Talking Back against the Nazi Scheme to Kill the Handicapped Citizens of Germany 1933-1945 Alan R.

Rushton,2019-01-17 When Hitler came to power in 1933 he labeled physically and mentally handicapped citizens as dangerous to the genetic health of the German people He initiated a compulsory sterilization program that eventually blocked 400 000 citizens from enjoying any normal family life With the onset of war in 1939 he decided that resources should be reserved for healthy worthwhile citizens who could work for victory He then ordered a secret program to kill the handicapped Approximately 250 000 citizens had died when the war finally ended Readers in medicine law sociology and history will be intrigued by this compelling story of the brave citizens who spoke out against the immoral killing of the disabled Many were arrested and imprisoned some were executed All the protesters claimed that the disabled were not ballast people They were people who deserved opportunities to contribute what they could for the good of the community

Reclaiming the Disabled Subject ,2022-04-20 Mired inside its rather archaic comprehension as a medical phenomenon disability for a long time now has been ignored as a marker of identity The world has only been busy in rectifying the absences that have ostensibly disabled rather than accepting such impaired existences as human beings themselves The volume intends to reclaim the representations of disability and present narratives that do not just use the figure of the disabled as a means to an end It includes translation of 17 disability centric short stories from multiple Indian languages into English Further it uses these stories as illustration to test and develop new theoretical formulations concerning disability and the disabled What grants the proposed work its uniqueness is in other words not only the translations of the erstwhile lost stories of disability but also the use of these stories towards the formation of theoretical paradigms to move forward the project of Disability Studies The volume shows interrogates and problematizes the affect that impairment and disability has on those who are abled It presents how the normal human being approaches the disabled and interacts with them All in all owing to its academic engagement with disability as a phenomenon and within a narrative this work intends to take the role of a resource book that will find ready use in the newly emergent multidisciplinary field of Disability Studies and will be of

great significance to India and the world at large especially since Literature has a major role to play in this field Not only then does it present different disability narratives to the world but through their academic interrogation also allows researchers and academics especially in India to form the theoretical enhancements in Disability Studies that both our country and the world desperately require

The Disability Studies Reader Lennard J. Davis,1997 The Disability Studies Reader collects for the first time representative texts from the newly emerging field of disability studies This volume represents a major advance in presenting the most important writings about disability with an emphasis on those writers working from a materialist and postmodernist perspective Drawing together experts in cultural studies literary criticism sociology biology the visual arts pedagogy and post colonial studies the collection provides a comprehensive approach to the issue of disability Contributors include Erving Goffman Susan Sontag Michelle Fine and Susan Wendell Minutes [of The] Annual Meeting United States. President's Committee on Employment of the Handicapped,1962 Minutes [of The] Meeting United States. President's Committee on Employment of the Handicapped,1971 Monthly Catalog of United States Government Publications ,1969 *Institutional Disability* Robert A. Katzmann,2010-12-01 This case study of transportation policy for disabled people illustrates the flaws in policymaking that lead many Americans to believe government is not working as it should Robert A Katzmann examines the workings of the legislative administrative and judicial processes both separately and in interaction as he relates the erratic path of transportation policy for the disabled over two decades An estimated 13 4 million people in this country have difficulty using public transportation but the federal response to their problems of mobility is of fairly recent vintage beginning with legislation in the early 1970s Since then there have been many twists and turns in policy involving a wide array of governmental institutions These constant shifts have confused state and local governments the transit industry and the disabled community Assessing why policy was so erratic Katzmann concludes that in part the confusion resulted from the inability to choose between conflicting approaches to the problem one oriented toward the rights of equal access for the disabled and the other favoring effective mobility by any practical means In addition the conflict between these two policy approaches was compounded by increasing fragmentation within and among national institutions

Psychosocial Aspects of Disability George Henderson,Willie V. Bryan,2011 This new edition of Psychosocial Aspects of Disability strikes a balance of past present and future views of individual family societal and governmental interaction and reaction to persons with disabilities The past is presented in Part 1 Psychosocial Aspects of Disabilities in which a view of the evolution of societal reactions to disabilities and persons with disability is presented This perspective is important because it explains how some of the beliefs and attitudes toward disabilities and those who have a disability have developed Additionally Part 1 makes us aware from a historical perspective why persons with disabilities have been subject to certain types of treatment from family friends and society Parts 2 and 3 provide discussion of present situations for persons with disabilities as they move toward better inclusion in society Chapter 5

discusses the need for empowerment of persons with disabilities and how they can empower themselves Chapter 6 discusses the need for better employment opportunities for persons with disabilities because this is a significant way of empowering persons with disabilities Chapter 7 discusses federal legislation that has been developed to facilitate the empowerment of persons with disabilities Part 4 Psychosocial Issues to a large extent represents the future for persons with disabilities The chapters in this section discuss some disability issues that some persons with disabilities will encounter and or by which they will be affected during the twenty first century Additionally there is discussion of the need for persons with disabilities to attain the full human rights to which they are entitled
