Annual Meeting, 1983 [Statistics of Income and Related Administrative Record Research](#) American Statistical Association. Meeting, 1982 *Structural and Demographic Business Statistics 2006* OECD, 2006-07-26 Provides a wealth of industry information at a very detailed level including turnover value added production operating surplus employment labour costs and investment to name but a few broken down by sector and business size classes *Selected Small Business Statistics* Library of Congress. Congressional Research Service, 2007 Summarizes selected statistics on the role of small businesses in the national economy as well as small business ownership employees and the Small Business Administration , *Improving Business Statistics Through Interagency Data Sharing* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Steering Committee for the Workshop on the Benefits of Interagency Business Data Sharing, 2006-10-11 U S business data are used broadly providing the building blocks for key national as well as regional and local statistics measuring aggregate income and output employment investment prices and productivity Beyond aggregate statistics individual and firm level data are used for a wide range of microanalyses by academic researchers and by policy makers In the United States data collection and production efforts are conducted by a decentralized system of statistical agencies This apparatus yields an extensive array of data that particularly when made available in the form of microdata provides an unparalleled resource for policy analysis and research on social issues and for the production of economic statistics However the decentralized nature of the statistical system also creates challenges to efficient data collection to containment of respondent burden and to maintaining consistency of terms and units of measurement It is these challenges that raise to paramount importance the practice of effective data sharing among the statistical agencies With this as the backdrop the

Bureau of Economic Analysis BEA asked the Committee on National Statistics of the National Academies to convene a workshop to discuss interagency business data sharing The workshop was held October 21 2005 This report is a summary of the discussions of that workshop The workshop focused on the benefits of data sharing to two groups of stakeholders the statistical agencies themselves and downstream data users Presenters were asked to highlight untapped opportunities for productive data sharing that cannot yet be exploited because of regulatory or legislative constraints The most prominently discussed example was that of tax data needed to reconcile the two primary business lists use by the statistical agencies
