The History Of Raf 1939-1989:

Slim Chance: The Pivotal Role Of Air Mobility In The Burma Campaign Major Derek M. Salmi, 2015-11-06 This study applies lessons learned from air mobility's pivotal role in Field Marshal Sir William Slim's World War II Burma campaign to contemporary air mobility operations. The author begins by tracing the evolution of air mobility from its pre World War I roots to the Second World War, noting how its development proceeded despite the lack of coherent codified doctrine. Next, the author assesses Slim's Burma campaign and how the key elements of organization, training, and leadership, apart from air mobility, proved critical to Allied victory. Building upon this, the discussion turns to air mobility's contributions to Slim's joint campaign. From this analysis, the author identifies the tenets of air superiority, organization, and air mobility normalization as being critical and enduring airpower lessons from the Burma theater. The closing chapters offer a primer on contemporary mobility operations, before arguing that modern air mobility practitioners must account for five key essentials: superiority across the air and space domains, proper organization that promotes relationship building at the operational level of war, normalization of the complete air mobility supply chain, and its accompanying idea of air mobility-mindedness, training focused on increased interoperability, and the vital role of leadership.

Crossroads Crimea 1939-1989 Albert A. Denzler, 2010-05-15 There is a tide in the affairs of men Which taken at the flood leads on to fortune. Omitted all the voyage of their life Is bound in shallows and in miseries. Brutus Julius Caesar Act 4 Scene 3 William Shakespeare. In his rich and fulfilling life, Reinhard's tidal wave was his camera, with which he documented all he saw in a war he was forced to take part in. His pictures are not those of a war correspondent but of a photographer interested in people and their abodes. The author has built a story around Reinhard's photos and notes and added what he himself experienced. Reinhard's fortune is based on the enrichment he reaped and gave to everybody he ever met in the three years he sojourned in this beautiful but tragic land.

The World's Greatest Aircraft Christopher Chant, 1991 **Thinks He's a Bird** Ian Campbell, 2022-01-11 A remarkable and powerful story of indomitable human spirit, passion, and courage. In 1941, when Keith Watson, a teenage postal clerk from country Queensland, enlisted in the RAAF, he had absolutely no idea what he was getting himself into. The following four years were an adrenaline-filled ride of love, loss, mateship, ambition, courage, and sacrifice, all recorded in an intimate 800-page diary. This is an account of how war tests character and puts the young on an accelerated path to maturity. From childhood and his first inspirational flight to his emergence as an elite Pathfinder Force pilot, Keith's story is compelling and tragic yet uplifting. He confronts constant death and injury, challenges authority, learns to skipper a crew, and finds his trademark: humility running headlong into ego and ambition. Keith's graphic accounts of Pathfinder missions bring a deepening sense of the relentless physical and psychological toll on the crews of Bomber Command. Counterbalancing these experiences are Keith's relationships with wartime mates, the woman who loved him, and the UK families who sacrificed much on his behalf. Based on material never before released, *Thinks He's a Bird* is a stunning account of service, sacrifice, and two enduring and
