The Harvest of Tragedy T. R. Henn,2003-01-01 The Harvest of Tragedy (Routledge Revivals) Thomas Rice Henn,2013-01-11 Upon initial publication in 1956 this book was an attempt to re state certain problems concerning the aesthetics and ethics of the tragic form to examine these in relation to contemporary work in psychology and anthropology to enquire into the significance of the fact or experience called tragedy in the modern world and to suggest a synthesis in terms of the Christian tradition This is a reissue of the corrected second edition of the work first published in 1966 *The Harvest of Tragedy* Tr Henn,2018-10-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Harvest of Tragedy** Henn T. R. (Thomas Rice),1966 A Harvest from Tragedy Chinyere Nwahunanya,1997 The Adventure of Education Adam Christian Scarfe,2009 This book on process relational philosophy of education suggests that the notion of Adventure is foundational for the advancement of knowledge Learning teaching and research are best conceived as rhythmic and relational processes involving curiosity imagination valuation creativity and self realization Thus construed contemporary educational practices can be revitalized from pedagogies of information retention and the current overemphasis on analytic precision Modes of Learning George Allan,2012-05-18 Educators are familiar with Alfred North Whitehead s three stages of education romance precision and generalization Philosophers are familiar with

his metaphysical theories about the primacy of temporal processes In *Modes of Learning* George Allan brings these two sides of Whitehead's thought together for the first time in a book suitable for both those initially approaching Whitehead's metaphysics and experts alike Allan develops a series of analogies between Whitehead's ideas about how we learn and key concepts in his later metaphysical writings demonstrating that both how we learn and how the world changes involve a tension between open ended exploration and systematic organization Novel ideas free us from the blinders imposed by old habits and beliefs Yet only when these ideas are integrated with the old ways are we able to improve our individual and collective lives until changing circumstances call for further new ideas and fresh integrations Using a rich variety of examples Allan illuminates the metaphysical ideas he explores by tethering them concretely to the educational practices in which they are rooted This shows a key but neglected feature of Whitehead's thought his pragmatic theory of truth with its functionalist approach to experience and its humanistic appreciation of the frailty of all human endeavors **The Chinese**

Text Yingxiong Zhou, 1986 The collection opens with Harry Levin's What is Literature if Not COMparative read in the Second Hong Kong Comparative Literature Conference 1982 and used here to highlight the significance of a comparative outlook in literary studies It is followed by five constellations of Chinese Western comparative studies some of which were read in the same conference and others specifically solicited The areas studied include classical Chinese drama Chinese narrative Chinese influence in modern American literature Chinese aesthetics and contemporary Chinese literature P 4 of cover

Sweet Violence Terry Eagleton, 2009-02-09 Terry Eagleton's Tragedy provides a major critical and analytical account of the concept of tragedy from its origins in the Ancient world right down to the twenty first century A major new intellectual endeavour from one of the world's finest and most controversial cultural theorists Provides an analytical account of the concept of tragedy from its origins in the ancient world to the present day Explores the idea of the tragic across all genres of writing as well as in philosophy politics religion and psychology and throughout western culture Considers the psychological religious and socio political implications and consequences of our fascination with the tragic *The Tragic Paradox* Leonard Moss, 2014-03-24 Paradox informs the narrative sequence images and rhetorical tactics contrived by skilled dramatists and novelists Their literary languages depict not only a war between rivals but also simultaneous affirmation and negation voiced by a tragic individual They reveal the treason flux and duplicity brought into play by an unrelenting drive for respect Their patterns of speech action and image project a convergence of polarities the convergence of integrity and radical change of constancy and infidelity A fanatical drive to fulfill a traditional code of masculine conduct produces the ironic consequence of de forming that code the tragic paradox Tragic literature exploits irony In Athenian and Shakespearean tragedy self righteous male or female aristocrats instigate their own disgrace shame and guilt an un expected diminishment They are victimized by a magnificent obsession a fantasy of un alloyed authority or virtue a dream of perfect self sufficiency or trust The authors of tragedy revised the concept of nobility to reflect the strange fact that grandeur elicits its own annulment

Strengths by strengths do fail Shakespeare wrote in *Coriolanus* The playwrights made this paradoxical predicament concrete with a narrative format that equates self assertion with self detraction images that revolve between incredible reversals and provisional reinstatements and speech that sounds impressively weighty but masks deception disloyalty cynicism and insecurity Three heroic philosophers Plato Hegel and Nietzsche contributed invaluable but contrasting accounts of these literary languages Aristotle's *Poetics* will be discussed in connection with Plato's attitude toward poetry Their divergent descriptions can be reconciled to show that invalidations as well as affirmations the transmission of contraries are essential for tragic composition An equivocal rhetoric a mutable imagery and an ironic progression convey the tortuous pursuit of personal preeminence or in later tragic works by Kafka and Strindberg family solidarity and communal safety I am trying to integrate the disparate arguments offered by several notable theorists with technical procedures fashioned by the Athenian dramatists and recast by Shakespeare and other writers procedures that articulate the tragic paradox

Whitehead's Radically Temporalist Metaphysics George Allan, 2020-03-05 In *Whitehead's Radically Temporalist Metaphysics Recovering the Seriousness of Time* George Allan argues that Whitehead's introduction of God into his process metaphysics renders his metaphysics incoherent This notion of God who is the reason for both stability and progressive change in the world and who is both the infinite source of novel possibilities and the everlasting repository for the finite values inserts into a reality that is supposedly composed solely of finite entities an entity both infinite and everlasting By eliminating this notion of God Allan draws on the temporalist foundation of Whitehead's views to recover a metaphysics that takes time seriously By turning to Whitehead's later writings Allan shows how this interpretation is developed into an expanded version of the radically temporalist hypothesis emphasizing the power of finite entities individually and collectively to create sustain and enhance the dynamic world of which we are a creative part

Tragic Beauty in Whitehead and Japanese Aesthetics Steve Odin, 2016-05-19 The present volume endeavors to make a contribution to contemporary Whitehead studies by clarifying his axiological process metaphysics including his theory of values concept of aesthetic experience and doctrine of beauty along with his philosophy of art literature and poetry Moreover it establishes an east west dialogue focusing on how Alfred North Whitehead's process aesthetics can be clarified by the traditional Japanese Buddhist sense of evanescent beauty As this east west dialogue unfolds it is shown that there are many striking points of convergence between Whitehead's process aesthetics and the traditional Japanese sense of beauty However the work especially focuses on two of Whitehead's aesthetic categories including the penumbral beauty of darkness and the tragic beauty of perishability while further demonstrating parallels with the two Japanese aesthetic categories of *yugen* and *aware* It is clarified how both Whitehead and the Japanese tradition have articulated a poetics of evanescence that celebrates the transience of aesthetic experience and the ephemerality of beauty Finally it is argued that both Whitehead and Japanese tradition develop an aesthetics of beauty as perishability culminating in a religio aesthetic vision of tragic beauty and its reconciliation in the supreme ecstasy of peace or nirvana

The

Creature Prasanta Chakravarty, 2021-09-30 The Creature is an invitation to follow the mechanics between power and pain which begets the creature Creatures confront power in and through conjunctures of radical contingency The casual use of power is an exercise in distraction It is an abiding conundrum that those who endure affliction also exert it as a force over other living bodies in equal measure not as acts of vengeance or bad faith but through deeds of forgetful randomness To ensure social indemnity and security creatures exercise force over kindred embodiments through a process of collective mimicry In the bargain creatures begin to disfigure and distort each other The line between mutual slaughter and mutual embrace begins to blur Each transgresses its own soul At other times power is an opaque magisterial and disdainful style of conveyance It reveals itself out of nowhere But the steadfast creature is as resilient as it is vulnerable The more it endures the greater its perdurance Perduring creatures may sometimes gain a second sight forged out of a sense of lyricality love and abdication But is abdication or taking refuge in the wondrous sufficient to release all creatures from the fatal loop of power and pain Or will they have to slowly shed creaturely affliction by a rigorous process of decreation Sifting through the writings of Giambattista Vico Niccol Machiavelli Gabriel Tarde Miguel de Unamuno Jibanananda Das Lev Shestov Raymond Geuss Jean Starobinski Ernst Bloch Simone Weil Simon Critchley Sarah Kane and others this volume explores the creaturely predicament and its possibilities of freedom The five chapters in Book I lay down fundamental questions for the creaturely condition the question of mimicry the relationship between taking initiative and being hounded the bridge between senses and destitution and the vehemence of radical contingency Book II posits the question of skepticism fideism and their connection to resilience and generosity in creatures Book III is entirely devoted to various ways of conceiving the aesthetic through the tragic the epiphanic the catastrophic and through militant material eruptions Book II and III essentially delve into the sites of freedom that lurk within the condition of the creaturely Book IV is constituted of a single chapter on the subject of decreation it grapples with questions of attention anonymity and abdication The World Tomorrow , 1921
