The Origins of Religion and Language Frederic Charles Cook, 1884 [The Origins of Religion](#) Rafael Karsten, 2020-09-23 This book first published in 1935 collects together material on the origins of religion from two very different sources: South America, where the author spent six years studying the religious beliefs and customs of several Indian tribes representing different stages of culture; and the Finno-Ugrian area, where Finnish and Russian ethnologists had brought to light a new body of facts which formed an important addition to our knowledge of religious life at an early stage of cultural development. This book is a key work in the study of comparative religion and is an essential reference source on the origins of religion.

Swami Vivekananda's History of Universal Religion and Its Potential for Global Reconciliation Sister Gayatriprana,2020-09-01 This book presents in the words of Swami Vivekananda 1863 1902 a history of Vedanta the deep exploration of the inner human world going back to the most ancient rishis or seers whose testimony is still revered in India He traces the tradition up to the beginning of the twentieth century showing how the dynamics of social structures within Vedanta and the appearance from within Vedanta of traditions such as Jainism Buddhism Hinduism and Sikhism influenced and molded the tradition In addition he studies the impact of the Western Abrahamic invasions of India that began around the eleventh century CE These brought to bear on Vedanta a worldview which operated on the assumption that the physical world was the primary reality and that the kind of radical exploration of the inner world embraced by Vedanta was highly suspect and not valid The Vedantic tradition adapted in many different ways producing a variety of philosophical positions that are still extant today Along with these traditions went various forms of yoga or self transformation in Vedanta the key to experiencing the inner meaning of not only philosophy but also of our human condition and of reality itself This tradition presents four contexts of experience chatushpad suggesting the right brain mode of approach as described by Iain McGilchrist 2009 Under the influence of Shri Ramakrishna 1836 1886 Vivekananda gained access to vijnana or a knowledge higher than those classically described and known in the chatushpad Vijnana permitted the acceptance of not only the traditional deeply experiential truths of Vedanta but also of the validity of Western materialism when seen as related to each other on a continuum of consciousness to be traversed by contemporary forms of yoga I see the

result as a resolution of right left brain conflict la McGilchrist and thereby a model for universal human understanding conciliation and co operation In my introduction I attempt to show how the whole picture can be related both experientially and conceptually to matrices of consciousness developed in India as far back as the early medieval period A large glossary and index cum concordance indicate the various contexts and depths of thought that emerge from Vivekananda s multi contextual vijnana

Religion, Race, and the Making of Confederate Kentucky, 1830-1880 Luke E. Harlow,2014-04-21 This book sheds new light on the role of religion in the nineteenth century slavery debates Luke E Harlow argues that the ongoing conflict over the meaning of Christian orthodoxy constrained the political and cultural horizons available for defenders and opponents of American slavery The central locus of these debates was Kentucky a border slave state with a long standing antislavery presence Although white Kentuckians famously cast themselves as moderates in the period and remained with the Union during the Civil War their religious values showed no moderation on the slavery question When the war ultimately brought emancipation white Kentuckians found themselves in lockstep with the rest of the Confederate South Racist religion thus paved the way for the making of Kentucky s Confederate memory of the war as well as a deeply entrenched white Democratic Party in the state

Modern Religion, Modern Race Theodore Vial,2016-06-16 Religion is a racialized category even when race is not explicitly mentioned In

Modern Religion Modern Race Theodore Vial argues that because the categories of religion and race are rooted in the post Enlightenment project of reimagining what it means to be human we cannot simply will ourselves to stop using them Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world It has become common to argue that the category religion is not universal or even very old but is a product of Europe s Enlightenment modernization Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe s process of identity construction of itself and of non European others Current debates about race follow an eerily similar trajectory race is not an ancient but a modern construction It is part of the project of colonialism and race discourse forms one of the cornerstones of modern European identity making Why can t we stop using them or re construct them in less toxic ways By examining the theories of Kant Herder and Schleiermacher among others Vial uncovers co constitutive nature of race and religion describes how they became building blocks of the modern world and shows how the two concepts continue to be used today to form identity and to make sense of the world He shows that while we disdain the racist language of some of the founders of religious studies the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies Although it may not be time to abandon the very category of religion with all its attendant baggage Modern Religion Modern Race calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race

Nordic Health Law in a European Context Elisabeth Rynning,Mette Hartlev,2011-12-21 This anthology aims to provide Nordic perspectives on the young and evolving field of health law or biomedical law by reflecting on issues that have been explored within the activities of the Nordic Network for Research in Biomedical Law In the emergence of this fairly new legal discipline it has become very clear that the Nordic region forms a part of Europe that has been strongly influenced by both hard and soft law initiatives from the European Union and the Council of Europe but also that Nordic identity culture and collaboration clearly remain an important factor in the legal development of this particular region
