Slovo Dusha Nasha:

The Heart of Russia Scott Mark Kenworthy, 2010-10-08 In the 1830s and 1840s increasing numbers of Russians renounced the modernized secularized Westernized Russia created by Peter the Great in an effort to revive alternative lifestyles based on Orthodox spirituality and values This effort found expression in a revival of monasticism that began in the era of Nicholas I and would last for the duration of the imperial period brought to an end only by the cataclysm of revolution and repression of the new Bolshevik regime Suppressed by the communists Russian monasticism experienced another revival in the post World War II era and again in the post Soviet period demonstrating that the impulse to renounce the contemporary world for the cloister is a central pattern of Russian religiosity This book is the first comprehensive analysis of these monastic revivals presenting a fundamentally new picture of religion in modern Russia Scott Kenworthy's approach is that of a contextualized microhistory an in depth study of one monastic complex framed within research on monasticism more broadly The case study here is Russia's largest and most famous monastery the Trinity Sergius Lavra in Sergiev Posad near Moscow With the collapse of the Soviet Union the Russian Orthodox Church is again experiencing a revival and monasticism is playing a central role in this resurgence In the search to recover the past Russian Orthodox are turning to the nineteenth century revival as a normative model Numerous Russians are once again renouncing the contemporary world in this case both the socialist past and the post socialist capitalist present and opting for a mode of life that represents a return to past values Monasteries are again foci of popular piety as well as of important publishing activities and their spirituality is regarded as the purest expression of Orthodox ideals This book provides an essential basis for understanding Orthodoxy in its historical context and its contemporary manifestations

The Making of Holy Russia John Strickland, 2013-09-01 This book is a critical study of the interaction between the Russian Church and society in the late 19th and early 20th century While other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative faith on the other

Suicide and the Body Politic in Imperial Russia Susan K. Morrissey, 2007-01-04 In early twentieth century Russia suicide became a public act and a social phenomenon of exceptional scale a disquieting emblem of Russia's encounter with modernity This book draws on an extensive range of sources from judicial records to the popular press to examine the forms meanings and regulation of suicide from the seventeenth century to 1914 placing developments into a pan European context It argues against narratives of secularization that read the history of suicide as a trajectory from sin to insanity crime to social problem and instead focuses upon the cultural politics of self destruction Suicide the act the body the

socio medical problem became the site on which diverse authorities were established and contested not just the priest or the doctor but also the sovereign the public and the individual This panoramic history of modern Russia told through the prism of suicide rethinks the interaction between cultural forms individual agency and systems of governance **For a Better**
