**The Hope of Progress** P.B. Medawar, 2021-11-29 First published in 1972 The Hope of Progress presents collection of essays and lectures dealing with the history of scientific ideas and the impact of science on society The principle piece in this volume is the author's 1969 presidential address to the British Association On The Effecting of All Things Possible an argument for believing in the ability of science to solve the problems it has itself created and which too many of us believe insoluble It contains author's Romanes Lecture on Science and Literature and a well known critique of J D Watson's notorious account of the discovery of the molecular structure of DNA The Double Helix Other chapters discuss the possibility of the control and domination by science of the body and mind of Man though the author concludes in The Genetic Improvement of Man I think that in the main for many centuries to come we shall have to put up with human beings as they are at present constituted This book will be useful for scholars and researchers of history of science philosophy of science natural science and philosophy in general

**Hysteria Beyond Freud** Sander L. Gilman, Helen King, Roy Porter, G. S. Rousseau, Elaine Showalter, 2024-03-29 She's hysterical For centuries the term hysteria has been used by physicians and laymen to diagnose and dismiss the extreme emotionality and mysterious physical disorders presumed to bedevil others especially women How did this medical concept assume its power What cultural purposes does it serve Why do different centuries and different circumstances produce different kinds of hysteria These are among the questions pursued in this absorbing erudite reevaluation of the history of hysteria The widely respected authors draw upon the insights of social and cultural history rather than Freudian psychoanalysis to examine the ways in which hysteria has been conceived by doctors and patients writers and artists in Europe and North America from antiquity to the early years of the twentieth century In so doing they show that a history of hysteria is a history of how we understand the mind This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993

**Why Marx Was Wrong** Lawrence Eubank, 2011-11-02 The subject of this book is the negative assault on democratic capitalism embodied in Capital A Critique of Political Economy Marx's great work devoted to delineating the crimes and inequities of capitalist societies and market economies The book is a systematic step by step analysis of Marx's logic It is a deconstruction of the arguments and deductions by which he reaches his main conclusion that capitalism is corrupt in its essential nature and that capitalists gain wealth not by any legitimate means but by appropriating unpaid labor or surplus value from the working masses Despite the disappearance of the Soviet bloc and the waning of Communist zealotry that is still a widely believed doctrine Marx's accusation against capitalism and the course of argumentation by which he arrives at it together form the subject of the present volume

Marshall McLuhan's Mosaic Elena Lamberti, 2012-01-01 One hundred years after Marshall

McLuhan's birth Elena Lamberti explores a fundamental yet neglected aspect of his work the solid humanistic roots of his original mosaic form of writing In this investigation of how his famous communication theories were influenced by literature and the arts Lamberti proposes a new approach to McLuhan's thought Lamberti delves into McLuhan's humanism in light of his work on media and culture exploring how he began to perceive literature not just as a subject but a function inseparable from communal existence Lamberti pays particular attention to the central role played by Modernism in the making of his theories including the writings of Ford Madox Ford James Joyce Ezra Pound and Wyndham Lewis Reconnecting McLuhan with his literary past Marshall McLuhan's Mosaic is a demonstration of one of his greatest ideas that literature not only matters but can help us understand the hidden patterns that rule our environment *Childhood, Science Fiction, and Pedagogy* David W. Kupferman, Andrew Gibbons, 2019-04-24 This book invites readers to both reassess and reconceptualize definitions of childhood and pedagogy by imagining the possibilities past present and future provided by the aesthetic turn to science fiction It explores constructions of children childhood and pedagogy through the multiple lenses of science fiction as a method of inquiry and discusses what counts as science fiction and why science fiction counts The book examines the notion of relationships in a variety of genres and stories probes affect in the convergence of childhood and science fiction and focuses on questions of pedagogy and the ways that science fiction can reflect the status quo of schooling theory practice and policy as well as offer alternative educative possibilities Additionally the volume explores connections between children and childhood studies pedagogy and posthumanism The various contributors use science fiction as the frame of reference through which conceptual links between inquiry and narrative grounded in theories of media studies can be developed

Life Truth in its Various Perspectives Anna-Teresa Tymieniecka, 2013-03-09 What is truth This fascinating spectrum of studies into the various rationalities of our human dealings with life psychological aesthetic economic spiritual reveals their joints and calls for a new approach to truth Putting both classical and contemporary conceptions aside we find the primogenital ground of truth in the networks of correspondences adequations relevancies and rationales at work in life's becoming Does this plurivocal differentiation mean that the status of truth is relative On the contrary submits Anna Teresa Tymieniecka given the universal significance of the crucial instrument of the logos of life truth is the vortex of life's ontopoietic unfolding *Researching the Unconscious* Michael Rustin, 2019-02-12 Researching the Unconscious provides an exposition of key issues in the philosophy and methods of the social sciences that are relevant to psychoanalysis both as a clinical practice and as a human science These include the debates initiated by Thomas Kuhn's theory of scientific revolutions the actor network theory of Bruno Latour the ideas of philosophical realism distinctions between meaningful and causal explanation and the relevance of complexity theory and part whole analysis to psychoanalysis The book goes on to discuss specific forms and methods of psychoanalytical research including the role of case studies of outcome research and of grounded theory as a key methodological resource of which it provides a detailed example The book concludes by outlining

principles and methods for psychoanalytic research in the wider contexts of infant observational studies society and culture Michael Rustin provides a unifying account of the methodological principles that underlie the generation of knowledge in psychoanalysis in the light of recent developments in the philosophy and sociology of science In doing so it provides a coherent rationale for psychoanalytic investigation which will be of value to those pursuing research in this field Researching the Unconscious is unusual in its being based both on a deep understanding of and respect for psychoanalytical clinical practice and on its author's wider knowledge of the philosophy and sociology of science It is unique in its comprehensive approach to the principles of psychoanalytic research **A Philosophical Analysis of Hope** J. Waterworth,2003-12-16

Despite the familiarity of hope in human experience it is a phenomenon infrequently considered from a philosophical point of view This book charts the centrality of hope in thought and action from first second and third person perspectives From everyday situations to extreme circumstances of trial and endings in life the contours of hope are given a phenomenological description and subjected to conceptual analysis This consistently secular account of hope sheds a different light on questions of agency and meaning **Microbe Hunters** Paul De Kruif,1996 Presents twelve stories of the men who

pioneered the study of bacteriology Science Books ,1974 **Refugees and Migrants in Law and Policy** Helmut Kury,Ślawomir Redo,2018-05-31 Refugees and migration are not a new story in the history of humankind but in the last few years against a backdrop of huge numbers of migrants especially from war torn countries they have again been a topic of intensive and contentious discussion in politics the media and scientific publications Two United Nations framework declarations on the sustainable development goals and on refugees and migrants adopted in 2016 have prompted the editors who have a background in international criminology to invite 60 contributors from different countries to contribute their expertise on civic education aspects of the refugee and migrant crisis in the Global North and South Comprising 35 articles this book presents an overview of the interdisciplinary issues involved in irregular migration around the world It is intended for educationists educators diplomats those working in mass media decision makers criminologists and other specialists faced with questions involving refugees and migrants as well as those interested in improving the prospects of orderly safe regular and responsible migration in the context of promoting peaceful and inclusive societies for sustainable development Rather than a timeline for migration policies based on now with states focusing on stopping migration now sending back migrants now or bringing in technicians or low skilled migrant workers now there should be a long term strategy for multicultural integration and economic assimilation This book prefaced by Fran ois Cr peau the United Nations Special Rapporteur on the human rights of migrants and William Lacy Swing Director General of the International Organization for Migration addresses the question of the rights and responsibilities involved in migration from the academic and practical perspectives of experts in the field of social sciences and welfare and charts the way forward to 2030 and beyond and also beyond the paradigm of political correctness **Infertility** J. Aiman,2012-12-06 The authors of this book have a goal to

describe the management of infertility from the perspective of physiology and anatomy gone awry To accomplish this goal the chapters devoted to the causes of infert ility begin with a description of the normal structure and function of the organ or system causing the infertility We believe that under standing the normal will result in rational and effective diagnosis and treatment of infertility Our intent is that this book be a useful re source for those who care for infertile couples For an infertile couple success is the delivery of a normal and healthy infant Chapters that describe the causes and treatment of habitual abortion and the reproductive performance of previously infertile couples emphasize the hazards that exist between conception and birth Our environment is one of these hazards one that may also affect reproduction before conception A chapter is devoted to a de scription of environmental agents that affect reproduction the mech anisms of their effect and methods to predict those present and future environmental agents which might also affect reproduction
