

# Slave Cultures And Slave Resistance

## Becoming African-American

- Like Native Americans, Africans were a diverse group - spoke different languages, practiced many religions
- New music, art, and literature emerged that combined European, African, and American aspects

## African Religion In Colonial America

- African religions practiced animism
- Many African slaves continued to practice African religion, transitioned to Christianity
  - Combined aspects of both

## African American Cultures

- Chesapeake slave population reproduced more quickly
  - More contact with whites, learned English more quickly
- SC and GA - arduous work on rice plantations
  - Less contact with whites
- Northern slaves had more mobility than Southern slaves

## **Slave Cultures And The Cultures Of Slavery:**

*Slave Cultures and the Cultures of Slavery* Stephan Palmié, 1995 Historians and anthropologists focus on the cultural dimensions of slavery in various geographical and historical settings They deal with conceptual and theoretical problems in current slavery studies as well as issues including Native American slaveholding the integration of former slaves into West African societies slave life on Caribbean sugar plantations slave cultures in Suriname female slave owners on the Gold Coast and Maroon communities Annotation copyright by Book News Inc Portland OR **Slave Culture : Nationalist Theory and the Foundations of Black America** Sterling Stuckey Professor of History Northwestern University, 1987-04-23 How were blacks in American slavery formed out of a multiplicity of African ethnic peoples into a single people In this major study of Afro American culture Sterling Stuckey a leading thinker on black nationalism for the past twenty years explains how different African peoples interacted during the nineteenth century to achieve a common culture He finds that at the time of emancipation slaves were still overwhelmingly African in culture a conclusion with profound implications for theories of black liberation and for the future of race relations in America By examining anthropological evidence about Central and West African cultural traditions Bakongo Ibo Dahomean Mendi and others and exploring the folklore of the American slave Stuckey has arrived at an important new cross cultural analysis of the Pan African impulse among slaves that contributed to the formation of a black ethos He establishes for example the centrality of an ancient African ritual the Ring Shout or Circle Dance to the black American religious and artistic experience Black nationalist theories the author points out are those most in tune with the implication of an African presence in America during and since slavery Casting a fresh new light on these ideas Stuckey provides us with fascinating profiles of such nineteenth century figures as David Walker Henry Highland Garnet and Frederick Douglass He then considers in detail the lives and careers of W E B DuBois and Paul Robeson in this century describing their ambition that blacks in American society while struggling to end racism take on roles that truly reflected their African heritage These concepts of black liberation Stuckey suggests are far more relevant to the intrinsic values of black people than integrationist thought on race relations But in a final revelation he concludes that with the exception of Paul Robeson the ironic tendency of black nationalists has been to underestimate the depths of African culture in black Americans and the sophistication of the slave community they arose from *Slavery and the Culture of Taste* Simon Gikandi, 2011-08-21 No detailed description available for Slavery and the Culture of Taste **Slave Culture** Sterling Stuckey, 2014 An updated edition of the highly acclaimed contribution to African American scholarship Slave Culture considers how various African peoples interacted on the plantations of the South to achieve a common culture tracing of the roots of black nationalist feelings in America over several centuries *Slavery & Race in American Popular Culture* William L. Van Deburg, 1984 Spanning more than three centuries from the colonial era to the present Van Deburg's overview analyzes the works of American historians dramatists novelists poets lyricists and filmmakers and exposes through those

artists often disquieting perceptions the cultural underpinnings of American current racial attitudes and divisions Crucial to Van Deburg's analysis is his contrast of black and white attitudes toward the Afro American slave experience There has in fact been a persistent dichotomy between the two races literary historical and theatrical representations of slavery If white culture makers have stressed the unmaning of the slaves and encouraged such stereotypes as the Noble Savage and the comic minstrel to justify the blacks subordination Afro Americans have emphasized a counter self image that celebrates the slaves creativity dignity pride and assertiveness ISBN 0 299 09634 3 pbk 12 50      **Slave Culture** Sterling Stuckey, 2013 An updated edition of the highly acclaimed contribution to African American scholarship Slave Culture considers how various African peoples interacted on the plantations of the South to achieve a common culture tracing of the roots of black nationalist feelings in America over several centuries      **Cultivation and Culture** Ira Berlin, Philip D. Morgan, 1993 So central was labor in the lives of African American slaves that it has often been taken for granted with little attention given to the type of work that slaves did and the circumstances surrounding it Cultivation and Culture brings together leading scholars of slavery historians anthropologists and sociologists to explore when where and how slaves labored in growing the New World's great staples and how this work shaped the institution of slavery and the lives of African American slaves The authors focus on the interrelationships between the demands of particular crops the organization of labor the nature of the labor force and the character of agricultural technology They show the full complexity of the institution of chattel bondage in the New World and suggest why and how slavery varied from place to place and time to time      **Slave Culture** Spencer R. Crew, Lonnie G. Bunch III, Clement A. Price, 2014-05-28 For the first time the WPA Slave Narratives are organized by theme making it easier to examine and understand specific aspects of slave life and culture There is no better way to appreciate history than to experience it through the eyes of those who lived it Slave Culture A Documentary Collection of the Slave Narratives from the Federal Writers Project brings together the memories of the last generation of enslaved African Americans gathered through interviews conducted between 1936 and 1938 This three volume work stands apart from previous Slave Narrative collections in that it organizes the narratives thematically bringing the rich tapestry of slave culture to life in a fresh way Within each thematic area multiple excerpts span time gender and geography An introductory essay for each theme and a contextual explanation for each narrative help readers draw lessons from this vast collection while an introduction to the work explains the Works Progress Administration's Slave Narrative project illuminating still another era in American history      **Memories of the Enslaved** Spencer R. Crew, Lonnie G. Bunch III, Clement A. Price, 2015-09-15 This book offers a first person perspective on the institution of slavery in America providing powerful engaging interviews from the WPA slave narrative collection that enable readers to gain a true sense of the experience of enslavement Today's students understandably have a hard time imagining what life for slaves more than 150 years ago was like The best way to communicate what slaves experienced is to hear their words directly The material in this concise single volume work

illuminates the lives of the last living generation of enslaved people in the United States former slaves who were interviewed about their experiences in the 1930s Based on more than 2 000 interviews the transcriptions of these priceless interviews offer primary sources that tell a diverse and powerful picture of life under slavery The book explores seven key topics childhood marriage women work emancipation runaways and family Through the examination of these subject areas the interviews reveal the harsh realities of being a slave such as how slave women were at the complete mercy of the men who operated the places where they lived how nearly every enslaved person suffered a beating at some point in their lives how enslaved families commonly lost relatives through sale and how enslaved children were taken from their parents to care for the children of slaveholders The thematic organizational format allows readers to easily access numerous excerpts about a specific topic quickly and enables comparisons between individuals in different locations or with different slaveholders to identify the commonalities and unique characteristics within the system of slavery

*American Political Cultures* Richard J. Ellis, 1993-07-29 This work challenges the thesis first formulated by de Tocqueville and later systematically developed by Louis Hartz that American political culture is characterized by a consensus on liberal capitalist values Ranging over three hundred years of history and drawing upon the seminal work anthropologist Mary Douglas Richard Ellis demonstrates that American history is best understood as a contest between five rival political cultures egalitarian community competitive individualism hierarchical collectivism atomized fatalism and autonomous hermitude

*Society and Culture in the Slave South* J. William Harris, 2013-02-01 Combining established work with that of recent provocative scholarship on the antebellum South this collection of essays puts students in touch with some of the central debates in this dynamic field It includes substantial excerpts from the work of Eugene Genovese and Elizabeth Fox Genovese who lay out the influential interpretation of the South as a paternalistic society and culture and contributions from more recent scholars who provide dissenting or alternative interpretations of the relations between masters and slaves and men and women The essays draw on a wide range of disciplines including economics psychology and anthropology to investigate the nature of plantation and family life in the South Explanatory notes guide the reader through each essay and the Editor's introduction places the work in its historiographical context

*From Africa to Jamaica* Audra A. Diptee, 2010-07-18 Rich with historical sketches of the life and experiences of slaves in Africa on slave ships and in Jamaica this volume illustrates the way enslaved Africans lived and helped to shape Jamaican society in the three decades before British abolition of the slave trade Audra Diptee's in depth investigations reveal unexpected insights into the demographics of those captured in Africa and legally transported on British slave ships For example there is a commonly held belief that slave traders had a preference for adult males In fact the practicalities of slave raiding meant that women children and large groups of the elderly were particularly vulnerable during raids and were more often captured and made available for sale in the Caribbean From Africa to Jamaica offers a new look at the Atlantic slave trade in its final years fleshing out the historical portrait of the African men women and children who were

sold in Jamaica and were thus among the last of the enslaved to put their stamp on Jamaican society There is no comparable study that takes such a comprehensive approach looking at both the African and Jamaican sides of the trade system

*Politics, Policy, And Culture* Dennis J Coyle,Richard J Ellis,2019-06-04 This new set of original case studies is designed to offer an empirical counterpart to Cultural Theory Westview 1990 the landmark statement of political culture theory authored by Michael Thompson Richard Ellis and Aaron Wildavsky and to extend and challenge the analysis developed there Here the theoretical concepts laid out in that book

**The Slave Trade and Culture in the Bight of Biafra** G. Ugo Nwokeji,2010-09-13 The Slave Trade and Culture in the Bight of Biafra dissects and explains the structure dramatic expansion and manifold effects of the slave trade in the Bight of Biafra By showing that the rise of the Aro merchant group was the key factor in trade expansion G Ugo Nwokeji reinterprets why and how such large scale commerce developed in the absence of large scale centralized states The result is the first study to link the structure and trajectory of the slave trade in a major exporting region to the expansion of a specific African merchant group among other fresh insights into Atlantic Africa s involvement in the trade and the most comprehensive treatment of Atlantic slave trade in the Bight of Biafra The fundamental role of culture in the organization of trade is highlighted transcending the usual economic explanations in a way that complicates traditional generalizations about work domestic slavery and gender in pre colonial Africa

**Linking the Histories of Slavery** Bonnie Martin,2015-11-01 This volume has brought together scholars from anthropology history psychology and ethnic studies to share their original research into the lesser known stories of slavery in North America and reveal surprising parallels among slave cultures across the continent Although they focus on North America these scholars also take a broad view of slavery as a global historical phenomenon and describe how coercers and the coerced as well as outside observers have understood what it means to be a slave in various times and cultures including in the twentieth and twenty first centuries The contributors explore the links between indigenous customs of coercion before European contact those of the tumultuous colonial era some of the less familiar paradigms of slavery before the Civil War and the hazy legal borders between voluntary and involuntary servitude today The breadth of the chapters complements and enhances traditional scholarship that has focused on slavery in the colonial and nineteenth century South and the contributors find the connections among the many histories of slavery in order to provide a better understanding of the many ways in which coercion and slavery worked across North America and continue to work today Published in cooperation with the William P Clements Center for Southwest Studies Southern Methodist University

**More** Daniel E. Walker, However urban slave societies might have differed from their rural counterparts they still relied on a concerted assault on the psychological social and cultural identity of their African descended inhabitants to maintain power and control This ambitious book looks at how people of African descent in two such societies Havana and New Orleans in the nineteenth century created and maintained their own forms of cultural resistance to the slave regime s assault and in the process put forth autonomous views of self and the social landscape In Havana s annual Dia de Reyes festival and in the weekly activities that took place at New Orleans s Congo Square author Daniel Walker identifies specific cultural beliefs and activities that Africans brought to the New World and modified in order to withstand and contest the dehumanizing effects of oppression No More No More crosses disciplinary boundaries as well elucidating the economic social cultural and demographic operations at work in two cities and the wide scale efforts at cultural resistance embodied in public performances **Capoeira** Matthias Röhrig Assunção,2005 Capoeira is an Afro Brazilian martial art now spreading over the

rest of the world and this book the only complete history of the art in the English language traces the history of the martial art and examines its influence **Encyclopedia of Historians and Historical Writing** Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies
