Gaia's Garden Toby Hemenway, 2009-05-19 Gaia s Garden will be recorded in history as a milestone for gardeners and landscapers An amazing achievement Paul Stamets The classic book about ecological gardening whatever size your garden with over 250 000 copies sold A great book Men s Journal Gaia s Garden has sparked the imagination of home gardeners the world over by introducing a simple message working with nature not against her results in more beautiful abundant and forgiving gardens Many people mistakenly think that ecological gardening which involves growing a wide range of edible and other useful plants can take place only on a large multiacre scale As Hemenway demonstrates it s fun and easy even for the beginner to create a backyard ecosystem by assembling communities of plants that can work cooperatively and perform a variety of functions including Building and maintaining soil fertility and structure Catching and conserving water in the landscape Providing a rewilded and biodiverse habitat for beneficial insects birds and animals Growing an edible forest that yields seasonal fruits nuts and other foods This revised and updated edition also features a chapter on urban permaculture designed especially for people in cities and suburbs who have very limited growing space Whatever size yard or garden you have to work with you can apply basic permaculture principles to make it more diverse more natural more productive and more beautiful Best of all once it s established an ecological garden will reduce or eliminate most of the backbreaking work that s needed to maintain the typical lawn and garden

Theorizing the City Setha M. Low, 1999 Anthropological perspective are not often represented in urban studies even though many anthropologist have been contributing actively to theory and research on urban poverty racism globalization and architecture Theorizing the City corrects this omission Following a brief history of urban anthropology emphasizing developments in the field during the 1990s this volume presents twelve ethnographies of major cities in the Americas Africa

Asia and Europe Five images of the city the divided city the contested city the global city the modernist city and the postmodern city serve as frameworks for the essays Each section highlights current research trends such as poststructural studies of race class and gender in the urban context political economic studies of transnational culture and studies of the symbolic meanings and social production of urban spaces *Ecological Thought in German Literature and Culture* Gabriele Duerbeck,Urte Stobbe,Hubert Zapf,Evi Zemanek,2017-10-16 The volume offers a survey of the contribution of German literature and culture to the evolution of ecological thought As the field of ecocritical theory and practice is rapidly expanding towards transnational and global dimensions it seems nevertheless necessary to consider the distinct manifestations of ecological thought in various cultures In this sense the volume demonstrates in twenty six essays from different disciplines how German literature philosophy art and science have contributed in unique ways to the emergence of ecological thought on national and transnational scale The volume maps the most important and characteristic of these developments both on a theoretical and on a textual analytical level It is structured in five parts ranging from proto ecological thought since early modern times part I to major theoretical approaches part II environmental history part III and ecocritical case studies part IV to ecological visions in different media and art forms part V The four editors have widely published and are actively involved in ecocritical literary and cultural studies The group of editors consists of two scholars of German literature and cultural studies Gabriele Duerbeck and Urte Stobbe both University of Vechta a scholar in German and comparative literature Evi Zemanek University of Freiburg as well as a scholar of Anglo American ecoliterature and ecocriticism Hubert Zapf All of them are involved in various projects and research networks on ecology and literature The contributors of the individual chapters likewise are all experts in their respective fields ranging from German literature history environmental studies art history music and art The book is a unique and readily accessible collection of essays that is of relevance not only for a German and continental European but for a worldwide audience *Community Eco-Gardens* Dennis Swiftdeer Paige,2020-12-18 Part how to part personal narrative this book provides a practical guide for creating native species ecogardens It chronicles the author s 20 year journey of environmental awakening With the help of the greater community a neglected five acre condominium landscape is transformed into a stunning range of multi seasonal prairie woodland and wetland micro habitats This illustrated account describes the process of ecological reconciliation and traces his discovery of the higher self along the way *Mage's Odyssey* 5 Ethan Starborne,2024-07-11
