Surplus Labour And The City A Study Of Bombay:

Urban Unorganised Sector in India Rapaka Satya Raju,1989 **Industrialising Economy and Labour Market in India** Yogeshchandra Surajram Purohit,1989 **Outcaste Bombay** Juned Shaikh,2021-04-25 Caste class and development converge in a booming metropolis Over the course of the twentieth century Bombay s population grew twentyfold as the city became increasingly industrialized and cosmopolitan Yet beneath a veneer of modernity old prejudices endured including the treatment of the Dalits Even as Indians engaged with aspects of modern life including the Marxist discourse of class caste distinctions played a pivotal role in determining who was excluded from the city s economic transformations Labor historian Juned Shaikh documents the symbiosis between industrial capitalism and the caste system mapping the transformation of the city as urban planners marked Dalit neighborhoods as slums that needed to be demolished in order to build a modern Bombay Drawing from rare sources written by the urban poor and Dalits in the Marathi language including novels poems and manifestos Outcaste Bombay examines how language and literature became a battleground for cultural politics Through careful scrutiny of one city s complex social fabric this study illuminates issues that remain vital for labor activists and urban planners around the world **In the Valley of Historical Time** Abhinav Sinha,2024-04-22 The descent of working class movements that began with neoliberal globalization is nearing completion However the ascent is yet to begin This period is witnessing novel forms of organization and resistance For students activists and academics it is imperative to understand changes in the modus operandi of capital since the 1970s to explain the crisis of conventional trade unionism as well as the spontaneous outbursts of creativity in movements of informal workers in recent times Delhi has been a centre of such innovative experiments In the Valley of Historical Time attempts to understand these new forms and strategies and possibilities of resurgence of working class movements **Industry and Inequality** Mark Holmström,1984-11-08 This Book Co Published With Cambridge University Press Breaks New Ground In The Field Of Industrial Anthropology The Focus Of The Book Is On The Uneasy Relationship Between The Permanent Organised Sector Industrial Workers Who Have The Protection Of The Factory Act And The Trade Unions And The Temporary Unorganised Workers The Author Questions Whether India Has A Dual Economy And Society In Which These Two Groups Of Workers Act As Distinct Classes With Opposed Interests Dr Holmstrom Uses A Wide Range Of Material From The Opinions And Life Stories Of Workers To Accounts Of Recent Union Movements In The Unorganised Sector And Contributes Critically To The Debate On Dualism And Its Underlying Assumptions **Workers, Unions, and Global Capitalism** Rohini Hensman,2011-01-27 While it s easy to blame globalization for shrinking job opportunities dangerous declines in labor standards and a host of related discontents the flattening of the world has also created unprecedented opportunities for worker organization By expanding employment in developing countries especially for women globalization has formed a basis for stronger workers rights even in remote sites of production Using India s labor movement as a model Rohini Hensman charts the successes and failures strengths and

weaknesses of the struggle for workers rights and organization in a rich and varied nation As Indian products gain wider acceptance in global markets the disparities in employment conditions and union rights between such regions as the European Union and India s vast informal sector are exposed raising the issue of globalization s implications for labor Hensman s study examines the unique pattern of employees unionism which emerged in Bombay in the 1950s before considering union responses to recent developments especially the drive to form a national federation of independent unions A key issue is how far unions can resist protectionist impulses and press for stronger global standards along with the mechanisms to enforce them After thoroughly unpacking this example Hensman zooms out to trace the parameters of a global labor agenda calling for a revival of trade unionism the elimination of informal labor and reductions in military spending to favor funding for comprehensive welfare and social security systems **Imperial Power and Popular Politics** Rajnarayan Chandavarkar,1998-06-11 In this series of interconnected essays Rajnarayan Chandavarkar offers a powerful revisionist analysis of the relationship between class and politics in India between the Mutiny and Independence Dr Chandavarkar rejects the Orientalist view of Indian social and economic development as exceptional and somehow distinct from that prevailing in capitalist societies elsewhere and reasserts the critical role of the working classes in shaping the pattern of Indian capitalist development Sustained in argument and elegant in exposition these essays represent a major contribution not only to the history of the Indian working classes but to the history of industrial capitalism and colonialism as a whole **Imperial Power and Popular Politics** will be essential reading for all scholars and students of recent political economic and social history social theory and cultural and colonial studies Publisher description ***West Bengal Economy*** Ajitava Raychaudhuri,Tuhin K. Das,2005 Contributed articles **Surplus Labour and the City** Heather Joshi,Vijay Joshi,1976 This Classic Work Focuses On Bombay And Takes A Detailed Look At A Relatively Neglected Subject The Problem Of Urban Employment In India And Other Labour Sulplus Developing Countries Dust Jacket Torn At The Top But In Excellent Condition Otherwise **Development Studies and Colonial Policy** Barbara Ingham,Colin Simmons,2005-06-28 First Published in 1987 Routledge is an imprint of Taylor Francis an informa company **Eugenics, Human Genetics and Human Failings** Pauline Mazumdar,2005-12-20 This scholarly and penetrating study of eugenics is a major contribution to our understanding of the complex relation between science ideology and class **Rethinking Indian Political Institutions** Crispin Bates,Subho Basu,2005-09-01 This book explores various aspects and processes of the twentieth century Indian state from the central Union government down to grassroot level in the provinces and villages ***Work in a Metro*** Anuradha Kalhan,2017-12-06 This volume is about why work changed to become more precarious around the turn of the century This happened not just in the developed world but also inside sectors that were demarcated as organized and modern within developing countries like India In these sectors unlike the greater part of the Indian economy insecure jobs were uncommon before winds of change made them normal This shift had occurred before the great global financial crisis of

2008 Between 2005 8 a survey based on over thousand structured interviews with workers in offices factories shops and establishments below the supervisory rank in Mumbai was undertaken This is the innovative segment of the book which tries to measure and quantify some of these changes and their associations It is designed to investigate the central proposition of the Insecurity Hypothesis IH which is that the economic risk of increased and global competition was being progressively passed on from the employer to the employee This was happening through shortened job tenure erratic remuneration variable work contingent employment and institutional changes that remove or reduce protection bargaining power of employees in the work place everywhere The corollary is that widespread and unremitting work and income related insecurity is an expedient competitive strategy but a damaging socio economic phenomenon Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **Gandhian Model of**

Development and World Peace R. P. Misra,1989 *Oil, Debt and Development* Paul Hallwood,Stuart Sinclair,2016-03-02

This book originally published in 1981 discusses the various welfare effects including ai debt trade and labour flows of the rise in oil prices and revenues which took place in the 1970s These complex effects and the negotiating stances of the developing countries are all examined an dinvestigated drawing upon a wide range of sources and material for the more quantitative parts Throughout however the treatment is non mathematical and is written in clear English accessible not only to bankers and politicians but also students of economics international relationjs and area studies **Dalit Journeys for**

Dignity Ramnarayan S. Rawat,K. Satyanarayana,P. Sanal Mohan,2025-04-01 Examines the challenges and opportunities faced by Dalits in modern India The past decade has seen a surge in Dalit studies offering key theoretical insights into the study of marginalized groups This collection of essays focuses on Dalit struggles for dignity in India highlighting the search for religious alternatives and the rejection of caste Hinduism as the first step towards self respect These explorations for self worth covered everyday secular life as well The introduction argues that these struggles played a seminal role in informing B R Ambedkar s ideas including his insistence on the inclusion of dignity in the Indian Constitution It looks at his concept of moral stamina emphasizing ethical commitment to democratic practices and of the social offering innovative approaches to studying the connected histories of caste and the making of modern India The essays that follow examine the challenges and opportunities faced by Dalits in modern India Several explore the distinct trajectories of Dalit groups in their search for religious dignity They reveal that conversion to Christianity as well as reinterpretations of indigenous religious traditions such as Buddhism and the Sant mat religion associated with Raidas and Kabir have helped to reconstitute untouchable selfhood Other essays probe the struggle against caste by analyzing changes in sartorial choices secular work historical interpretation and views of domestic space Drawing from literary and archival sources as well as ethnographical fieldwork this collection illustrates the connected histories of religion politics literature and history *Dock Workers* Sam

Davies,Colin J. Davis,David de Vries,Lex Heerma van Voss,Lidewij Hesselink,Klaus Weinbauer,2017-09-29 Workers who

loaded and unloaded ships have formed a distinctive occupational group over the past two centuries As trade expanded so the numbers of dock labourers increased and became concentrated in the major ports of the world This ambitious two volume project goes beyond existing individual studies of dock workers to develop a genuinely comparative international perspective over a long historical period Volume 1 contains studies of 22 major ports worldwide Built around an agreed framework of issues these port studies examine the type of workers who dominated dock labour their race class and ethnicity the working conditions of dockers and the role of government as employer arbitrator and supporter The studies also detail how dockers organized their labour patterns of strike action and involvement in political organizations The structure of the port city is also outlined and descriptions given of the waterside environment These areas of investigation form the basis for a series of 11 thematic studies which comprise Volume 2 Drawing on the information provided in the port studies these essays identify important aspects and recurring themes and explain how and why particular cases diverge from the rest The final chapter of the book synthesizes the various approaches taken to offer a model which suggests several configurations of dock labour and presents suggestions for future research This major scholarly achievement represents the most sustained attempt to date to provide a comparative international history of dock labour An annotated bibliography completes this essential reference work

Economic and Social Crises in Sierra Leone: Fouday S Kamara, 2008-08-29 The economic and social problems in Sierra Leone the role of the small scale entrepreneurs in petty trading as a strategy for socio economic survival in the country The people of Sierra Leone by developing a business culture of small scale entrepreneurship and petty trading have succeeded in surviving the growing economic chaos

Employment and Labour Market in North-East India Virginius Xaxa, Debdulal Saha, Rajdeep Singha, 2018-08-06 This book examines the structural changes in the labour market in North East India Going beyond the conventional study of tea and agricultural sectors it focuses on the nature pattern and structure of work and employment in the region as well as documents emerging shifts in the labour force towards farm to non farm dynamics The chapters explore historical developments in employment patterns labour market policies issues of gender and social religious dimensions as well as point to growing forms of casual informal and contractual labour across sectors Through large scale data and detailed case studies on unfree labour in plantations and those employed in crafts handloom and the manufacturing industry the book provides insights into labour and employment in the region It also delves into the temporal and spatial dimensions of non farm employment and its relationship with rural income distribution and labour mobility By bringing interdisciplinary perspectives from scholars working on North East India this work fills a major gap in the political economy of the labour market in the region The volume will be useful to scholars and researchers of development studies North East India studies labour studies economics sociology and political science as well to those involved with governance and policymaking

The Origins of Industrial Capitalism in India Rajnarayan Chandavarkar, 1994 The first major study of the relationship between labour and capital in India s economic development in

the early twentieth century The author considers the spread of capitalism and the growth of the cotton textile industry
