early twentieth century motion picture houses offensive stereotypes of African Americans were as predictable as they were prevalent Watermelon eating chicken thievery savages with uncontrollable appetites Sambo and Zip Coon were all representations associated with African American people Most of these caricatures were rendered by whites in blackface

Few people realize that from 1915 through 1929 a number of African American film directors worked diligently to counter such racist definitions of black manhood found in films like D W Griffith s The Birth of a Nation the 1915 epic that glorified the Ku Klux Klan In the wake of the film s phenomenal success African American filmmakers sought to defend and redefine

black manhood through motion pictures Gerald Butters s comprehensive study of the African American cinematic vision in silent film concentrates on works largely ignored by most contemporary film scholars African American produced and

directed films and white independent productions of all black features Using these race movies to explore the construction of masculine identity and the use of race in popular culture he separates cinematic myth from historical reality the myth of the Euro American controlled cinematic portrayal of black men versus the actual black male experience Through intense archival research Butters reconstructs many lost films expanding the discussion of race and representation beyond the debate about

exposed a virtual litany of white abuses toward blacks Black Manhood on the Silent Screen is unique in that it takes

contemporary and original film theory applies it to the distinctive body of African American independent films in the silent era and relates the meaning of these films to larger political social and intellectual events in American society By showing how both white and black men have defined their own sense of manhood through cinema it examines the intersection of race and gender in the movies and offers a deft interweaving of film theory American history and film history [American Film History](#) Cynthia Lucia,Roy Grundmann,Art Simon,2015-09-08 This authoritative collection of introductory and specialized readings explores the rich and innovative history of this period in American cinema Spanning an essential range of subjects from the early 1900s Nickelodeon to the decline of the studio system in the 1960s it combines a broad historical context with careful readings of individual films Charts the rise of film in early twentieth century America from its origins to 1960 exploring mainstream trends and developments along with topics often relegated to the margins of standard film histories Covers diverse issues ranging from silent film and its iconic figures such as Charlie Chaplin to the coming of sound and the rise of film genres studio moguls and later the Production Code and Cold War Blacklist Designed with both students and scholars in mind each section opens with an historical overview and includes chapters that provide close careful readings of individual films clustered around specific topics Accessibly structured by historical period offering valuable cultural social and political contexts Contains careful close analysis of key filmmakers and films from the era including D W Griffith Charles Chaplin Buster Keaton Erich von Stroheim Cecil B DeMille Don Juan The Jazz Singer I Am a Fugitive from a Chain Gang Scarface Red Dust Glorifying the American Girl Meet Me in St Louis Citizen Kane Bambi Frank Capra s Why We Fightseries The Strange Love of Martha Ivers Rebel Without a Cause Force of Evil and selected American avant garde and underground films among many others Additional online resources such as sample syllabi which include suggested readings and filmographies for both general specialized courses will be available online May be used alongside American Film History Selected Readings 1960 to the Present to provide an authoritative study of American cinema through the new millennium

photographs     *Outside America* Dan Moos, 2005 A new study of those excluded from the national narrative of the West Dan Moos challenges both traditional and revisionist perspectives in his exploration of the role of the mythology of the American West in the creation of a national identity While Moos concurs with contemporary scholars who note that the myths of the American West depended in part upon the exclusion of certain groups African Americans Native Americans and Mormons he notes that many scholars in their eagerness to identify and validate such excluded positions have given short shrift to the cultural power of the myths they seek to debunk That cultural power was such Moos notes that these disenfranchised groups themselves sought to harness it to their own ends through the active appropriation of the terms of those myths in advocating for their own inclusion in the national narrative that because the construction of American culture was never designed to accommodate these outsiders their writings display a division between their imagined place in the narrative of the nation and their effacement within the real West marked by intolerance and inequality
