The Human Shield Gulf Conflict

Cecilia M. Bailliet

The Human Shield Gulf Conflict:

Gulf Conflict Samuel Uzong, 1991-03-01 *Security: A Multidisciplinary Normative Approach* Cecilia M. Bailliet, 2009-08-28 Security is an all encompassing term of art which is subject to diverse interpretations and understandings It includes notions of protection against transnational threats including terrorism inter and intra state conflict nuclear proliferation forced migration violation of women s rights climate change etc The papers in this collection provide fresh voices in the security debate uniting scholars from different fields of law and philosophy to address normative gaps in interpretation evolution and application Part I considers calls for an expanded mandate for the UN Security Council and regional international organisations Part II reviews innovations within the arena of international humanitarian law including whether it is possible to balance human rights and humanitarian law standards in peacekeeping operations responses to voluntary human shielding and normative evolution in the removal of anti personnel mines and the ban on cluster munitions Part III embarks upon the realm of Ethics and Democracy assessing the engagement of private soldiers and the legitimacy of targeted strikes pursuant to the responsibility to prevent terrorism It also considers internal conflicts within the notion of democratic security affirms the procedural guarantees of habeas corpus and non refoulement as central elements of global justice and calls for evaluation of gender equity as a measure of state fragility Part IV confronts the global challenge of climate change as a security threat Finally Part V provides a practitioner s perspective which discusses possible grounds for a gap between academics and security practitioners **Atrocities, Massacres, and War Crimes** Alexander Mikaberidze, 2013-06-25 Both concise and wide ranging this encyclopedia covers massacres atrocities war crimes and genocides including acts of inhumanity on all continents and serves as a reminder that lest we forget history will repeat itself The 400 plus entries in *Atrocities Massacres and War Crimes An Encyclopedia* provide accessible and concise information on the difficult subject of abject human violence committed on all continents The entries in this two volume work describe atrocities massacres and war crimes committed in the 20th century thereby documenting how human beings have repeatedly proven their capability to commit horrific acts of inhumanity even in relatively recent times and within the modern era The encyclopedia covers countries treaties and terms profiles individuals who had been formally indicted for war crimes as well as those who have committed mass atrocities and gone unpunished and addresses human rights violations crimes against humanity and crimes against peace **The War on Terror Encyclopedia** Jan Goldman Ph.D., 2014-10-07 This fascinating reference chronicles the individuals operations and events of the War on Terror around the world exploring its causes and consequences through the lens of policy doctrine and tactics of combat The War on Terror is more than a political movement to identify and prosecute terrorists it has become a cornerstone of economic and military importance This campaign has shaped policy in the Middle East prompted uprisings of Islamic fundamentalists against the West and redefined the ideology of warfare This single volume encyclopedia provides readers with more than 200 engaging entries on the myriad events key

individuals and organizations that have played a major role in the War on Terror The A Z entries define the policies and doctrines describe the armies battlefields and weapons employed and profile the figures whose actions and decisions set the course of history The expert contributors decode military jargon for non specialist readers and explain the unconventional tactics used in the War on Terror shedding light on the reason behind the attacks the political maneuvering of the leaders involved and the internal conflicts and external clashes that drove terrorists to settle all over the world The book also includes detailed essays on the impact of the September 11 attacks on U S foreign policy presidential powers and public opinion

Essays on Law and War at the Fault Lines Michael N. Schmitt, 2011-11-15 This collection of essays by Professor Michael N Schmitt of Durham University draws together those of his articles published over the past two decades that have explored particular fault lines in the law of armed conflict As such they examine the complex interplay between warfare and law seeking to identify where the law and warfare appear to diverge and where such apparent divergence can be accommodated through contextual interpretation of the law Each essay examines a particular issue in either the jus ad bellum the law governing resort to force or jus in bello international humanitarian law that has proven contentious in terms of applying extant norms to the evolving face of armed conflict Among the topics addressed are counter terrorism cyber operations asymmetrical warfare assassination environmental warfare and the participation of civilians in hostilities

U.S. Conflicts in the 21st Century Spencer C. Tucker, 2015-12-14 This three volume reference work provides an up to date presentation and analysis of the U S wars of the 21st century addressing their backgrounds causes courses and consequences It serves as an indispensable resource for students seeking to understand the role of the United States in the world today Addressing the U S conflicts in Iraq Afghanistan and the Global War on Terror from the year 2001 to the present this comprehensive three volume encyclopedia covers the significant individuals key events and important places involved in these recent military events Beginning with the rise of Al Qaeda in the 1990s and the attacks on September 11 2001 and covering events through ISIS s dramatic surge in Iraq and Syria the hundreds of detailed entries also examine historical trends nations and ethnicities involved in the conflicts influential figures and organizations economic political diplomatic and cultural influences wars campaigns and battles and important weapons systems The set s A Z organization makes it an easy to use ready reference for high school and college students Perspective essays on several controversial topics such as the use of torture and the effects of the Patriot Act serve to inspire readers to apply critical thinking A detailed chronology is provided to help students place all the important events that have occurred in the Afghanistan War Iraq War and War on Terror Each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context

Human Shields Neve Gordon, Nicola Perugini, 2020-08-25 From Syrian civilians locked in iron cages to veterans joining peaceful indigenous water protectors at the Standing Rock Sioux Reservation from Sri Lanka to Iraq and from Yemen to the United States human beings have been used as shields for protection coercion or

deterrence Over the past decade human shields have also appeared with increasing frequency in antinuclear struggles civil and environmental protests and even computer games The phenomenon however is by no means a new one Describing the use of human shields in key historical and contemporary moments across the globe Neve Gordon and Nicola Perugini demonstrate how the increasing weaponization of human beings has made the position of civilians trapped in theaters of violence more precarious and their lives more expendable They show how the law facilitates the use of lethal violence against vulnerable people while portraying it as humane but they also reveal how people can and do use their own vulnerability to resist violence and denounce forms of dehumanization Ultimately Human Shields unsettles our common ethical assumptions about violence and the law and urges us to imagine entirely new forms of humane politics **The Progression of**

International Law Yoram Dinstein, Fania Domb, 2011-11-11 This volume was produced to celebrate the fortieth anniversary of the Israel Yearbook on Human Rights Forty years have yielded an impressive forty annual volumes When it was started in 1971 the Yearbook was the first of its kind anywhere in the world It has always understood its mandate as transcending the narrow borders of the discipline of either national or international human rights From the outset international humanitarian law and international criminal law were understood as coming within the proper framework of the Yearbook as were on occasion articles on diverse freedoms that may seem out of bounds to a strict interpreter of the phrase human rights

Yearbook of International Humanitarian Law - 2003 Avril McDonald, 2006-12-31 Provides an international forum for high quality articles on the laws of armed conflict in international law **The Human Right to Dominate** Nicola

Perugini, Neve Gordon, 2015-05-27 The Human Right to Dominate investigates the Israel Palestine conflict to account for how human rights generally conceived as a counter hegemonic instrument for righting historical injustices are increasingly being deployed to further subjugate the weak and legitimize their domination *The Encyclopedia of Middle East Wars* Spencer

C. Tucker, 2010-10-08 This in depth study of U S involvement in the modern Middle East carefully weighs the interplay of domestic cultural religious diplomatic international and military events in one of the world s most troubled regions The monumental five volume *The Encyclopedia of Middle East Wars* The United States in the Persian Gulf Afghanistan and Iraq Conflicts is a must have resource for anyone seeking to comprehend U S actions in this volatile region Under the expert editorship of Spencer C Tucker the encyclopedia traces 20th and 21st century U S involvement in the Middle East and south central Asia concentrating on the last three decades Beginning with the 1980 1988 Iran Iraq War it covers the 1979 1989 Soviet occupation of Afghanistan the 1991 Persian Gulf War allied punitive actions against Iraq during the 1990s the Afghanistan War the Iraq War and the Global War on Terror Many smaller military actions against Iran Iraq Libya Afghanistan and other regimes that have been involved in international terrorism are also included Diplomacy religion as it pertains to Middle East conflict and social cultural developments are other key subjects of analysis as is the interplay of politics with military policy in the United States and other nations involved in the region Handbook on the Geographies of

Power Mat Coleman, John Agnew, 2018-07-27 The so called spatial turn in the social sciences means that many researchers have become much more interested in what can be called the spatialities of power or the ways in which power as a medium for achieving goals is related to where it takes place Most famous authors on the subject such as Machiavelli and Hobbes saw power as entirely equivalent to domination exercised by some over others Though this meaning is hardly redundant understandings of power have become more multidimensional and nuanced as a result of the spatial turn Much recent writing in human geography for example has rigorously extended use of the term power beyond its typical understanding as a resource that pools up in some hands and some places to a medium of agency that has different effects depending on how it is deployed across space and how actors cooperate or not to give it effect To address this objective the book is organized thematically into four sections that cover the main areas in which much of the contemporary work on geographies of power is concentrated bodies economy environment and energy and war

Body Horror John Taylor, 1998-09 What compels us to look at shocking photographs or alternatively to look away Should the media use disturbing images to inform at the risk of offending How is our sense of politics morality and culture affected when we are exposed to gruesome images of accidents and disasters murder and execution grief and death In *Body Horror* John Taylor addresses these questions by examining how the media presents unsettling pictures especially those of dead and injured foreigners Drawing on recent experiences in the Gulf Bosnia and Rwanda Taylor argues that documentary photography for all the horror it reproduces ultimately defines a democracy Fully aware of the voyeuristic aspects of photojournalism Taylor probes the difficulty of applying moral imperatives when separating the utility of showing images of suffering and violence from the risk of either insulting or gratifying public sensibilities A compelling documentary of photography's cultural and political power *Body Horror* analyzes the moral responsibility attached to publishing and bearing witness to photographs of violence and the historical amnesia that arises when such imagery remains unseen

Understanding the Volatile and Dangerous Middle East Steven Carol, 2019-09-26 The Middle East can be bewildering which is why we need to connect the dots that pull together the political economic diplomatic military cultural and religious pieces of the puzzle Professor Steven Carol slashes through the confusion with a topical approach focusing on key issues such as the geographic features of the Middle East demographics of the region the influence of Islam political processes shifting alliances war in the region and the need for security He also takes a careful look at perpetual negotiations attempts to secure peace and the role that the media play in how we view the region His goal to clarify the confusing nature of Middle East affairs and to combat the mistaken beliefs misrepresentations and outright fabrications about the region In a bid to reclaim the truth he shares basic principles relying on factual supporting evidence to prove their validity Seventy eight maps and numerous tables make understanding complex topics easier Whether you're a student educator bureaucrat or politician you'll find insights based on facts in *Understanding the Volatile and Dangerous Middle East*

Refuting the Anti-Israel Narrative Jeremy Havaridi, 2016-04-12 In recent decades

Israel has come under sustained diplomatic pressure from the West According to the press and the policy establishment she acts aggressively and with disregard for civilian lives in pursuit of an unnecessary and illegal occupation of Palestinian territory Others view the country as an embarrassing outpost of colonialism racism and apartheid whose actions and those of the pro Israel lobby have provoked a fiery Islamist backlash This book refutes these misrepresentations showing that Israel's actions are well within the norms of international law and morality and arguing that the country far from being a deviant state is a bastion of Western values The author offers a nuanced narrative outlining the legal moral and historical justice behind Jewish statehood and discussing the reasons behind the failed peace process in recent years The Law of Targeting William H. Boothby, 2012-08-16 Comprehensively examining all aspects of the law of targeting in military operations the book assesses controversies in the rules governing targeting including the use of human shields the level of care required in a bombing campaign and in the determination of whether someone is directly participating in hostilities Beyond the Headlines Amelia Bookstein, 2003 Includes statistics *Israel Yearbook on Human Rights, Volume 27 (1997)* Yoram Dinstein, Fania Domb, 2020-10-26 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Volume 27 contains amongst others articles on The Laws of Air Missile and Nuclear Warfare The Protection of Civilians from Air Warfare The Protection of Medical Aircraft in International Law Missile Warfare and Exclusion Zones in Naval Warfare Missiles with Non Conventional Warheads and International Law **Research Handbook on International Conflict and Security Law** Nigel D. White, Christian Henderson, 2013-01-01 Featuring some of the field's most expert thinkers this is an adroitly constructed volume of essays in conflict and security law The writing here offers a distillation of the major legal projects in the area while dissolving some of international law's most rigid demarcations e.g. between war and peace or the *jus ad bellum* and *jus in bello* Gerry Simpson University of Melbourne Australia A most important and timely collection of essays that places the established international rules in their modern and challenging context Philippe Sands QC University College London UK Events of the past fifteen years have sharpened the focus on well known issues in international conflict and security law What responses to international terrorism are permissible Can humanitarian intervention be justified under international law The Research Handbook on International Conflict and Security Law addresses these and other debates across the areas of conflict prevention use of force and post conflict reconstruction with the critical insight for which the contributors are known James Crawford University of Cambridge UK This innovative Research Handbook brings together leading international law scholars from around the world

to discuss and highlight the contemporary debate regarding issues of conflict prevention and the legality of resorting to the use of armed force through to those arising during an armed conflict and in the phase between conflict and peace The Handbook covers key conceptual topics drawn from across the three areas of jus ad bellum jus in bello and jus post bellum The subject matter of the included chapters range from conflict prevention through to reparation and compensation via coverage of issues such as disarmament the role of the Security Council self defence humanitarian intervention and the responsibility to protect targets war crimes private military contractors peacekeeping and the protection of human rights Being the first to examine topics under these areas in one volume the book will be of interest to scholars academics postgraduate and research students as well as government lawyers from various disciplinary backgrounds looking for a contemporary grounding in issues under the broad theme of international conflict and security law Sites of Violence Wenona Giles, Jennifer Hyndman, 2004-06-28 In this book militarization nationalism and globalization are scrutinized at sites of violent conflict from a range of feminist perspectives
