Sleeping Beauty Memorial Photography In America:

Sleeping Beauty Stanley B. Burns, 1990 *Sleeping Beauty III* Stanley B. Burns, 2011 *Sleeping Beauty III Memorial Photography The Children* includes over 125 post mortem photographs from photography's earliest era through the present. The historic images are classic representations of American and European memorial cultural traditions and the modern are contemporary practices of bereavement and memorialization. It is used as a reference for bereavement organizations, photographers, hospital staff and parents engaged in renewing the practice of memorial photography. *The Revival Styles in American Memorial Art* Peggy McDowell, Richard E. Meyer, 1994. From the late eighteenth through the early twentieth centuries a sweeping movement in architectural and decorative taste dominated Western cultures. Known collectively by the descriptive term Revival Styles, this phenomenon which left a rich visual legacy upon the cultural landscapes of many nations exhibited three primary manifestations: Classical (chiefly Greek and Roman), Gothic or Medieval, and Egyptian or Near Eastern. In America, for a variety of reasons, a significantly large amount of the creative energy inherent in the Revival movement was directed towards the conception and erection of spectacular monuments and memorials to prominent Americans. Frequently designed and executed by the leading architects and sculptors of the day, the great majority of these strikingly beautiful artifacts and structures were placed in the large rural cemeteries of American cities developed in the middle decades of the nineteenth century where they remain for future generations to analyze and admire. In this richly illustrated volume, art historian Peggy McDowell and folklorist Richard E. Meyer blend their respective disciplinary perspectives along with their shared long-standing fascination with cemeteries and funerary material culture to provide a thoroughgoing descriptive analysis of this dramatic chapter in the history of American memorial art. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved. *Wasted: Performing Addiction in America* Heath A. Diehl, 2016-02-17. Departing from the scholarly treatment of addiction as a form of rhetoric or discursive formation, *Wasted: Performing Addiction in America* focuses on the material lived experience of addiction and the ways in which it is shaped by a metaphor of waste from the manner in which people describe the addict, the experience of inebriation or his or her systematic exclusion from various aspects of American culture. With analyses of scientific and popular cultural texts such as novels and films, scholarly or medical models of addiction, reality television, TV drama, public health and anti-addiction campaigns, and the lives of celebrities who struggled with addiction, this book recovers the sense of materiality in which the experience of substance abuse is anchored, revealing addiction to be a set of socio-cultural practices, historically contingent events and behaviours. Exploring the ways in which addiction as an identity construct, as a social problem and as a lived experience is always and already circumscribed by the metaphor of waste, *Wasted: Performing Addiction in America* advances the idea that addiction constitutes a site of social control beyond the individual through which American citizenship is regulated and the nation itself is imagined, demarcated and contained. As such, it will appeal to scholars of popular culture, cultural and media studies.

Bodies of Stone in the Media, Visual Culture and the Arts Alessandra Violi,Barbara Grespi,Andrea Pinotti,Pietro Conte,2025-10-01 If mediatization has surprisingly revealed the secret life of inert matter and the face of things the flipside of this has been the petrification of living organisms an invasion of stone bodies in a state of suspended animation Within a contemporary imaginary pervaded by new forms of animism the paradigm of death looms large in many areas of artistic experimentation pushing the modern body towards mineral modes of being which revive ancient myths of flesh made stone and the issue of the monument Scholars in media visual culture and the arts propose studies of bodies of stone from actors simulating statues to the transmutation of the filmic body into a fossil from the real treatment of the cadaver as a mineral living object to the rediscovery of materials such as wax from the quest for a thermal equivalence between stone and flesh to the transformation of the biomedical body into a living monument Battle Lines Eliza Richards,2018-10-02 During the U S Civil War a combination of innovative technologies and catastrophic events stimulated the development of news media into a central cultural force Reacting to the dramatic increases in news reportage and circulation poets responded to an urgent

The Desperate Genealogist's Idea Book: Creative Ways to Outsmart Your Elusive Ancestors, 2006 [Technologies of the Human Corpse](#) John Troyer, 2021-08-03 One of our greatest thinkers on death presents a radical new approach to thinking about dying and the human corpse Caitlin Doughty mortician and bestselling author of *Smoke Gets in Your Eyes* A fascinating exploration of the relationship between technology and the human corpse throughout history from 19th century embalming machines to 21st century death prevention technologies Death and the dead body have never been more alive in the public imagination not least because of current debates over modern medical technology that is deployed it seems expressly to keep human bodies from dying blurring the boundary between alive and dead In this book John Troyer examines the relationship of the dead body with technology both material and conceptual the physical machines political concepts and sovereign institutions that humans use to classify organize repurpose and transform the human corpse Doing so he asks readers to think about death dying and dead bodies in radically different ways Troyer explains for example how technologies of the nineteenth century including embalming and photography created our image of a dead body as quasi atemporal existing outside biological limits formerly enforced by decomposition He describes the Happy Death Movement of the 1970s the politics of HIV AIDS corpse and the productive potential of the dead body the provocations of the Body Worlds exhibits and their use of preserved dead bodies the black market in human body parts and the transformation of historic technologies of the human corpse into death

prevention technologies The consequences of total control over death and the dead body Troyer argues are not liberation but the abandonment of Homo sapiens as a concept and a species In this unique work Troyer forces us to consider the increasing overlap between politics dying and the dead body in both general and specifically personal terms *Watching Shakespeare on Television* Herbert R. Coursen, 1993 *Watching Shakespeare on Television* looks at Shakespeare as a cultural phenomenon and at the videocassette as text that is as an object fixed in time as well as in its assumptions about its medium Even films made to be shown at a cinema are also designed to become cassettes for the vast secondary market H R Coursen's study of Shakespearean films and television productions includes such classics as Olivier's Hamlet and Brook's and Welles's King Lear as well as more recent productions such as Kevin Kline's and Mel Gibson's Hamlets Kenneth Branagh's Henry V and Peter Greenaway's version of The Tempest Prospero's Books Shakespeare's scripts are designed to be open to interpretation That openness is not the invention of disciples of Foucault or Derrida The meaning of a Shakespeare script can never be fixed rather it is a temporal quality that shows how a script reflects reinterprets or reemphasizes the cultural and ideological assumptions of a particular moment in history Shakespeare remains popular as Branagh's Henry V Zeffirelli's Hamlet and a proliferation of Shakespeare's festivals prove The energy known as Shakespeare cannot be isolated from the culture that constantly reappropriates the scripts and creates new audiences for them Shakespeare works on television because television is a linguistic medium and because we are becoming accustomed to the diminished scale of the television and the videocassette as opposed to the grander dimensions of cinema Shakespeare survives domestication but in ways that demand investigation about why and how the scripts can work on television and about the nature of this medium when it is charged with Shakespearean energy *Watching Shakespeare on Television* looks at Gertrude a character often clear in performance even if unwritten in the script and at Hamlet's disquisition to Yorick's skull subject to a wide range of options and interpretations Other subjects covered are style in A Midsummer Night's Dream particularly the 1982 ART production the advantages film has over studio productions and editing scripts for television with a focus on the Nunn Othello and the Kline Hamlet In the latter production long takes contrast with the quicksilver montage technique of Zeffirelli's film version Another chapter examines Othello as a script demanding a black actor in the lead and it looks at the Nunn and Suzman versions as cases in point Closure in Hamlet is analyzed as well television the modern medium of political closure tends to include Fortinbras as opposed to film which usually excludes him Another chapter evaluates Prospero's Books where the importation of television to film tends to erase film's field of depth and results in no improvement regardless of the trumpeted technological breakthrough of high definition television Finally the book peers into the future of Shakespeare's moving image with attention paid to Peter Donaldson's Interactive Archive at MIT [Ancestry magazine](#), 2005-09 Ancestry magazine focuses on genealogy for today's family historian with tips for using Ancestry.com advice from family history experts and success stories from genealogists across the globe Regular features include Found by Megan Smolenyak reader submitted
