**Movement and Women's Employment in Nineteenth Century Britain** Ellen Jordan,2002-01-04 In the first half of the nineteenth century the main employments open to young women in Britain were in teaching dressmaking textile manufacture and domestic service After 1850 however young women began to enter previously all male areas like medicine pharmacy librarianship the civil service clerical work and hairdressing or areas previously restricted to older women like nursing retail work and primary school teaching This book examines the reasons for this change The author argues that the way femininity was defined in the first half of the century blinded employers in the new industries to the suitability of young female labour This definition of femininity was however contested by certain women who argued that it not only denied women the full use of their talents but placed many of them in situations of economic insecurity This was a particular concern of the Womens Movement in its early decades and their first response was a redefinition of feminity and the promotion of academic education for girls The author demonstrates that as a result of these efforts employers in the areas targeted began to see the advantages of employing young women and young women were persuaded that working outside the home would not endanger their femininity *Women's and Gender Studies in India* Anu Aneja,2019-04-18 This book frames the major

debates and contemporary issues in women's and gender studies in India. It locates them in the context of key theories, their interlinkages and significant crossings and overlaps within the field while juxtaposing feminist and queer perspectives. The essays in the volume foreground emerging challenges as well as offer clues to future trajectories for women's and gender studies in the country through a comprehensive and interdisciplinary survey of intersectionalities in feminist activism and theory, gender, caste and class, feminist masculinity, queer and transgender studies, disability and feminism, feminist and queer pedagogies and Indian, Western and transnational feminisms. The volume traces how gender studies have shaped established social science as well as interpretative and representational discourses, psychoanalysis, literature, aesthetics, cinema, new media studies and folklore. It examines their strategic potential to draw upon and transform these areas in national and international contexts. This book will be useful to students, teachers and researchers in women's studies, gender studies, cultural studies, queer studies and South Asian studies.

*The Routledge History of the Domestic Sphere in Europe* Joachim Eibach, Margareth Lanzinger, 2020-12-29. This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. *The Routledge History of the Domestic Sphere in Europe* contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures of private life and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper level graduates, postgraduates and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth century Europe.

**Women's Albums and Photography in Victorian England** Patrizia Di Bello, 2017-07-05 This beautifully illustrated study recaptures the rich history of women photographers and image collectors in nineteenth century England Situating the practice of collecting exchanging and displaying photographs and other images in the context of feminine sociability Patrizia Di Bello shows that albums express Victorian women's experience of modernity The albums of individual women and the broader feminine culture of collecting and displaying images are examined uncovering the cross references and fertilizations between women's albums and illustrated periodicals and demonstrating the way albums and photography itself were represented in women's magazines fashion plates and popular novels Bringing a sophisticated eye to overlooked images such as the family

photograph Di Bello not only illustrates their significance as historical documents but elucidates the visual rhetorics at play In doing so she identifies the connections between Victorian album making and the work of modern day amateurs and artists who use digital techniques to compile and decorate albums with Victorian style borders and patterns At a time when photographic album making is being re vitalised by digital technologies this book rewrites the history of photographic albums placing the female collector at its centre and offering an alternative history of photography focused on its uses rather than on its aesthetic or artistic considerations It is remarkable in elegantly connecting the history of photography with the fields of material culture and women s studies      **The Debate, 1892, in the House of Commons on Women's Suffrage** ,1892
