The House Of Exorcism Lisa And The Devil:

Sleaze Artists Jeffrey Sconce, 2007-10-24 Collection of essays on the impact that non mainstream and middlebrow film genres have had on popular culture including sexploitation horror cult XXX and indie films **The Devil on Screen** Charles P. Mitchell, 2010-07-15 The Devil has been represented in many film genres including horror comedy the musical fantasy satire drama and the religious epic and in these works has assumed many shapes and forms This book begins with a discussion of how the devil has been portrayed on stage how that portrayal carried over to the big screen and what are the standard elements of a satanic plot Each entry in the filmography includes year of production running time writer editor cinematographer producer and director evaluative rating annotated cast list plot synopsis overall appraisal and a spotlight on the actor playing Satan Italian Post-Neorealist Cinema Luca Barattini, 2013-12-16 This book brings to the surface the lines of experimentation and artistic renewal appearing after the exhaustion of Neorealism mapping complex areas of interest such as the emergence of ethical concerns the relationship between ideology and representati **Music in Films on the Middle Ages** John Haines, 2013-10-30 This book explores the role of music in the some five hundred feature length films on the Middle Ages produced between the late 1890s and the present day Haines focuses on the tension in these films between the surviving evidence for medieval music and the idiomatic tradition of cinematic music The latter is taken broadly as any musical sound occurring in a film from the clang of a bell off screen to a minstrel singing his song Medieval film music must be considered in the broader historical context of pre cinematic medievalisms and of medievalist cinema s main development in the course of the twentieth century as an American appropriation of European culture The book treats six pervasive moments that define the genre of medieval film the church tower bell the trumpet fanfare or horn call the music of banquets and courts the singing minstrel performances of Gregorian chant and the music that accompanies horse riding knights with each chapter visiting representative films as case studies These six signal musical moments that create a fundamental visual aural core central to making a film feel medieval to modern audiences originate in medievalist works predating cinema by some three centuries *Italian Horror Cinema* Baschiera Stefano Baschiera, 2016-06-14 In its heyday from the late 1950s until the early 1980s Italian horror cinema was characterised by an excess of gore violence and often incoherent plot lines Films about zombies cannibals and psychopathic killers ensured there was no shortage of controversy and the genre presents a seemingly unpromising nexus of films for sustained critical analysis But Italian horror cinema with all its variations subgenres and filoni remains one of the most recognisable and iconic genre productions in Europe achieving cult status worldwide One of the manifestations of a rich production landscape in Italian popular cinema after the Second World War Italian horror was also characterised by its imitation of foreign models and the transnational dimension of its production agreements as well as by its international locations and stars This collection brings together for the first time a range of contributions aimed at a new understanding of the genre investigating the different phases in its history the

peculiarities of the production system the work of its most representative directors Mario Bava and Dario Argento and the wider role it has played within popular culture [Extreme Cinema](#) Mattias Frey,2016-03-15 Received an Honorable Mention for the 2017 British Association of Film Television and Screen Studies BAFTSS Best Monograph Award From Shortbus to Shame and from Oldboy to Irreversible film festival premieres regularly make international headlines for their shockingly graphic depictions of sex and violence Film critics and scholars alike often regard these movies as the work of visionary auteurs hailing directors like Michael Haneke and Lars von Trier as heirs to a tradition of transgressive art In this provocative new book Mattias Frey offers a very different perspective on these films exposing how they are also calculated products designed to achieve global notoriety in a competitive marketplace Paying close attention to the discourses employed by film critics distributors and filmmakers themselves *Extreme Cinema* examines the various tightropes that must be walked when selling transgressive art films to discerning audiences distinguishing them from generic horror pornography and Hollywood product while simultaneously hyping their salacious content Deftly tracing the links between the local and the global Frey also shows how the directors and distributors of extreme art house fare from both Europe and East Asia have significant incentives to exaggerate the exotic elements that would differentiate them from Anglo American product *Extreme Cinema* also includes original interviews with the programmers of several leading international film festivals and with niche distributors and exhibitors giving readers a revealing look at how these institutions enjoy a symbiotic relationship with the taboo breakers of art house cinema Frey also demonstrates how these apparently transgressive films actually operate within a strict set of codes and conventions carefully calibrated to perpetuate a media industry that fuels itself on provocation
