Plant Souls Speak Robert Shapiro, 2011-08-01 Plant Energies Available to You Live Plant 100% Dead Plant 10% What we intend to speak about in this book if I may speak in general for all plants is how you as the human species can interact with plants in a more benevolent way For a long time you have been clear about the medicinal uses of leaves and stems and seeds and flower petals and so on but you are only getting about one tenth of the energy available to you in this way It is always better to interact with the plant and its energies in its live form but you need to know how The intention of this book is to reveal that formula so that you can stop searching for magical cures to diseases by exhausting the supply of life forms around you A much simpler process is available This book will not just comment on things you know about but show you what you are missing in your interaction with plants Dandelion In this book the plant world will speak through elders This has certain advantages allowing them to include knowledge and wisdom about their home planets In this way you will learn some of the old wisdom again shared so that you can discover how to interact with the plants while they are alive while they are a portion of the Creator of All Things With this you will learn the beginnings the reminders and for many of you the fulfillment of the transformation of that which does not work in your body in your life in your community and in your world the transformation of what you call dis-ease or disharmony into harmony and ease Zoosh Isis and Grandfather Each plant brings a wondrous gift to share with humanity enjoy it

The Sagan Conspiracy Donald L. Zygutis, 2016-11-21 Mainstream SETI scientists and ancient alien theorists don't agree on much but one opinion they share is that the undisputed authority on the possibility of alien existence was the late Carl Sagan 1934

1996 whose voluminous writings on the subject have had a profound influence on ETI research But how many Carl Sagan fans know that while the renowned scientist was at Stanford University he produced a controversial paper funded by a NASA research grant that concludes ancient alien intervention may have sparked human civilization Author Donald Zygutis lays out a compelling case that points to a cover up by the Pentagon and NASA who may have buried it soon after it was written How significant is the Stanford Paper The answer may lie in another question How would a science backed theory and search strategy to guide the discovery of alien artifacts among our own ancient civilizations impact the worldwide institutions of government religion and culture Recently rediscovered by the author Sagan s lost Stanford paper is the central theme of The Sagan Conspiracy Groundbreaking research and paradigm changing material challenges conventional thinking about the People s Scientist and maybe even the origins of human society Sagan even conceived of the likelihood that the ancient Sumerian civilization had been visited and influenced by beings from other worlds as evidenced by ancient manuscripts among other artifacts As we celebrate the 20 year anniversary of Carl s death The Sagan Conspiracy is sure to fundamentally alter how the world thinks about extraterrestrials **An Amazing Human Journey** Shakuntala Modi, M.D.,2014-10-30

Extraterrestrial Legacies of God, Jesus, and the Angels Raphael-Seraphin Kutota Basisa, 2024-01-03 About the Book In some way or form this book is unassumingly a nicer and a more logical organization and interpretation of compounding existing religious writings from a variety of walks of life Herein they are presented as proof drawn synthetically from those multitude of intellectual sources written over the last 4 000 years evidencing that the central figure of the persona translated as the reincarnation of almighty God of Israel himself in Christian literature is simply another Extraterrestrial Alien visiting Planet Earth for a purpose Another visitor just like those well known Anunnaki the Elohim the Nephilim the Sons of God the Watchers the renegade Angels or other entities over several millennia ago And in the many ways how it is related to the current humanity s most pressing problem of whether we are alone and unique in the Cosmos as it is linked to the much witnessed UFO encounters phenomenon It also well outlined the latent consequences resulting from what is presented as postulate About the Author Raphael Seraphin Kutota Basisa currently resides in Lynn Massachusetts He would consider himself a futurist a researcher a world s concerned citizen and a great human being He is a chemical engineer by training and earned an MBA and an ABD in Applied Management and Public Policy He has written and published several technical and non technical documents commentaries articles papers and other books along the subjects of his expertise He believes in extraterrestrial life in regard to religion Basisa is a person whose research helped to recognize early on the theory that we are all descendants of Extraterrestrials and Cosmic religiosity should be recognized in modern theology *The Third Planet* J. V. Perrone, 2014-05-31 As the author of this novel I prefer not to provide biographic data except to disclose that I currently reside in Florida having moved there in 2004 after working in the financial district of New York City While still a rail commuter from New Jersey my daily morning route included taking the PATH train from Hoboken into the basement of the World Trade Center where especially when the weather was spring like I usually would exit the complex through its central plaza and from there walk the three blocks to my office My timing was such that I was usually in the plaza by 8 45 AM in order to be on time for work Having returned a few days earlier from a tiring vacation I decided that fateful Tuesday morning of September 11 2001 to get a few extra winks of sleep and to take the late train to work As a result I was about thirty minutes later than usual and not where I normally would have been at 8 46 AM when the first plane struck the north tower of the World Trade Center If the events of that day did not change my perspective on life then the following weeks and months of working in the humbling atmosphere of such a terrible disaster did Many questions were asked and not answered Was it by human design alone Was it because of divine punishment In any event in order to mentally escape the reality of an environment in which physical escape was not then possible I found that when I had a private moment to think on the subway the commuter train on a work break etc I did so with pen in hand And what emerged at the time were poems that helped me deal with questions of the soul and resolve the remorse I felt which was later replaced with a sense of hope Although I always had what I thought to be a talent for writing through which I could express thoughts and feelings in a way I never could do

verbally I had never written anything of consequence before that disastrous day in 2001 And yet looking back it seemed that whatever pen I subsequently used in writing those poems which eventually turned out to be many must have had a magical connection because the words came only after first picking up the pen Many times the words came quickly without my having to think as if I was simply transcribing what was being dictated It was the same with this novel I never planned to write a novel and most certainly do not consider myself an author But one day a thought came into my head causing me to pick up a pen and on a simple notepad I began to write the first chapter of this book The characters immediately came into being and essentially it is their novel their story At times when the story stagnated causing me to sit at the computer while my fingers remained still it was as if the characters had nothing to say so much so that if a family member who knew of the writing of this novel would ask me at the time how it was coming along my answer would be that the characters weren't talking to me So maybe this isn't a novel at all Maybe it all did happen a long while ago and that through some kind of a time anomaly the people described herein may have telepathically communicated their story to me so that this world that we live in today could have knowledge of what once had been I really don't know what do you think J V Perrone Teal Leaves of the Bayon Tree

Elaine Bruce, 2019-11-25 Ayan thought she would have a normal day at work until her boss who is also her uncle is murdered She sets out to find the murderer and bring him to justice Never did she believe that her ex husband was capable of the deed On the way to tracking him down she is hired by the King of the Galaxy and becomes a bounty hunter
