The Historical Constellation Of The Sturm Und Drang:

The Historical Constellation of the Sturm und Drang Larry Vaughan, 1985 The study weaves the fabric of 18th century German history into a multilayered garment with an eye to the brilliant and unifying if broken thread of the Sturm und Drang The analysis proceeds in an interdisciplinary fashion between social layers political economy institutional structures cultural configurations forms of consciousness The study moves dialectically considering all phenomena equidistant from a riven yet holding center on the one hand a developing market economy and civil society but the retardive corporative feudal regime on the other a growing absence of genuine value if only in nostalgia and the seething need of the brothers of unseat the fathers of received opinion Though in life as in literature the brothers came undone or did themselves in and so ended this later 18th century socio aesthetic revolution the German form of the French Revolution Korff

Literature of the Sturm und Drang David Hill, 2003 Carefully focused essays on major aspects of one of the most significant German literary movements the Storm and Stress Sturm und Drang refers to a set of values and a style of writing that arose in Germany in the second half of the eighteenth century a particularly intense kind of pre Romanticism that has often been represented as marking the beginning of an independent modern German culture The circle of writers around the young Goethe including Herder Lenz Klinger and later Schiller felt frustrated by the Enlightenment world of reason balance and control and turned instead to nature as the source of authentic experience Inspired by Rousseau and Herder by Shakespeare and by folk culture they rebelled against propriety and experimented with new literary forms their creative energy bursting through conventions that seemed staid and artificial The Sturm und Drang has often been cited by those attempting to legitimate nationalism and irrationalism but scholars have more recently emphasized the diversity of the movement and the links between it and the Enlightenment This volume of essays by leading scholars from the UK the US and Germany illuminates the guiding ideas of the movement discussing its most important authors texts and ideas and taking account of the variety and complexity of the movement placing it more securely within late eighteenth century European history The main focus is on literature and in particular on the drama which was of special importance to the Sturm und Drang However the essays also outline the social conditions that gave rise to the movement and consideration is given to different currents of ideas that underlie the movement including areas of thought and bodies of work that traditional approaches have tended to marginalize Contributors Bruce Duncan Howard Gaskill Wulf Koepke Susanne Kord Frank Lamport Alan Leidner Matthias Luserke Michael Patterson Gerhard Sauder Margaret Stoljar Daniel Wilson Karin Wurst David Hill is a Senior Lecturer in the Department of German Studies at the University of Birmingham UK **Constellation** James McFarland, 2012-12-31 The first extended exploration of the relationship between the Weimar era revolutionary cultural critic and the radical philosopher In five chapters Constellation presents the changing figure of Friedrich Nietzsche as Walter Benjamin encountered him an inspiration to his student activism an authority for his skeptical philology a
