The History Man:

The Business of Reading Julian Lovelock, 2022-02-24 In *The Business of Reading* Julian Lovelock charts the development of the English novel over the past hundred years Smuggling in titles from Scotland Ireland and the Caribbean he focuses on twenty texts written since the end of the First World War some well known but others less so placing them in their historical context Novelists represented range from D H Lawrence E M Forster and Virginia Woolf through Graham Greene Kingsley Amis and Iris Murdoch to such contemporary writers as Ian McEwan Maggie O Farrell and Graham Swift Written in a lucid style that reflects his expertise and enthusiasm Lovelock s innovative selection perceptive analysis and lightness of touch will appeal to the general reader the book club member and the student He argues that our response as readers is an important part of the creative process and while he mainly avoids the critical isms that have characterised recent academic debate he introduces such concepts as intertextuality metafiction and the role of the often unreliable narrator showing how an appreciation of the way the language of fiction works can only add to our understanding and enjoyment

The Dialogic Novels of Malcolm Bradbury and David Lodge Robert A. Morace, 1989 Discusses the overlooked works of Bradbury and Lodge in terms of their critical reception Bakhtin s theory of the dialogical novel and their relation to British literature and contemporary literature in general Annotation copyright Book News Inc Portland Or

Aristocratic Voices Richard Avramenko, Ethan Alexander-Davey, 2024-12-15 In the 21st century political debates appear to center on fundamental conflicts between the people and elites Most of these discussions emphasize strategies to protect and empower the oppressed masses against a predatory ruling class Much of classical political thought however was written from an aristocratic point of view that is it ascribed paramount importance to the question of elite formation Assuming inequality as a permanent feature of human associations what virtues would elites need to have what institutions and traditions would cultivate the best qualities in members of the ruling class and curb their extravagances *Aristocratic Voices* Forgotten Arguments about Virtue Authority and Inequality consists of essays by political theorists who explore these questions in the works of aristocratic thinkers both ancient and modern The volume includes analyses of aristocratic virtues interpretations of aristocratic assemblies and constitutions both historic and contemporary as well as critiques of liberal virtues and institutions Essays on Plutarch Nicholas of Cusa Marsilius of Padua Sir Thomas Elyot John Henry Newman Wilhelm Heinrich Riehl Henry Adams Friedrich Nietzsche Irving Babbitt Oswald Spengler Julius Evola and Robert Nisbet explore ways of preserving and adapting the valuable aspects of the aristocratic ethos to the needs of modern societies

As in a Mirror. John Calvin and Karl Barth on Knowing God C. van der Kooi, 2005-01-01 What does it really mean to know God What are the grounds for knowing God what feeds that knowledge and what is really known In his search for answers to these questions in two panels the author paints for us a clear picture of what Calvin and Barth had to say about knowing God Calvin against the background of pre modern culture Barth in response to a post Kantian culture inclined to agnosticism

Between them like a hinge between the two panels we find the philosophy of Kant The two epochal theological figures are placed next to each other but without this being at the expense of the power of either The study does not stop with detached historical analysis but nourishes the author's own reflection toward a systematic design **Geographers** T. Rousseau Emile or On Education Jean-Jacques Rousseau, Language, Truth, and Literature Richard Gaskin, 2013-04-18 Richard Gaskin offers an original defence of literary humanism according to which works of imaginative literature have an objective meaning which is fixed at the time of production and not subject to individual readers' responses He shows that the appreciation of literature is a cognitive activity fully on a par with scientific investigation **Understanding News** John

Hartley, 2013-06-17 News depends for its effect on a culturally shared language and this book concentrates on ways we can decode its messages without simply reproducing their underlying assumptions Parody Beate Müller, 1997 Parody is a

most iridescent phenomenon of ancient Greek origin parody's very malleability has allowed it to survive and to conquer Western cultures Changing discourse on parody its complex relationship with related humorous forms e.g. travesty burlesque satire its ability to cross genre boundaries the many parodies handed down by tradition and its ubiquity in contemporary culture all testify to its multifaceted nature No wonder that parody has become a phrase without clear meaning The essays in this collection reflect the multidimensionality of recent parody studies They pay tribute to its long and varied tradition covering examples of parodic practice from the Middle Ages to the present day and dealing with English American postcolonial Austrian and German parodies The papers range from the Medieval classics e.g. Chaucer parodies of Shakespeare and the role of parody in German Romanticism to parodies of fin de siècle literature and the intertextual puzzles

of the late twentieth century such as cross dressing Schwab's Faustparody and Rushdie's Satanic Verses And they have transformed the contentious nature of parody into a diverse range of methodologies In doing so these essays offer a survey of the current state of parody studies

Names of Nihil Arvydas Šliogeris, 2008-01-01 In this book probably for the first time in Western philosophy an attempt has been made to point out and systematically explicate the problem scope of the Nothing which is called Nihil in the book and to try to explain the springhead of the excessive negativity inherent only in the human being or in other words the springhead of the human's natural nihilism Nihilism is treated here not as a posture pose or an ideological attitude but as the spread of the human metaphysical nucleus of Nihil Nihilistic annihilation manifesting itself as the road of the naming of Nihil and of the production of thingly crystals artificial world as a result of that naming usually is called history Names of Nihil language phenomena being the antithesis of Nihil falsify and cover up Nihil itself turning it into supreme being e.g. into the One God Substance Matter Spirit ad infinitum This book should be interesting not only to philosophers or humanitarians but also to all those who concern themselves with the total human condition

Heideggerian Marxism Herbert Marcuse, 2005-01-01 The Frankfurt School philosopher Herbert Marcuse 1898-1979 studied with Martin Heidegger at Freiburg University from 1928 to 1932 and completed a dissertation on Hegel's theory of historicity under Heidegger's supervision During these years Marcuse wrote a number of provocative philosophical essays experimenting with the possibilities of Heideggerian Marxism For a time he believed that Heidegger's ideas could revitalize Marxism providing a dimension of experiential concreteness that was sorely lacking in the German Idealist tradition Ultimately two events deterred Marcuse from completing this program the 1932 publication of Marx's early economic and philosophical manuscripts and Heidegger's conversion to Nazism a year later Heideggerian Marxism offers rich and fascinating testimony concerning the first attempt to fuse Marxism and existentialism These essays offer invaluable insight concerning Marcuse's early philosophical evolution They document one of the century's most important Marxist philosophers attempting to respond to the crisis of Marxism the failure of the European revolution coupled with the growing repression in the USSR In response Marcuse contrived an imaginative and original theoretical synthesis existential Marxism
