The Hammer Of The Lord Signs Of Hope:

The Hammer of the Lord Colin Morris,1974 This book is concerned with identifying and describing signs of hope within aspects of life in Church and society The author believes that the basis for Christian hope is the assurance that even at a time when for thousands faith seems to be dying ultimate pessimism is little short of blasphemy in those who believe in God

Signs of Hope Donna West,2012-01-17 Winner of the 2013 Outstanding Qualitative Book Award by the International Congress of Qualitative Inquiry Signs of Hope tells the story of a narrative inquiry with three deafhearing families For many of us deafness represents loss and silence For others being deaf is a genetic quirk an opportunity for learning spiritual adventure and reward For yet others it is the most natural thing in the world a connection to a genealogical layer of signing ancestors and the continuation of a culture Amid the noise of mainstream medical and educational discourses of deafness here are family voices demanding to be heard whether spoken or signed that challenge audiological and surgical intervention that call for scrutiny and critique of inclusive deaf related pedagogical practices that rail against marginalisation of members of minority cultures Over four years Donna West has recorded the stories of three families who wish to counter and resist what they see as damaging misconceptions and discriminatory constructions of deafness and deafhearing family life Here spaces are created that respect and acknowledge human beings adults children deaf hearing as storytellers The poetic and performative narratives at the heart of this book reveal not only the ways in which hurtful definitions of and discrimination towards deaf people and signing deafhearing families is destabilised but also the ways in which celebration of deaf culture and sign language are affirming and vital for healthy family life
