and to which they return. There can be no essential but only an apparent incompatibility between the Universe and any of its constituent parts; all derive from a unique and common Principle. Similarly, there can be no essential conflict between the Chi Rho representing a given world and the Omkara which represents all worlds, the entire Universe notwithstanding the differing degrees of universality. Christianity and the Doctrine of Non Dualism offers one approach to this doctrine and to the greatest possible spiritual intellectual adventure that is implied.
