Surfeit Of Guns:

The Detective as Historian Ray Browne, Lawrence Kreiser, 2009-03-26 Deeper understanding of history is enhanced by encasing it in art and interest Crime fiction is one of the widest and most rapidly growing forms of literature Historical crime fiction serves effectively the double purpose of entertaining while it teaches The truth of the narrative account the editors of this volume believe is dependent on the understanding of human nature reflected in the author who writes the narrative Historical crime fiction the editors of this volume write has an obligation and a golden opportunity It must bring the past up to the present through the device of timeless crime and it must take the reader into the world about which is being written so that the characters are alive and the events interesting and challenging Professional writers of fiction need to be more effective than mere authors of dates and assumed motivations Therefore they can fill in human motivations and drives where no records exist and can aid the professional historians in what historian David Thelen calls the challenge of history which is to recover the past and interpret it for the present The essays in this volume accept the challenge and make major accomplishments for meeting it Making Peoples: A History of the New Zealanders From Polynesian James

Belich, 2007-05-07 A new paperback reprint of this best selling and ground breaking history When first published in 1996 Making Peoples was hailed as redefining New Zealand history It was undoubtedly the most important work of New Zealand history since Keith Sinclair's classic A History of New Zealand Making Peoples covers the period from first settlement to the end of the nineteenth century Part one covers Polynesian background Maori settlement and pre contact history Part two looks at Maori European relations to 1900 Part three discusses Pakeha colonisation and settlement James Belich's Making Peoples is a major work which reshapes our understanding of New Zealand history challenges traditional views and debunks many myths while also recognising the value of myths as historical forces Many of its assertions are new and controversial

Making Peoples James Belich, 2002-02-28 Now in paper This immensely readable book full of drama and humor as well as scholarship is a watershed in the writing of New Zealand history In making many new assertions and challenging many historical myths it seeks to reinterpret our approach to the past Given New Zealand's small population short history and great isolation the history of the archipelago has been saddled with a reputation for mundanity According to James Belich however it is just these characteristics that make New Zealand a historian's paradise a laboratory whose isolation size and recency is an advantage in which the grand themes of world history are often played out more rapidly more separately and therefore more discernably than elsewhere The first of two planned volumes Making Peoples begins with the Polynesian settlement and its development into the Maori tribes in the eleventh century It traces the great encounter between independent Maoridom and expanding Europe from 1642 to 1916 including the foundation of the Pakeha the neo Europeans of New Zealand between the 1830s and the 1880s It describes the forging of a neo Polynesia and a neo Britain and the traumatic interaction between them The author carefully examines the myths and realities that drove the colonialization

process and suggests a new living version of one of the most critical and controversial documents in New Zealand's history the Treaty of Waitangi frequently described as New Zealand's Magna Carta The construction of peoples Maori and Pakeha is a recurring theme the response of each to the great shift from extractive to sustainable economics their relationship with their Hawaikis or ancestors with each other and with myth Essential reading for anyone interested in New Zealand history and in the history of new societies in general **The Global War on Your Guns** Wayne R. LaPierre, 2006 *When Loyalty Becomes Betrayal* Shelly Gisele, 2020-01-11 KADEN is a retired drug dealer and former kingpin of the streets of Miami Florida He had created a legacy based on power respect wealth and branding his name Today he's the owner of a strip club having left the world of drugs behind Before stepping down from his throne Kaden taught his younger cousin Jordan the game before ultimately allowing him to take over his kingdom The two men however were polar opposites Jordan was younger and more reckless a treacherous guy with a ruthless streak Kaden was much calmer wiser and level headed in the way he went around his business Jordan's greatest flaw was failing to change his mentality and adapt to the role of being a boss Instead he remained rooted in the same hood mentality of a small time player Rather than being respected on the streets he made enemies of some serious players Kaden's future and that of his marriage had become threatened both by Jordan's out of control behavior and his own infidelities Could he really start over and build a new life leaving his past behind or is the life he had lived destined to catch up with him and destroy everything So much hangs in the balance as a brutal turf war heats up on the mean streets where the one certainty is that only the strong and street smart will survive *Facing Suicide* James Barrat, 2024-09-03 A deep dive into a national catastrophe that examines how and why suicide happens so that we can prevent it Suicide has reached epidemic proportions in America claiming over 45 000 lives each year more than car accidents or homicides For every person who dies there are about 10 unsuccessful attempts Yet suicides are preventable if we can grasp the complex factors behind it and look out for suicide's signs in our families communities and colleagues In this groundbreaking book acclaimed journalist James Barrat delivers these insights with a deep dive into America's suicide crisis With profiles of survivors and their families and interviews with experts Barrat assembles a thorough nuanced portrait of this confounding killer He examines suicide's many risk factors including genetics substance abuse access to lethal means and mental health Importantly he explores how societal issues like racial trauma bullying and financial stress in combination with other factors can push people to kill themselves Barrat reveals the structural and chemical differences found in suicidal brains providing biological insights Facing Suicide celebrates solutions Barrat shows how the US Air Force and the nation of Denmark lowered suicide rates with comprehensive systems approaches that enlist every member of society in impactful interventions Importantly Barrat finds that 100% of the people he interviewed who attempted suicide are happy they got help and are alive today Their message is one of healing and hope With deep reporting and keen insights Facing Suicide sheds essential light on this painful growing crises with actionable information about preventing suicides Barrat's urgent book

makes clear that understanding and preventing suicide must be a national priority We all have a role to play in this vital effort *D-Day, 1944* Theodore A. Wilson,1994 Readers may be astonished at how much scholarly digging and the release of once secret information have transformed the history of this campaign At times it seems like a whole new war New York Times Book Review **Real World Faith** Walter Brueggemann,2023-09-12 Real World Faith articulates a faith that is effectively linked to our real world the world of our bodies and of the body politic The real world of our bodies causes us to be largely preoccupied with our health security dignity and sexuality and causes concern for food and shelter for ourselves and for our neighbors The real world of the body politic puts us in inescapable touch with issues of money power weapons policies treaties taxes and trade agreements These are the matters that occupy us most of the time on most of our days They are the proper agenda of our faith because our faith consists in trust in the One who governs our bodily life in the world Our interpretive work is to try to articulate the ways albeit hidden ways in which the agency and character of God make effective contact with our world This is real life faith *A Surfeit of Guns* P. Tallman,2020-08-13 With thorough analysis and balanced reporting Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution is an essential resource for readers seeking to understand the rise of homemade firearms and future options for managing them For more than a century strict gun control was possible because firearms were produced in centralized industrial factories Today the Fourth Industrial Revolution combining old and new technologies

threatens to upend this arrangement An increasing number of hobbyists makers technology provocateurs and sophisticated criminals are proving that you don't need a factory to make guns anymore The security challenges of this transformation are increasingly apparent but the technologies behind it hold tremendous potential and while ignoring the security implications would entail risks the costs of new policies also must be evaluated Do it yourself or DIY weapons will bring significant ramifications for First and Second Amendment law international and homeland security crime control technology privacy innovation and the character of open source culture itself How can a liberal society adjust to technologies that make it easier to produce weapons and contraband Informative and thought provoking Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution carefully analyzes the technical legal social political and criminological trends behind this challenging new area of illicit weapons activity

Solutions for a Complex World M. Verweij, M. Thompson, 2006-08-31 Clumsy Solutions for a Complex World is a powerful and original statement on why well intended attempts to alleviate pressing social ills too often derail and how effective efficient and broadly acceptable solutions to social problems can be found Workers at War Joshua H. Howard, 2004-09-29 This book focuses on the lives struggles and contrasting perspectives of the 60 000 workers military administrators and technical staff employed in the largest most strategic industry of the Nationalist government the armaments industry based in the wartime capital Chongqing The author argues that China s arsenal workers participated in three interlocked conflicts between 1937 and 1953 a war of national liberation a civil war and a class war The work adds to the scholarship on the Chinese revolution which has previously focused primarily on rural China showing how workers alienation from the military officers directing the arsenals eroded the legitimacy of the Nationalist regime and how the Communists mobilized working class support in Chongqing Moreover in emphasizing the urban working class and nationalist components of the 1949 revolution the author demonstrates the multiple sources of workers identities and thus challenges previous studies that have exclusively stressed workers particularistic or regional identities A Scourge of Guns Michael T.
