Television Program Master Index Charles V. Dintrone,1996 Television history has become one of the hottest areas of research in popular culture Because the field is relatively new and so wide ranging no matter what one is researching much of the relevant material will be found scattered through numerous other works frustrating scholarly progress This work makes the television researcher s job easier by providing a single index to 341 books that include information on 1 002 shows Most of the books deal exclusively with television though some autobiographies biographies Congressional hearings and works on communication and the media are also indexed For a show to be included it must have been carried on NBC CBS ABC or Fox and must have been a series Shows on PBS are generally not included though exceptions have been made for Sesame Street and Mister Rogers Neighborhood **Critical Approaches to TV and Film Set Design** Geraint D'Arcy,2018-09-25 The analysis of scenic design in film and television is often neglected with visual design elements relegated to part of the mise en scene in cinema or simply as wallpaper in television Critical Approaches to TV and Film Set Design positions itself from the audience perspective to explore how we watch TV and film and how set design enhances and influences the viewing experience By using semiotics history and narratology and adding concepts drawn from art architecture and theatre Geraint D Arcy reworks the key concepts of set design Looking at the impact of production design on how the viewer reads film and television these updated theories can be applied more flexibly and extensively in academic criticism D Arcy creates a new theoretical approach representing a significant expansion of the field and filling the remaining gaps This book is ideal for anyone interested in understanding how we can read and interpret design in film and television and should be the primary point of reference for those studying TV and film set design *In the Eye of the Beholder* Gary Richard Edgerton,Michael T. Marsden,John G. Fifties Television William Boddy,1993 Just a few years in the mid 1950s separated the golden age of television's live anthology drama from Newton Minow's famous vast wasteland pronouncement Fifties Television shows how the significant programming changes of the period cannot be attributed simply to shifting public tastes or the exhaustion of particular program genres but underscore fundamental changes in the way prime time entertainment programs were produced sponsored and scheduled These changes helped shape television as we know it today William Boddy provides a wide ranging and rigorous analysis of the fledgling American television industry during the period of its greatest economic growth programming changes and critical controversy He carefully traces the development of the medium from the experimental era of the 1920s and 1930s through the regulatory battles of the 1940s and the network programming wars of the 1950s

Video Theories Dieter Daniels, Jan Thoben, 2022-01-29 Breaking new ground as the first transdisciplinary reader in this field Video Theories is a resource that will form the basis for further research and teaching While theories of video have not yet formed an academic discipline comparable to the more canonized theories of photography film and television the reader offers a major step toward bridging this video gap in media theory which is remarkable considering today's omnipresence of the medium through online video portals and social media Consisting of a selection of eighty three annotated source texts and twelve chapter introductions written by the editors this book considers fifty years of scholarly and artistic reflections on the topic representing an intergenerational and international set of voices This transdisciplinary reader offers a conceptual framework for diverging and contradictory viewpoints following the continuous transformations of what video was is and will be

South Asians on the U.S. Screen Bhoomi K. Thakore, 2016-06-20 How does the media influence society How do media representations of South Asians as racial and ethnic minorities perpetuate stereotypes about this group How do advancements in visual media from creative storytelling to streaming technology inform changing dynamics of all non white media representations in the 21st century Analyzing audience perceptions of South Asian characters from The Simpsons Slumdog Millionaire Harold and Kumar The Office Parks and Recreation The Big Bang Theory Outsourced and many others Bhoomi K Thakore argues for the importance of understanding these representations as they influence the positioning of South Asians into the 21st century U S racial hierarchy On one hand increased acceptance of this group into the entertainment fold has informed audience perceptions of these characters as just like everyone else However these images remain secondary on the U S Screen and are limited in their ability to break out of traditional stereotypes As a result a normative and assimilated white American identity is privileged both on the Screen and in our increasingly multicultural society

A Critical Approach to Youth Culture Pamela J. Erwin, 2010-08-10 Adolescent culture is always changing making it difficult for youth pastors to keep up Even college students who are a few years out of high school find it challenging to stay current with the changing culture of teens However when equipped with tools that help them think critically about culture on a broad scale youth ministry students can be prepared for a strategic ministry to teens that effectively addresses the youth cultural context This academic resource

uses a multi disciplinary approach to understand culture by exploring the nature theology ecology and ethnography of culture then combining these different perspectives to develop a critical approach to youth culture *Ruminations, Peregrinations, and Regenerations* Christopher J. Hansen, 2010-03-08 *Peregrinations Ruminations and Regenerations A Critical Approach to Doctor Who* examines the famous BBC science fiction show as a cultural artifact in dialogue with other science fiction with politics and religion and with the culture at large both in terms of how it reflects and comments upon that culture and in terms of the audience and the peculiarities of its response This book enables researchers in film and media to make historical industrial aesthetic and ideological connections between and among Doctor Who and other shows and historical events since its inception in 1963 This volume is a new entry in a relatively new area As the young fans of Doctor Who have matured and as many have become scholars they are returning to the show to consider it from a scholarly perspective It is also of use in the media studies classroom to address directly the issues presented by the longest running science fiction show in the history of the medium *Peregrinations Ruminations and Regenerations* considers not only cultural ramifications and connections but audience studies as well *Television Culture and Women's Lives* Margaret J. Heide, 1995-02 Contemporary cultural theory feminist criticism and ethnography converge in this provocative study of the construction of meaning in mass culture *Television Culture and Women's Lives* explores the complex relationship between the gender conflicts played out in the scripts of the popular television show *thirtysomething* and the real life conflicts experienced by baby boomer women viewers Women viewers often reinterpreted the program's conservative view on gender roles seeing it instead as a protest against real dilemmas women face as they try to integrate career and family priorities Heide's study confirms women viewers' close identifications with *thirtysomething* characters and positions audience responses against the backdrop of changes in the lives of women in the 1980s and 1990s *Television Culture and Women's Lives* accessibly treats fascinating issues related to cultural criticism the relationship between mass media and audiences and the struggles faced by women in late twentieth century America *To Boldly Go* Djoymi Baker, 2018-03-06 Today's media cinema and TV screens are host to new manifestations of myth their modes of storytelling radically transformed from those of ancient Greece They present us with narratives of contemporary customs and belief systems our modern day myths This book argues that the tools of transmedia merchandising and promotional material shape viewers' experiences of the hit television series *Star Trek* to reinforce the mythology of the gargantuan franchise Media marketing utilises the show's method of recycling the narratives of classical heritage yet it also looks forward to the future In this way it reminds consumers of the *Star Trek* story's ongoing centrality within popular culture whether in the form of the original 1960s series the later additions such as *Voyager* and *Discovery* or J J Abrams' reboot films Chapters examine how oral and literary traditions have influenced the series structure and its commercial image how the cosmological role of humanity and the Earth are explored in title sequences across various *Star Trek* media platforms and the multi faceted way in which Internet video game and event spin

offs create rituals to consolidate the space opera's fan base. Fusing key theory from film, TV, media, and folklore studies as well as anthropology and other specialisms, *To Boldly Go* is an authoritative guide to the function of myth across the whole Star Trek enterprise.
