Make Love, Not War David

Allyn, 2016-05-23 When Helen Gurley Brown s Sex and the Single Girl hit bookstores in 1962 the sexual revolution was launched and there was no turning back Soon came the pill the end of censorship the advent of feminism and the rise of commercial pornography Our daily lives changed in an unprecedented time of sexual openness and experimentation Make Love Not War is the first serious treatment of the complicated events ideas and personalities that drove the sexual revolution forward Based on first hand accounts diaries interviews and period research it traces changes in private lives and public discourse from the fearful fifties to the first tremors of rebellion in the early sixties to the heady heyday of the revolution Bringing a fresh perspective to the turbulence of these decades David Allyn argues that the sexual revolutionaries of the 60s and 70s by telling the truth about their own histories and desires forced all Americans to re examine the very meaning of

freedom Written with a historian's attention to nuance and a novelist's narrative drive *Make Love Not War* is a provocative vivid and thoughtful account of one of the most captivating episodes in American history Also includes an 8 page insert

The Harrad Experiment Robert H Rimmer, Mary Glaser, Aristotle, 1991-05-01 *The Harrad Experiment* Michael Werner, 1971 *The Real Steele: The Unauthorized Biography of Dakota Johnson* Marc Shapiro, 2015-02-09 Those who don't believe in miracles should take a look at what brought Dakota Johnson from obscurity to the pinnacle of stardom as Anastasia Steele in the motion picture *Fifty Shades of Grey* But who is Dakota Johnson A surprisingly accomplished and driven actress This is not some celebrity kid given a plum role because of her connections to old world Hollywood In *The Real Steele: The Unauthorized Biography of Dakota Johnson* you'll see how she went from a life of tranquility and yes privilege at the feet of superstar parents Don Johnson and Melanie Griffith to a determination to succeed that has led her down many paths First there was a career as an international model then to growing recognition in a string of successful studio and independent films and finally to her big break in *Fifty Shades of Grey* Johnson has proven a literal force of nature always moving forward and always using a natural sense of positive energy to dissuade the naysayers who would line up to take her down Through exclusive interviews with childhood friends and acting coaches Marc Shapiro has put Johnson's life and times much like the actress herself in a straightforward and always enticing biography **Quantum Jump** W. R. Clement, 1998 *Quantum Jump* was written for individuals trying to make sense of the rapid social and political changes overtaking their lives Clement explains how our civilization is undergoing a translation similar to the European Renaissance the development of managed agriculture or the invention of writing Each of these eras brought about new world views and broadened the intellectual scope through which we perceive our world The Renaissance was triggered by the discovery of perspective OCo the means to manipulate three dimensions OCo and implemented by the bill of exchange and new mathematics Our newest era began in 1900 with the discovery that the universe exists in many more than three dimensions Exploration of this realm via mathematics and computers will drive the immediate future This is a guide to surviving the jump from the industrial age to the onrushing era of hyperspace The changes wrought by this era transition are already formidable OCo the rise of global capitalism and new industries the collapse of the Soviet Union OCo but they are only the beginning History shows that era transitions are juggernauts imposing massive individual cultural and social adaptation Clement analyzes current responses from retreats into tribalism to the erection of a New World Order of global corporatism and trading blocs he concludes that neither is viable Instead he points to skills like tangential and lateral thinking that will better equip individual readers with the points of view required in tomorrow's world **The Films of the Seventies** Marc Sigoloff, 2000-09-01 This is a comprehensive filmography of American British and Canadian feature films released during the decade of the 1970s Nearly 1 000 films are listed alphabetically each with cast including the characters they played and credits release date a five star rating system production company length the Motion Picture Association of America rating of G PG R or X various award
