Shortlisted for The Historical Writers Association Gold Crown Award. Longlisted for The Walter Scott Prize for Historical Fiction. **The Hiding Game** Naomi Wood, 2025-12-04 An intoxicating story of love and betrayal set in 1920s Germany. There are many parts of her life that she hides from the people she cares about. Some parts because she wants to, and others because she has to. When she and Hunter finally get together after being friends, she is the happiest she has ever been. Until her biggest secret comes out, and her whole life starts to unravel. Hunter doesn't let many people into his life. He trusts even less Jenna, who has been part of his inner circle for a while, and now their relationship has turned into more. When someone from their past comes after them, Hunter does everything to keep Jenna safe. Even if that means he'll spend the rest of his life in prison for a crime he didn't commit. The Verbal Games of Pre-school Children Susan Grohs Iwamura,2022-11-21 Originally published in 1980 The Verbal Games of Pre school Children states that in the course of acquiring language every child recognizes that verbal interaction is a powerful tool which can be used to interpret and manipulate the world During the last previous two decades developments in the study of both language acquisition and linguistic theory had begun to illustrate that the acquisition of a first language involves considerably more than the mere learning of grammatical structure This view of learning had led researchers gradually to see children as more than grammarians devising grammatical constructs The tendency at the time was to see the child as an active partner in what are essentially games of communication and invention during which the rules of usage as well as the rules of grammar are discovered This study is based on extensive and detailed observation of the verbal interaction of two pre school children and as such offers far reaching ideas and conclusions concerning the manner in which all children determine the role of language in their lives whilst simultaneously learning how to piece it together
