*Representations of the Gypsy in the Romantic Period* Sarah Houghton-Walker, 2014-10-16 In early eighteenth century texts the gypsy is frequently

figured as an amusing rogue by the Victorian period it has begun to take on a nostalgic romanticized form abandoning sublimity in favour of the bucolic fantasy propagated by George Borrow and the founding members of the Gypsy Lore Society

Representations of the Gypsy in the Romantic Period argues that in the gap between these two situations the figure of the gypsy is exploited by Romantic period writers and artists often in unexpected ways Drawing attention to prominent writers including Wordsworth Austen Clare Cowper and Bront as well as those less well known Sarah Houghton Walker examines representations of gypsies in literature and art from 1780 1830 alongside the contemporary socio historical events and cultural processes which put pressure on those representations She argues that raising troubling questions by its repeated escape from the categories of enlightenment discourses which might seek to know or understand in empirical ways the gypsy exists both within and outside of conventional English society The figure of the gypsy is thus available to writers and artists to facilitate the articulation of dilemmas and anxieties taking various forms and especially as a lens through which questions of knowledge and identity which is often mutable and troubling might be focussed
