The Holocaust In Latvia 1941-1944 The Mibing Center:

The Holocaust in Latvia, 1941-1944 Andrew Ezergailis, 1996 A history of the Holocaust in Latvia focusing on the question of the involvement of Latvians in its implementation. It contends that extant historiography on the Holocaust in Latvia has been greatly influenced by Soviet publications which tend to vilify the Baltic and Ukrainian peoples. Examination of documents and witnesses accounts shows that there were no spontaneous killing actions on the part of Latvians during the occupation; the killing was initiated and basically perpetrated by the Nazis, mainly by Einsatzgruppe A. Before the war, traditional antisemitism was prevalent in Latvia but not modern racist theories. The regime of Ulmanis, 1934-40, was not antisemitic. The main antisemitic organization in prewar Latvia, Perkonkrusts, supplied mainly writers, not killers. Dwells on the Arajs commando created by the Nazis in 1941 which killed tens of thousands of Jews in Latvia, Russia, and Belarus. The contribution of the Latvian auxiliary police to the Holocaust was smaller. Describes the extermination of Jews in Riga, Liepāja, Daugavpils, Rēzekne, Ventspils, and other places in some of which ghettos were established and Nazi camps in Latvia, Kaiserwald, Salaspils, and others.

The Holocaust and Latin America Daniela Gleizer, Emmanuel Kahan, Yael Siman, 2025-06-13 This book explores the history of the Holocaust in relation to Latin America. It is estimated that about 100,000 Jewish refugees immigrated to the region between 1933 and 1945. Despite the critical role Latin America played in sheltering Jewish refugees from Nazism, the region has remained largely on the margins of Holocaust studies. The volume adopts a global perspective, examining the Holocaust's connections to Latin America both as a region and as a mosaic of distinct national contexts. Structured around three key themes: migration, settlement, and memory, the book not only addresses the immigration policies of Latin American governments but also amplifies the experiences and voices of Jewish survivors who found refuge in this culturally diverse region.

The German Secret Field Police in Greece, 1941-1944 Antonio J. Muñoz, 2018-03-04 The Geheime Feldpolizei (Secret Field Police) was the political police force of the German Army during World War II. Its members were drawn from both the regular German police, including detectives, and various Nazi security organizations. The goals of the GFP were numerous and included protecting important political and military leaders, investigating black market activities, as well as acts of sabotage and espionage, locating deserters, examining anti-German activists, and hunting down partisans. While performing these duties, GFP members immersed themselves in criminal activities. This book focuses on the function of the GFP in Greece compared to that of the GFP elsewhere in Europe.

The Baltic Transformed Walter C. Clemens, 2001 Why isn't the Baltic region like the Balkans? Why have the Baltic republics not experienced ethnic cleansing, border wars, authoritarian rule, and social chaos? Instead, peace, democracy, and market economies have taken root since the fall of communism. Walter C. Clemens Jr. here uses complexity theory, which analyzes the role of self-organization in complex adaptive systems, to explain the Baltic miracle. He argues that the theory is a vital tool for understanding the remarkable strides made by Estonia, Latvia, and Lithuania since 1991 in coping with the transition to

partnership with the new Europe The Baltic peoples have adapted well to the demands of democracy a market economy and a constructive role in world affairs The achievements of Estonia Latvia and Lithuania in the past decade are the more amazing when considered against the hundreds of years they were dominated by Teutonic knights Hanseatic merchants Sweden Russia and the USSR Clemens uses this history as a springboard to analyze how Balts self organize today to meet the challenges of transition One of the first books to apply complexity theory to a major sphere of world politics The Baltic Transformed will provoke constructive debate with its ambitious and well grounded analysis of not only Baltic developments but European security more generally Despite its theoretical foundation the book is written in a clear and accessible style that will make it invaluable for courses on comparative politics political development international relations security or transition studies

A Concise History of the Baltic States Andrejs Plakans, 2011-02-24 The Baltic region is

frequently neglected in broader histories of Europe and its international significance can be obscured by separate treatments of the various Baltic states With this wide ranging survey Andrejs Plakans presents an integrated history of three Baltic peoples Estonians Latvians and Lithuanians and draws out the common threads to show how it has been shaped by their location in a strategically desirable corner of Europe Subordinated in turn by Baltic German landholders the Polish nobility and gentry and then by Russian and Soviet administrators the three nations have nevertheless kept their distinctive identities significantly retaining three separate languages in an ethnically diverse region The book traces the countries evolution from their ninth century tribal beginnings to their present status as three thriving and separate nation states focusing particularly on the region s complex twentieth century history which culminated in the eventual re establishment of national sovereignty after 1991 Alfred Valdmanis and the Politics of Survival Gerhard P. Kasekamp, 2000-03-23 This is the first detailed study of Estonian politics during the 1930s It examines the Estonian Veterans League which won a majority in a referendum for its constitutional amendment creating a strong presidency The Veterans appeared set to triumph in the 1934 elections but were thwarted by the establishment of an authoritarian regime By using formerly unobtainable archival records this study fills a considerable gap in the literature on the Baltic states and should be of interest to students of fascism *The 'Final Solution' in Riga* Andrej Angrick, Peter Klein, 2012 With its over thousand detailed and expansive footnotes drawing on twenty four different archive collections in eight countries and three continents and an enormous secondary literature this is one of the best researched regional studies of the Holocaust ever to appear It is helped by the fact that the authors are also always so cognizant of what was happening elsewhere in Europe at the same time and thus frequently draw out the relationship between seemingly haphazard local decisions and trends across Europe Indeed the way in which the book makes sense of complex institutional behavior is at times breathtaking The precision in the detail and the scope of the contextualization make this one of the more important

American Latvians Ieva Zake, 2017-09-08 This book analyzes the political experience of a small and unique American ethnic group American Latvians This community was constituted by post World War II political refugees who fled Communism and arrived in the United States seeking safety and protection For decades they insisted on preserving their ethnic identity and therefore did not call themselves Latvian Americans Instead they formed a distinctive double identity that is they blended into the American society economically and socially but refused to become assimilated culturally and politically The book offers a detailed look into the life of this community of political refugees which also provides a novel perspective on the Cold War as experienced by certain ethnic groups From a theoretical point of view the book makes two major contributions First it reasserts the need to understand the generalized category of white Americans or white ethnics

with more nuance and attention to differences and second it strengthens the so called realist claim that refugees are not like other immigrants In order to achieve these goals the book provides compelling descriptions and interpretations of the most politically relevant moments in the experience of American Latvians in the period between the 1950s and the 1990s Concretely the book deals with topics as the American Latvians anti communist activism the impact of the hunt for Nazis on Latvian emigres the Soviet Union s anti emigre propaganda campaigns and the exiled Latvians involvement in the politics of national liberation in Latvia The author strives to reveal the complexity of the refugee experience in the United States during the Cold War and its aftermath Since such aspects of the life of ethnic groups in the United States have not been sufficiently studied this book makes a substantial contribution to a fuller understanding of American immigration history and sociology of ethnic groups It is well written expertly organized and will be of interest to a large readership at many levels of academia
