Beyond Religious Borders David M. Freidenreich, Miriam Goldstein, 2011-11-29 The medieval Islamic world comprised a wide variety of religions While individuals and communities in this world identified themselves with particular faiths boundaries between these groups were vague and in some cases nonexistent Rather than simply borrowing or lending customs goods and notions to one another the peoples of the Mediterranean region interacted within a common culture Beyond Religious Borders presents sophisticated and often revolutionary studies of the ways Jewish Christian and Muslim thinkers drew ideas and inspiration from outside the bounds of their own religious communities Each essay in this collection covers a key aspect of interreligious relationships in Mediterranean lands during the first six centuries of Islam These studies focus on the cultural context of exchange the impact of exchange and the factors motivating exchange between adherents of different religions Essays address the influence of the shared Arabic language on the transfer of knowledge reconsider the restrictions imposed by Muslim rulers on Christian and Jewish subjects and demonstrate the need to consider both Jewish and Muslim works in the study of Andalusian philosophy Case studies on the impact of exchange examine specific literary religious and philosophical concepts that crossed religious borders In each case elements native to one religious group and originally foreign to another became fully at home in both The volume concludes by considering why certain ideas crossed religious lines while others did not and how specific figures involved in such processes understood their own roles in the transfer of ideas

The Silk Road Valerie Hansen, 2017 The Silk Road We have a hazy mental image a lone traveler carrying silk on a camel moves along a desert Where exactly is he going and what goods is he carrying This book offers concrete answers based on newly discovered documents preserved in the sands of the Taklamakan Desert It is amazing what has been dug up and how the new materials both documents and artifacts radically challenge our understanding of the Silk Road Historians have only recently begun to piece together and

The Ornament of Histories: A History of the Eastern Islamic Lands AD 650-1041 C. Edmund Bosworth,2011-02-28 Abu Sa id Abd al Hayy Gardizi was a Persian author and historian living in the mid eleventh century at the height of the Turkish Ghazvanid dynasty His only known work The Ornament of Histories Zayn al akhbar is a hugely ambitious history of the Eastern Islamic lands 650 1041 AD spanning what is now Eastern Iran Afghanistan and parts of the Central Asian Republics and Indo Pakistan subcontinent Gardizi s text is an extremely rare source of primary information about the rise of Islamic faith culture and military dominance in these regions and represents a significant contribution to our understanding of the early Islamic world Covering the four centuries from the first Arab conquests to his own time Gardizi s work is a prime source for some episodes the sole one for the history of these lands at this time Thus it is the sole source for events at the end of Sultan Mas ud s reign when the Sultan was killed in an army coup having just lost the whole of the empire s Persian provinces to the incoming Seljuq Turks and it was the Seljuqs who were now to dominate the central and eastern Islamic lands for a century and a half almost till the invasion of the Mongols Writing on the far eastern fringes of what was then the Eastern Islamic world in what is now Afghanistan Gardizi also included important ethnological information on the Turkish tribes of Inner Eurasia and on the religions and philosophies of the Indians But his prime interest was clearly the Islamic history of his own lands the eastern Iranian world and its Central Asian and Indian fringes and here he provides a detailed narrative This book provides the first translation into a Western language of this history of the formative period of the Eastern Islamic world and gives an explanatory commentary detailing the historical geographical and cultural context and well as the events and colourful characters mentioned in it

McMillan,2013-06-18 This book traces the rise of the political dynasty in the Middle East and in the process provides the context for the current Arab uprising The author shows that a father to son transfer of power has no basis in Islam and yet the idea of dynastic power became entrenched in the Middle East The History of Jihad Robert Spencer,2018 It is taken for granted even among many Washington policymakers that Islam is a fundamentally peaceful religion and that Islamic jihad terrorism is something relatively new a product of the economic and political ferment of the twentieth century But in The History of Jihad From Muhammad to ISIS Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself as old

as Muhammad the prophet of Islam who said I have been made victorious through terror Spencer briskly traces the 1 400 year war of Islamic jihadis against the rest of the world detailing the jihad against Europe including the 700 year struggle to conquer Constantinople the jihad in Spain where non Muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against India where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion Told in great part in the words of contemporary chroniclers themselves both Muslim and non Muslim The History of Jihad shows that jihad warfare has been a constant of Islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past The History of Jihad From Muhammad to ISIS is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror *Twenty Battles That Shaped Medieval Europe* Georgios Theotokis, 2019-07-31 Warfare has been central to European history for millennia *Twenty Battles that Shaped Medieval Europe* examines the strategy military and equipment and battle tactics of European armies in the Middle Ages Its fundamental aim is to stimulate the reader s interest in the importance of pitched battles in war and to explain the geo political gravity of twenty of them from the Battle of Frigidus in AD394 to the Battle of Varna in 1444 taking in such key battles as Hastings in 1066 and Bouvines in 1214 Majallat Al-Maghrib , 1988 **Novum Millennium** Claudia Sode, Sarolta Takács, 2017-05-15 This volume reflects the different methods and new approaches to the study of Byzantine history that have characterized the work of Paul Speck to whom it is dedicated and above all his insistence on a close reading and careful interpretation of the sources These aims are encapsulated in the introduction by John Haldon which gives a sense of where future studies should lead new generations of scholars The following studies by many of the leading authorities in their fields look at a whole range of aspects of the history of Byzantium its culture theology linguistics literature historiography sigillography and art and at the place of the Byzantine empire within the late antique and medieval worlds *The Maghreb Review* , 1989
