The Home Hospital How A Family Can Cope With Catastrophic Illness:

Coping with Physical Illness Rudolf Moos, 2012-12-06 This book provides new ideas about how patients and their families cope with serious health crises Biomedical knowledge has expanded abruptly in the past decade during which time diagnostic and treatment procedures have become unusually specific and effective Similarly important advances have taken place in our understanding of the central role of psychosocial factors in health and illness Recent trends have sparked the formulation of useful concepts of coping skills and social resources and have emphasized the value of an active assertive role for patients in the process of obtaining health care The emergence of subspecialties such as behavioral medicine and health psychology has stimulated renewed interest in these areas Moreover the growth of holistic medicine and a biopsychosocial orientation highlights the contribution of a psychosocial perspective in an integrated framework for providing health care To cover these diverse trends I offer a unified conceptual approach for understanding the process of coping with the crisis of physical illness and identifying the underlying adaptive tasks and domains of coping skills involved in this process The first half of the book covers coping with selected health crises such as birth defects and perinatal death childhood and adult cancer and chronic physical disabilities
