## **The Howling Monkeys Ray Carpenters Expedition:**

**The Howling Monkeys** Nancy K. Robinson, 1973 Describes the observations made by scientist Ray Carpenter on the behavior of howler monkeys in their natural habitat **The Gibbons of Khao Yai** Thad Q. Bartlett, 2015-08-26

Primatologists have long viewed small fruiting trees like figs as the reason for gibbons territorial and monogamous behavior However at Khao Yai National Park in Thailand where gibbons are prevalent figs are one of the largest trees in the forest In this long term field study Bartlett takes up this apparent contradiction and follows gibbons as their major food sources wax and wane over time This is an important reference on gibbons and the study of small apes which provides a thorough expansive coverage of the relationship between fruit abundance and diet range use and intergroup interactions in Gibbon apes *The Gibbons of Khao Yai Seasonal Variation in Behavior and Ecology* provides an essential resource for students conducting research in this field *The Pygmy Chimpanzee* Randall L. Susman, 2012-12-06 Historical Remarks Bearing on the Discovery of *Pan paniscus* Whether by accident or by design it was most fortunate that Robert M Yerkes the dean of American primatologists should have been the first scientist to describe the characteristics of a pygmy chimpanzee which he acquired in August 1923 when he purchased him and a young female companion from a dealer in New York The chimpanzees came from somewhere in the eastern region of the Belgian Congo and Yerkes estimated the male's age at about 4 years He called this young male Prince Chim and named his female common chimpanzee counterpart Panzee Fig I In his popular book *Almost Human* Yerkes 1925 states that in all his experiences as a student of animal behavior I have never met an animal the equal of this young chimp in approach to physical perfection alertness adaptability and agreeableness of disposition Yerkes 1925 p 244 Moreover It would not be easy to find two infants more markedly different in bodily traits temperament intelligence vocalization and their varied expressions in action than Chim and Panzee Here are just a few points of contrast His eyes were black and in his dark face lacked contrast and seemed beady cold expressionless Hers were brown soft and full of emotional value chiefly because of their color and the contrast with her light complexion **In the Hearts of the Beasts**

Primates in the Real World Georgina Mary Montgomery, 2005      Subject Guide to Books in Print, 1971      Primates in the Real World Georgina M. Montgomery, 2015-09-21 The opening of this vital new book centers on a series of graves memorializing baboons killed near Amboseli National Park in Kenya in 2009 a stark image that emphasizes both the close emotional connection between primate researchers and their subjects and the intensely human qualities of the animals Primates in the Real World goes on to trace primatology's shift from short term expeditions designed to help overcome centuries old myths to the field's arrival as a recognized science sustained by a complex web of international collaborations Considering a series of pivotal episodes spanning the twentieth century Georgina Montgomery shows how individuals both within and outside of the scientific community gradually liberated themselves from primate folklore to create primate science Achieved largely through a movement from the lab to the field as the primary site of observation this development reflected an urgent and ultimately extremely productive reassessment of what constitutes natural behavior for primates An important contribution to the history of science and of women's roles in science as well as to animal studies and the exploration of the animal human boundary Montgomery's engagingly written narrative provides the general reader with the most accessible overview to date of this enduringly fascinating field of study      **The Discovery of Animal Behaviour** John Sparks, 1982
