Future inter-parliamentary scrutiny of EU foreign, defence and security policy Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2011-01-18 The dissolution of the Western European Union WEU and its Assembly in 2011 threatens to leave the EU s inter governmental Common Foreign and Security Policy CFSP and Common Security and Defence Policy CSDP without inter parliamentary scrutiny The inter governmental nature of decision making in the CFSP and CSDP and the significance of the CFSP and CSDP activities to which EU Member States may agree make it important that inter parliamentary oversight should be continued with national parliaments taking the lead This short Report puts forward a

proposal for successor arrangements to the WEU Assembly which has been drawn up in a process of consultation among relevant Select Committee Chairs of both Houses of Parliament with a view to putting this proposal before each House for its approval The Report recommends that the WEU Assembly should be succeeded by an EU Inter parliamentary Conference on Foreign Affairs Defence and Security COFADS COFADS would secure continued inter parliamentary scrutiny of this area of EU activity would not be an autonomous institution and would minimise costs while adding value to the work that each national parliament does on its own in this field *Le Parlementaire: Synthesis of the Inquiry on the MP's means of information* ,1973

The Italian Parliament in the European Union Nicola Lupo,Giovanni Piccirilli,2017-10-05 The Lisbon Treaty states that national Parliaments shall contribute to a better functioning of the EU Can they really do it and therefore enrich the European democracy How far can they extend their original sovereignty without distorting political responsibilities that should be geared upon the European Parliament The authors analyze the experience of the Italian Parliament under the light of these crucial questions and their exhaustive answers are greatly helpful to the readers of all over Europe Giuliano Amato Judge of the Italian Constitutional Court This important new collection explores the role of the Italian Parliament in the Euro national parliamentary system as an example of an increased role for national parliaments within the composite European constitutional order It illustrates how parliamentary interactions within the European Union are highly systematic with integrated procedures and mutual interdependence between the various institutions and stakeholders The book argues that this dynamic is vital for both the functioning and the future equilibrium of democracy in the EU This is significant particularly given the challenges posed to democracy within the EU institutions and the Member States Notwithstanding its peculiarities a symmetrical bicameral system in which both Houses are directly elected hold the same powers and are linked through a confidence relationship with the government the Italian Parliament deserves specific attention as a lively active player of the European polity The grid for its analysis proposed by this collection may also be applied to other national parliaments so contributing to the development of comparative research in this field

Sharma,1973 **Journal of Constitutional and Parliamentary Studies** ,1973 *Protecting Rights Without a Bill of Rights* Jeffrey Goldsworthy,Tom Campbell,Adrienne Stone,2017-11-30 Australia is now the only major Anglophone country that has not adopted a Bill of Rights Since 1982 Canada New Zealand and the UK have all adopted either constitutional or statutory bills of rights Australia however continues to rely on common law statutes dealing with specific issues such as racial and sexual discrimination a generally tolerant society and a vibrant democracy This book focuses on the protection of human rights in Australia and includes international perspectives for the purpose of comparison and it provides an examination of how well Australian

Interparliamentary Cooperation in the Composite European Constitution Nicola Lupo,Cristina Fasone,2016-05-19 This collection analyses the place and the functioning of interparliamentary cooperation in the EU composite constitutional order taking into account both the European and the national dimensions The chapters join the recent scholarship on the role of parliaments in the EU after the Treaty of Lisbon The aim of this volume is to highlight the constitutional significance of interparliamentary cooperation as a permanent feature of EU democracy and as a new parliamentary function as well as to investigate the practical side of this relatively new phenomenon To this end the contributors are academics and parliamentary officials from all over Europe The volume discusses the developments in interparliamentary cooperation and its implications for the organisation and procedures of national parliaments and the European Parliament for the fragmented executive of the EU and for the democratic legitimacy of the overall EU composite Constitution These issues are examined by looking at the European legislative process the European Semester and the Treaty revisions Moreover the contributions take into account the effects of interparliamentary cooperation on the internal structure of parliaments and analyse the different models of interparliamentary cooperation ie from COSAC to the new Interparliamentary Conference on Stability Economic Coordination and Governance in the European Union provided by the Fiscal Compact
